in that he Vladimir Sergeevich Pakhomov committed the management of a structural subdivision included in a criminal association (criminal organisation), participation in a criminal association (criminal organisation), committed by a person using his official position, namely:

R.V. Shpakov, being the head of the financial group "QBF" (QBF), general director and a participant of various legal entities, using his official position expressed in influencing other persons to perform certain actions aimed at their participation in a criminal association (criminal organisation), based on the importance and authority of the positions he holds and his position in the organisations that were part of this financial group, having the intention to systematically commit serious crimes of mercenary orientation, i.e., fraud

In order to achieve the desired criminal result, R.V. Shpakov developed a plan to create and form a criminal association with a clear distribution of roles among the participants, the main activity of which was to commit fraud under the pretext of investing funds in securities with high yields, as well as under the guise of fulfilling obligations under over - the - counter option contracts.

According to the criminal plan, R.V. Shpakov, realising the public danger of his criminal actions, using his official position for criminal purposes, formed a criminal association as follows:

- the creation of a number of functionally separate structural units that performed strictly defined functions and had a clear specialisation for specific offences;
- involvement in the criminal association of direct managers of separate structural subdivisions from among trusted persons, as well as persons inclined to commit theft by deception;
- Finding, creating and registering legal entities in accordance with the procedure established by law, the details of which were used in the production of standard sets of fictitious contracts and accompanying documents, allegedly testifying to the legitimate activities of these organisations;
- Involvement in the criminal community (criminal organisation), in its structural subdivisions of direct executors of criminal intent from among persons involved in the activities of organisations, inclined to commit theft by deception, having mercenary aspirations;
- involvement in the criminal association of persons who ensured the functioning of the structural units of the criminal association as a whole;
- determination of the scheme of distribution of criminal income, which allowed the direct perpetrators of the crimes to maintain financial motivation directly dependent on the number of defrauded citizens, as well as the formation of a criminal fund, the money from which was used to finance the activities of the criminal association;
- the involvement in the activities of organisations used by the criminal association of persons unaware of the criminal intent of the participants in the criminal association;
- development of certain methods and techniques of deception, the use of which enabled the direct perpetrators of the offences and persons involved in the activities of organisations used by the criminal association, unaware of the criminal nature of the actions of co - conspirators, to achieve the criminal association's objective of obtaining criminal proceeds;
- creation of a strict hierarchy between the heads of functionally separate structural units, lower - level managers and direct perpetrators of crimes, in order to create the possibility of using the developed methods and ways of deception by persons who directly communicated with clients.
- At the initial stage of establishing the criminal association, R.V. Shpakov determined the direction of joint criminal activity with his co - conspirators, aimed at violating the legally protected property rights of citizens by fraudulent means, and in order to directly obtain material benefits, developed a detailed criminal plan for a long period of activity, which consisted in the distribution of roles among the members of the criminal association, the interaction of its subdivisions in order to realise common criminal intentions, as well as the distribution of functions between them, orchestrating the criminal association's activities, and the allocation of functions of the criminal association.
- The plan developed by R.V. Shpakov for the activities of a criminal association aimed at committing serious offences envisaged the following stages:
 - seeking money necessary to support the criminal activities of the criminal association and its structural subdivisions;
 - registration and search for legal entities both in the territory of the Russian Federation and in the territory of foreign states, the requisites of which were used in the preparation of standard sets of fictitious contracts, agreements and related documents, allegedly testifying to the legitimate activities of these organisations;
 - finding and attracting accomplices, assigning them criminal roles in the criminal association, as well as attracting persons unaware of the criminal intentions of the participants in the criminal association, in order to ensure the functioning of the mechanism of committing crimes and increase the number of citizens willing to enter into client agreements for the provision of direct access services to international stock markets, trust management

- agreements, service agreements, agreements for the provision of services, agreements for the provision of brokerage services (attachment agreements), agreements for the provision of direct access to international stock markets, and agreements for the provision of brokerage services (attachment agreements).
- developing an individual plan for committing offences and selecting a method of committing and concealing offences.
 - coordination of the activities of participants in the criminal association;
 - Organisation of the process of producing client agreements on provision of direct access services to international stock markets, agreements on provision of trust management services in accordance with the agreement on provision of direct access services to international stock markets, trust management agreements, service agreements, service agreements, brokerage service agreements (adhesion agreements), OTC option agreements, as well as other documents used for embezzlement of funds
 - Placement of advertisements in mass media and the Internet about the benefits of concluding client agreements on providing direct access to international stock markets, as well as OTC option agreements;
 - development of various algorithms of negotiations with clients in order to create a relationship of trust between the latter and the participants of the criminal association and to mislead citizens by providing deliberately false information about the profitability of investing money;
 - training the members of the criminal community in special terminology, algorithms of deception, as well as the formation of the latter's goal and motivation to take possession of as much of the victim's money as possible by creating a system of bonuses and incentives within the criminal community;
 - Finding office premises in various regions of the Russian Federation, which were used both by members of the criminal association and by persons unaware of the criminal intentions of the co - conspirators, and which were used to hold meetings, negotiate with clients and receive money from the latter;
 - ensuring partial return (withdrawal) of funds deposited by clients (investors) that were stolen in order to create the appearance of objective trading and market volatility, as well as to prevent clients from reporting thefts to law enforcement authorities;
 - The implementation of measures to conceal offences and avoid possible criminal or other liability by giving the appearance of legality to financial activities;
 - clear distribution of funds in the interests of the criminal association, as well as among its members, based on the "contribution" of each participant to criminal activity;
 - implementation of other actions aimed at the smooth functioning of the criminal activity scheme.

According to the criminal plan of R.V. Shpakov, the criminal association created and directed by him embezzled money from citizens under the guise of providing brokerage services.

R.V. Shpakov knew that in accordance with the Federal Law of 22.04.1996 No. 39 - FZ "On the Securities Market", as well as in accordance with numerous instructions, regulations, guidelines of the Central Bank of the Russian Federation in the field of professional participants of the securities market, brokerage activity is the activity on execution of the client's order to perform civil law transactions with securities and (or) to conclude agreements that are derivative financial instruments, carried out on the basis of compensatory contracts with the client. At the same time, R.V. Shpakov, in violation of the above law, planned to systematically steal money belonging to citizens by means of deceit, which consisted of deliberate communication of knowingly false information to clients, with the aim of obtaining criminal income and distribution by concluding, on behalf of organisations controlled by the participants of the criminal association, acting under the guise of brokerage companies, client agreements on provision of direct access to international stock markets, trust management agreements, and agreements on provision of financial derivatives.

In accordance with the criminal plan developed by R.V. Shpakov, in order to commit serious crimes, as well as in order to veil his criminal activity and make his actions look legitimate, no later than 31 December 2011. was sought LLC Investment Company QBIF (INN 7733673955, before renaming on 13.04.2016 - LLC IK QBIF Investment, before renaming on 23.12.2015 - LLC QBIF Finance, hereinafter referred to as the Company), which had a licence dated 24 December 2009 No. 045 - 12805 - 100000 for brokerage activities, licence dated 24 December 2009. No. 045 - 12816 -

010000 for dealer activities, license No. 045 - 12828 - 001000 dated 24 December 2009 for securities management activities and license No. 045 - 14078 - 000100 dated 08 August 2019 for depository activities (which were cancelled by the decision of the Central Bank of the Russian Federation on 08 July 2021 due to numerous violations of the requirements of the legislation, regulations of the Central Bank of the Russian Federation and internal documents of the Company). The said Company, its details and accounts were supposed to be used by the participants of the criminal association to mislead clients about the true intentions of the co - conspirators and subsequent commission of serious crimes - embezzlement of funds, as well as to create a belief in citizens (clients) about the profitable investment of funds, who believed that they were interacting with a professional participant of the securities market, which was engaged in these types of activities and was obliged to ensure the priority of the client's interests pa

In addition, not stopping there, in order to attract more clients and, as a consequence, more money for further embezzlement, R.V. Shpakov, together with members of the criminal association, in the course of criminal activity, no later than 31 December 2019, developed and implemented an additional criminal plan, which provided for the following. Within the framework of the brokerage services agreement (adhesion agreement) concluded by QBIF Investment Company LLC (hereinafter referred to as "the Broker") with its clients, the Company, when executing transactions, executed the clients' orders to conclude transactions on the OTC market with derivative financial instruments, including options, the underlying asset of which were equity securities of foreign issuers (hereinafter referred to as "OTC option contracts"). The counterparty (seller) under all OTC option contracts, including those concluded in the interests of clients - individuals, was an organisation affiliated with QBIF Investment Company LLC - Q-BROKER LLC (INN 9703003668), the ultimate beneficiary of which was R.V. Shpakov.

In this case, in accordance with the criminal plan, the implementation of OTC options by Q-BROKER LLC was to function as a financial pyramid scheme, where the source of return of funds to clients under OTC option contracts executed or partially executed by Q-BROKER LLC was the funds received under newly concluded option contracts, and the ultimate goal of the option contracts was to carry out schematic operations for withdrawal of funds outside the Russian Federation, cashing out of the Russian Federation.

The direct theft of money belonging to citizens was also carried out according to the criminal plan developed by R.V. Shpakov, divided into several stages.

The first stage of embezzlement of citizens' money provided that the participants of the first structural subdivision of the criminal association, as well as persons unaware of the criminal intentions of the accomplices, who were under the control of R.V. Shpakov, acting in accordance with the instructions of the head of the structural subdivision, received the data of selected potential clients (investors) who had the opportunity to transfer or deposit large sums of money into their accounts, to conclude contracts (agreements) with them, as well as to impose trust services.

The second stage of embezzlement of citizens' money provided that the participants of the first structural subdivision of the criminal association, as well as persons unaware of the criminal intentions of the accomplices, who were under the control of R.V. Shpakov, acting in accordance with the instructions of the head of the structural subdivision, by telephone or at a personal meeting misled the clients about their true intentions and created a belief in the citizens that they were offered a profitable investment of their money. In turn, the clients believed that they were interacting with a professional participant in the securities market who was engaged in brokerage activities and was obliged to ensure that the client's interests were prioritised over its own interests.

The third stage of the theft of citizens' money provided that the participants of the first structural subdivision of the criminal association, as well as persons unaware of the criminal intentions of the accomplices, who were under the control of R.V. Shpakov, acting in accordance with the instructions of the head of the structural subdivision, organised the process of preparing and signing client agreements on the provision of direct access to international stock markets, agreements on the provision of trust management services in accordance with the agreement of the first structural subdivision of the criminal association.

The fourth stage of embezzlement of citizens' money provided that the participants of the first structural subdivision of the criminal association, as well as persons unaware of the criminal intentions of the accomplices, who were under the control of R.V. Shpakov, acting in accordance with the instructions of the head of the structural subdivision, carried out and organised the process of accepting cash or the process of transferring money from the accounts of clients to the accounts of individuals and legal entities controlled by the criminal association.

At the same time, the participants of the criminal association were allowed to modify the algorithm of communication with clients, taking into account the specific situation, in order to achieve the common goal of extracting criminal income, while fulfilling their predetermined roles. Thus, the entire plan of criminal actions was aimed solely at obtaining by deception and abuse of trust as much money as possible, regardless of the circumstances.

R.V. Shpakov, using his official position, in the period from 31 December 2011 to 31 August 2017, implementing plans to create a criminal association, formed from its participants, as well as other persons involved in criminal activity, a structured organised group consisting of 3 functionally separate organised groups (structural subdivisions of the criminal association), with a clear distribution of roles, interacting with each other in order to implement a single criminal intent and performing strictly defined functions. At the same time, he identified the heads of these structural subdivisions from among his acquaintances, having previously obtained their consent to join the criminal association, and initiated them into the criminal plan aimed at stealing citizens' money.

Thus, the criminal association created and directed by R.V. Shpakov included: no later than 27 March 2012, the exact date and time not determined by the investigation, V.S. Pakhomov, no later than 01 June 2012, the exact date and time not determined by the investigation, Z.V. Munaev, no later than 31 December 2013, the exact date and time not determined by the investigation, Athanasiadou Linda, no later than 28 February 2015, the exact date and time not determined by the investigation, A.S. Golubev, no later than 26 July 2017, the exact date and time not determined by the investigation, S.A. Matyukhin, no later than 31 August 2017, the exact date and time not determined by the investigation, E.A. Rossieva, and in the period from 31 December 2011 to 26 May 2021, the exact date and time not determined by the investigation, unidentified persons who were initiated into the common criminal plan and involved in criminal activity. After that, the above - mentioned persons, aware of the common goals of the criminal association, with the aim of criminal enrichment, out of selfish motives, voluntarily agreed to fulfil the criminal roles assigned to them, thus joining the criminal association.

- the development and application of a single value and normative motivation, the basis of which was material incentives for members of the criminal association depending on the number of defrauded citizens and the amounts received from clients in the commission of crimes;
- distribution of criminal proceeds in accordance with the position of each participant in the hierarchy of the criminal association, expressed in the allocation of a set percentage of the money received as a result of the commission of crimes by the participants of the criminal association to the organiser, heads of structural subdivisions, managers, as well as to persons unaware of the criminal intentions of the participants of the criminal association.

The consciousness and will of all accomplices in the offences encompassed circumstances relating not only to their own criminal act, but also to the acts of other accomplices. This was expressed in the following:

- all members of the criminal association united on the basis of common selfish goals and criminal intent aimed at obtaining systematic profits from embezzlement of funds;
- the actions of the members of the criminal association were coordinated and interconnected with each other and aimed at achieving a single criminal result;
- Each of the participants was aware of the structure of the criminal association, of the actions performed by each member of the association, and hoped for their successful completion, since the illegal actions of some members of the criminal association, without the successful completion of the actions of other members of the criminal association, would not lead to the final criminal result and goals desired by the participants of the criminal association.
-

In addition, the participants of the criminal association determined in advance possible obstacles for themselves in committing a socially dangerous act, and, above all, in the part concerning the exposure and detention of these persons by the police, in connection with which they:

- committed the offences with the same offences;
- The participants of the criminal association conducted telephone conversations and text messages among themselves in a veiled form, hiding the true motives and goals of the criminal association from outsiders;
- prepared alibis for themselves in advance (i.e. in case of detention by police officers, the accomplices had to say that they worked for an organisation that carried out legitimate financial and economic activities and were not aware of the criminal nature of these activities).

The creation and management of a criminal association, as well as its structural subdivisions, is initially conditioned by the selfish purpose of committing multiple serious crimes and obtaining as much criminal income as possible. The search for various legal entities for the commission of criminal activity, both in the territory of the Russian Federation and in the territory of various foreign countries, is conditioned by the need to give the appearance of legitimate business activity to their criminal actions, and the presence of an organisational and staff structure of a criminal association characterises its hierarchy and is necessary to achieve cohesion, stability, observance of strict discipline and subordination in the commission of crimes.

The unlawful activities of the criminal association described above continued for a long time, and its participants intended to continue their unlawful actions in the future. The termination of the unlawful activities of this criminal association occurred on 26 May 2021, not depending on the will of its participants, but due to the suppression of these activities by law enforcement agencies and the detention of the active participants of the criminal association.

- In their subsequent criminal activity, using the financial and logistical base of the QBF group, formed on the instructions of R.V. These agreements and contracts were concluded for direct access to trading on stock and derivatives markets, but the participants in the criminal association knew that the obligations to the clients to pay the funds were unfulfilled, as the information about the brokerage activities of the organisation with which a particular client concluded the agreement or contract was false. The co - conspirators did not use the money received from clients under

these agreements and contracts for the purposes specified in the agreements and contracts, but stole it and used it at their own discretion.

- So on 28.05.2019, at an unspecified time, being in the office of LLC "Investment Company QBF" (INN 7733673955), located at the address: St. Petersburg, Degtyarny per. 11, lit. The co - conspirators deceived Kovin A.P. by concealing from him the information that this organisation had no legal grounds to engage in activities related to securities transactions, as it did not have the relevant mandatory licence issued by the competent authority of the Cayman Islands.
- Continuing their criminal actions, on 28.05.2019, at an unspecified time, being in the office of LLC "Investment Company QBF", located at the address: St. Petersburg, Degtyarny per. 11, lit. "B", R.V. Shpakov, V.S. Pakhomov, Athanasiadou Linda , A.S. Golubev, S.A. Matyukhin, and unidentified persons acting in an organised group, jointly and in a coordinated manner, organised the conclusion on behalf of the affiliated with the criminal community LLC "VL Consulting" (INN), Rossieva E.A. and unidentified persons, acting as an organised group, jointly and in concert, organised the conclusion of a service agreement dated 28.05.2019 with Kovin A.P. on behalf of VL Consulting LLC (INN 7706463476), affiliated with the criminal association, and, under the pretext of fulfilling the terms of the above agreement and contract, persuaded the latter to transfer his funds to them, ostensibly for trust management.
- Kovin A.P., unaware of the crime being prepared and misled as to the true objectives of the participants of the organised group - embezzlement of funds, believing that he was investing his funds with the aim of making a profit, which was not true, being in the office of LLC "QBF Investment Company" located at the address: St. Petersburg, Degtyarny per, 11, lit. "B", realised the transfer of cash to the employees of QBF Group Company (QBF) as follows: 28.05.2019, at an unspecified time, in the amount of EUR 300,000, which at the exchange rate of the Central Bank of the Russian Federation as of 28.05.2019 was RUB 21,657,000; 30.08.2019, at an unspecified time, in the amount of EUR 250,000, which at the exchange rate of the Central Bank of the Russian Federation as of 30.08.2019 was RUB 18,490,000 and USD 130,000, which at the exchange rate of the Central Bank of the Russian Federation as of 30.08.2019 was RUB 8,677,500; 06.11.2019, at an unspecified time, in the amount of EUR 50,000, which at the exchange rate of the Central Bank of the Russian Federation as of 06.11.2019 was RR 3,521,000; 29.11.2019, at an unspecified time, in the amount of EUR 50,000, which at the exchange rate of the Central Bank of the Russian Federation as of 29.11.2019 was RR 3,528,500 and USD 170,000, which at the exchange rate of the Central Bank of the Russian Federation as of 29.11.2019 was RR 10,897,000; 23.04.2020, at an unspecified time, in the amount of RR 6,000,000.
- In turn, R.V. Shpakov, V.S. Pakhomov, Athanasiadou Linda , A.S. Golubev, S.A. Matyukhin, E.A. Rossieva and unidentified persons, acting as an organised group, jointly and in concert, with the involvement of persons unaware of the criminal intent, organised the acceptance of the above - mentioned funds from A.P. Kovin, as a result of which, having abused his trust, they received them at their disposal, i.e. took possession of the stolen funds.
- As a result, Pakhomov V.S., using his official position, acting in an organised group, jointly and in concert with Shpakov R.V., Athanasiadou Linda, Golubev A.S., Matyukhin S.A., Rossieva E.A. and unidentified persons, under the above circumstances, in the period from 28.05.2019 to 23.04.2020, deliberately, through deceit and breach of trust, stole money belonging to Kovin A.P. in the amount of 72,771,000 rubles, in an especially large amount.
- Thus, Pakhomov Vladimir Sergeevich committed fraud, i.e. theft of other people's property by deception and abuse of trust, committed by a person using his official position, by an organised group, on a particularly large scale, i.e. the crime provided for by part 4 of article 159 of the Criminal Code of the Russian Federation.
- He (Pakhomov V.S.) committed fraud, i.e. theft of other people's property by deception and abuse of trust, committed by a person using his official position, by an organised group, on a particularly large scale, namely:

- With the purpose of systematically committing embezzlement of funds of individuals, R.V. Shpakov, being the actual head of QBF Financial Group (QBF), general director and participant of various legal entities used for embezzlement, including KG LLC (INN 7701876374), JSC QBF Financial Group (INN 7703466327), Q-BROKER LLC (INN 9703003668), no later than 31 December 2011. established a criminal association (criminal organisation) in the form of a structured organised group (hereinafter referred to as the criminal association), consisting of three structural subdivisions, which at different times voluntarily included: Pakhomov V.S., who was the general director of LLC "KF Estate SPB" (INN 7840472851) and a participant in LLC "KG", which was used for embezzlement, Munaev Z.V., Athanasiadou Linda, Golubev A.S., Rossieva E.A., Matyukhin S.A., who was the General Director of LLC Investment Company QBF (INN 7733673955, hereinafter referred to as LLC Investment Company QBF, the Company, Broker), and unidentified persons, including employees of QBF Group companies (QBF).
- The locations where the co - conspirators committed actions aimed at stealing money by deceiving individuals and abusing their trust were office premises, which were positioned by the participants of the criminal association as additional branches of QBF Financial Group LLC, operating under a single brand - QBF Financial Group, located in various regions of the Russian Federation, in offices at the following addresses: 8 Presnenskaya Naberezhnaya Naberezhnaya, bld. 1, Moscow, and 12 Presnenskaya Naberezhnaya Naberezhnaya, Ufa, Verkhnetorgovaya Square, bld. 1 and Presnenskaya Embankment, 12; Ufa, Verkhnetorgovaya Ploshchad, 4; Tyumen, ul. 4; Tyumen, 74 Maxim Gorky St.; Murmansk, 82 Lenin Ave.; Kazan, 6 Spartakovskaya St.; Ekaterinburg, 1a Boris Yeltsin St.; St. Petersburg, 11 Degtyarny Per. and 64 Malohtinsky Prospekt, 64, lit. "B"; Kaliningrad, 35 Teatralnaya St.. At the same time, the main place where the participants of the criminal association carried out most of the actions aimed at stealing money by deceiving individuals and abusing their trust, including those carried out remotely, using various information and telecommunication means of communication, was the office premises located at the following address: 8 Presnenskaya Naberezhnaya Embankment, bldg. 1, Moscow. 1.
- In their subsequent criminal activity, using the financial and logistical base of the QBF group, formed on the instructions of R.V. Shpakov from the money systematically stolen from citizens, the participants of the criminal association, R.V. Shpakov, V.S. Pakhomov and S.A. Matyukhin, using their official position in the above - mentioned organisations of the group, by means of deceit and abuse of trust, consisting of the creation of the "QBF" (QBF) group from the money systematically stolen from individuals, Shpakov R.V., Pakhomov V.S. and Matyukhin S.A., using their official positions in the above - mentioned organisations of the group, by means of deceit and abuse of trust, which consisted in creating a false appearance of the possibility of obtaining a high income among natural persons - clients of the companies of the group, persuaded clients to conclude various investment contracts with LLC IC QBF, including a contract for the provision of brokerage services, as well as to transfer under these contracts to the trust management of them, the co - conspirators, their funds, which were then transferred to them, the co - conspirators.
- Under the brokerage services agreement, the Company, acting as a broker in executing transactions, undertook to fulfil clients' orders to conclude transactions with derivative financial instruments, including options, the underlying asset of which was foreign issuers' equity securities (hereinafter - OTC option contracts), in the OTC market aimed at bringing profit to the clients (hereinafter - OTC option contracts). The counterparty (seller) under all OTC option contracts, including those concluded in the interests of individual clients, was Q-BROKER LLC, an affiliate of QBIF LLC. At the same time, in accordance with the criminal plan of the participants of the criminal association, the realisation of OTC options by Q-BROKER LLC was to function as a financial pyramid scheme, where the source of return of funds to clients under OTC option contracts executed by Q-BROKER LLC in full or in part were funds received under newly concluded option contracts, and the ultimate goal of concluding such contracts was in fact the implementation of schematic operations (financial transactions) aimed at withdrawal of funds from OTC option contracts.
- Thus, R.V. Shpakov, V.S. Pakhomov, S.A. Matyukhin, using their official positions in the above - mentioned organisations of the above - mentioned group of companies, Athanasiadou Linda , A.S. Golubev, E.A. Rossieva and unidentified persons, being mainly in the office premises of LLC IC QBF, located at the address: Moscow, Presnenskaya Naberezhnaya, 8, p. 1. 1, as well as in unspecified places, acting as an organised

- group, as part of a criminal association, jointly and in concert, at an unspecified period of time, but not later than 29.05.2020, remotely, using unidentified information and telecommunication means of communication, misled Zatsarinsky D.E. about their true intentions - the theft of his funds, under the pretext of executing an order to conclude over - the - counter option contracts on the OTC market, without initially intending to execute the taken order.
- Continuing their criminal actions, Shpakov R.V., Pakhomov V.S., Matyukhin S.A., Athanasiadou Linda, Golubev A.S., Rossieva E.A. and unidentified persons, acting in an organised group, jointly and in concert, on 29.05.2020, at an unspecified time and place, arranged for Zatsarinsky D.E. to sign an application for consent to conclude a brokerage services agreement with IC QBF LLC (application for adhesion for individuals), on the basis of which on 29.05.2020 between Zatsarinsky D.E. and "IC "QBF" LLC, named as a broker, concluded the agreement on brokerage services No. FB - 528 dated 29.05.2020, and under the pretext of fulfilling the conditions of the said agreement convinced the latter to transfer his funds to them, allegedly for trust management.
 - Zatsarinsky D.E., unaware of the crime that was being prepared and misled as to the true objectives of the participants of the organised group - the theft of his funds, convinced that his funds would be returned after the terms of the option agreement were fulfilled, on 01.06.2020 made transfers of funds from his account No. 40817810300020006687 opened with LLC FFIN Bank, located at: Moscow, Karetny Ryad str. 5/10, Bldg. 2, to QBIF LLC's account No.40701810700003010998 opened with NSD ("National Settlement Depository") located at 12 Spartakovskaya Street, Moscow, under Brokerage Services Agreement No. FB - 528 dated 29.05.2020 in the amount of RUB 900,000 and RUB 500,000, totalling RUB 1,400,000.
 - Having received these funds from Zatsarinsky D.E. in the total amount of 1,400,000 roubles, Shpakov R.V., Pakhomov V.S., Matyukhin S.A., Athanasiadou Linda, Golubev A.S., E.A. Rossieva and unidentified persons disposed of them at their own discretion, in accordance with the criminal plan and in fulfilment of a joint criminal intent, thereby stealing, knowingly without intending to fulfil their obligations to fulfil the terms of the option agreement, pay and return the funds to the client.
 - Further, realising that the activities of QBIF LLC were subject to inspection by the regulator, the Central Bank of the Russian Federation, in order to conceal their criminal activities and to make their actions look legitimate, as well as to create a belief in Zatsarinsky D.E. that his money would be invested profitably, R.V. Shpakov, Pakhomov V.S., Matyukhin S.A., Athanasiadou Linda, Golubev A.S., Rossieva E.A. and unidentified persons, abusing the confidence of Zatsarinsky D.E., as well as persons unaware of the criminal intent, persuaded him to sign instructions to a broker in order to conclude over - the - counter derivative transactions with derivative financial instruments, namely options, in accordance with which Zatsarinsky D.E.'s funds in various amounts were transferred to QBIF LLC as a security payment to the accounts of the options seller, Q-BROKER LLC, an affiliate of QBIF LLC.
 - Subsequently, in accordance with the criminal plan, the money stolen by the co - conspirators was used by them to carry out scheme operations (financial transactions) aimed at withdrawing money outside the Russian Federation, cashing out, purchasing real estate, financing construction and issuing loans to legal entities and individuals affiliated with the co - conspirators.
 - As a result, Pakhomov V.S., using his official position, acting in an organised group, jointly and in concert with Shpakov R.V., Matyukhin S.A., Athanasiadou Linda, Golubev A.S., Rossieva E.A. and unidentified persons, under the circumstances described above, deliberately, through deceit and breach of trust, on 01.06.2020 stole money belonging to Zatsarinsky D.E. in the amount of 1,400,000 roubles, in an especially large amount.
 - Thus, Pakhomov Vladimir Sergeevich committed fraud, i.e. theft of other people's property by deception and abuse of trust, committed by a person using his official position, by an organised group, on a particularly large scale, i.e. the crime provided for by part 4 of article 159 of the Criminal Code of the Russian Federation.
 - He (Pakhomov V.S.) committed fraud, i.e. theft of other people's property by deception and abuse of trust, committed by a person using his official position, on a large scale, by an organised group, namely:
 - With the purpose of systematically committing embezzlement of funds of individuals, R.V. Shpakov, being the actual head of QBF Financial Group (QBF), general director and participant of various legal entities used for embezzlement, including KG LLC (INN 7701876374), JSC QBF Financial Group (INN 7703466327), Q-BROKER

- The locations where the co - conspirators committed actions aimed at stealing money by deceiving individuals and abusing their trust were office premises, which were positioned by the participants of the criminal association as additional branches of QBF Financial Group LLC, operating under a single brand - QBF Financial Group, located in various regions of the Russian Federation, in offices at the following addresses: 8 Presnenskaya Naberezhnaya Naberezhnaya, bld. 1, Moscow, and 12 Presnenskaya Naberezhnaya Naberezhnaya, Ufa, Verkhnetorgovaya Square, bld. 1 and Presnenskaya Embankment, 12; Ufa, Verkhnetorgovaya Ploshchad, 4; Tyumen, ul. 4; Tyumen, 74 Maxim Gorky St.; Murmansk, 82 Lenin Ave.; Kazan, 6 Spartakovskaya St.; Ekaterinburg, 1a Boris Yeltsin St.; St. Petersburg, 11 Degtyarny Per. and 64 Malohtinsky Prospekt, 64, lit. These agreements and contracts were concluded for direct access to trading on stock and derivatives markets, but the participants in the criminal association knew that the obligations to the clients to pay the funds were unfulfilled, as the information about the brokerage activities of the organisation with which a particular client concluded the agreement or contract was false. The co - conspirators did not use the money received from clients under these agreements and contracts for the purposes specified in the agreements and contracts, but stole it and used it at their own discretion.

 - In their subsequent criminal activity, using the financial and logistical base of the QBF group, formed on the instructions of R.V. Shpakov from the money systematically stolen from citizens, the participants of the criminal association, R.V. Shpakov, V.S. Pakhomov and S.A. Matyukhin, using their official position in the above - mentioned organisations of the group, by means of deceit and abuse of trust, consisting of the creation of the "QBF" (QBF) group from the money systematically stolen from individuals, Shpakov R.V., Pakhomov V.S. and Matyukhin S.A., using their official positions in the above - mentioned organisations of the group, by means of deceit and abuse of trust, which consisted in creating a false appearance of the possibility of obtaining a high income among natural persons - clients of the companies of the group, persuaded clients to conclude various investment contracts with LLC IC QBF, including a contract for the provision of brokerage services, as well as to transfer their money under these contracts to the trust management of them, the co - conspirators, which were then transferred to them, the co - conspirators.
 - Under the brokerage services agreement, the Company, acting as a broker in executing transactions, undertook to fulfil clients' orders to conclude transactions with derivative financial instruments, including options, the underlying asset of which was foreign issuers' equity securities (hereinafter - OTC option contracts), in the OTC market aimed at bringing profit to the clients (hereinafter - OTC option contracts). The counterparty (seller) under all OTC option contracts, including those concluded in the interests of individual clients, was Q-BROKER LLC, an affiliate of QBIF LLC. At the same time, in accordance with the criminal plan of the participants of the criminal association, the realisation of OTC options by Q-BROKER LLC was to function

as a financial pyramid scheme, where the source of return of funds to clients under OTC option contracts executed by Q-BROKER LLC in full or in part were funds received under newly concluded option contracts, and the ultimate goal of concluding such contracts was actually the implementation of schematic operations (financial transactions) aimed at withdrawal of funds from OTC option contracts.

- Thus R.V. Shpakov, V.S. Pakhomov, S.A. Matyukhin, using their official positions in the above - mentioned organisations of the above - mentioned group of companies, Athanasiadou Linda , A.S. Golubev, E.A. Rossieva and unidentified persons, being mainly in the office premises of LLC IC QBF, located at the address: Moscow, Presnenskaya Naberezhnaya, 8, p. 1. 1, as well as in unspecified places, acting in an organised group, as part of a criminal association, jointly and in concert, at an exactly unspecified period of time, but no later than 20.05.2020, when A.V. Rucheev visited the office of OOO IC QBF, located at the address: Moscow, Presnenskaya Naberezhnaya, 8, p. 1, Moscow, Presnenskaya Embankment, as well as remotely, from a remote location, from the premises of OOO IC QBF, located at the address: 8, p. 1, Presnenskaya Naberezhnaya, Moscow. 1, as well as remotely, using unidentified information and telecommunication means of communication, misled A.V. Rucheev about their true intentions - the theft of his funds, under the pretext of making transactions with securities during their initial public offering (IPO - Initial Publik Offering) on foreign stock exchanges, having neither the ability nor the intention to fulfil their obligations to both purchase and further transfer of securities to the account of the client - A.V. Rucheev.
- Continuing their criminal actions, R.V. Shpakov, V.S. Pakhomov, S.A. Matyukhin, Athanasiadou Linda , A.S. Golubev, E.A. Rossieva and unidentified persons, acting as an organised group, jointly and in concert, on 20.05.2020, at an unspecified time, organised the signing at the address: Moscow, 132 Bolshaya Semyonovskaya str. 7 with A.V. Rucheev on the statement of consent to the conclusion of the agreement on rendering brokerage services with "IC QBF" LLC (application on joining for individuals), on the basis of which on 20.05.2020 between A.V. Rucheev. On the basis of which on 20.05.2020 between A.V. Rucheev and "IC QBF" LLC, named as a broker, concluded a brokerage services agreement No. FB - 502 of 20.05.2020, and under the pretext of fulfilling the conditions of the said agreement persuaded the latter to transfer his funds to them allegedly for trust management.
- A.V. Ruchiev, unaware of the crime being prepared and misled as to the true objectives of the participants of the organised group - the theft of his funds, convinced that his funds would be used to purchase securities at their initial public offering with their subsequent transfer to a personalised account and registration in his name, in the period from 02.06.06.2020 - 29.06.2020 he transferred funds from his account No. 40817810538048350189 opened with PJSC "Sberbank" in branch No. 9038/01872, located at the address: Moscow, Romanov per, 4, to QBIF LLC's account No. 40701810700003010998 opened with NSD ("National Settlement Depository") located at: Moscow, Spartakovskaya str. 12, under Brokerage Services Agreement No. FB - 502 dated 20.05.2020, namely: RUB 100,000,000 on 02.06.2020, RUB 50,000,000 on 08.06.2020, RUB 25,000,000 on 16.06.2020 and RUB 20,000,000 on 29.06.2020, totalling RUB 195,000,000.
- Having received these funds from A.V. Ruchieva in the total amount of 195,000,000 roubles, R.V. Shpakov, V.S. Pakhomov, S.A. Matyukhin, Athanasiadou Linda , A.S. Golubev and unidentified persons disposed of them at their own discretion in accordance with the criminal plan and in fulfilment of a joint criminal intent, thereby stealing them, knowingly without intending to execute them, E.A. Rossieva and unidentified persons disposed of them at their own discretion, in accordance with the criminal plan and in fulfilment of a joint criminal intent, thereby stealing, knowingly without intending to fulfil their obligations to fulfil the terms of the option agreement, pay and return the funds to the client.
- Further, realising that the activities of QBIF LLC were subject to inspection by the regulator, the Central Bank of the Russian Federation, in order to conceal their criminal activities and to make their actions look legitimate, as well as to create a conviction in A.V. Rucheev that his money was profitably invested, R.V. Shpakov, Pakhomov V.S., Matyukhin S.A., Athanasiadou Linda, Golubev A.S., Rossieva E.A. and unidentified persons, abusing A.V. Ruchiev's trust, as well as persons unaware of the criminal intent, persuaded him to sign instructions to a broker for the purpose of entering into OTC derivative transactions, namely options, in accordance with which A.V. Ruchiev's funds in various amounts were transferred to QBIF LLC as a security payment to the accounts of the options seller, Q-BROKER LLC, an affiliate of QBIF LLC.

- Subsequently, in accordance with the criminal plan, the money stolen by the co - conspirators was used by them to carry out scheme operations (financial transactions) aimed at withdrawing money outside the Russian Federation, cashing out, purchasing real estate, financing construction and issuing loans to legal entities and individuals affiliated with the co - conspirators.
- As a result, Pakhomov V.S., using his official position, acting in an organised group, jointly and in concert with Shpakov R.V., Matyukhin S.A., Athanasiadou Linda, Golubev A.S., Rossieva E.A. and unidentified persons, under the above circumstances, in the period from 02.06.2020 to 29.06.2020, deliberately, through deceit and breach of trust, stole money belonging to Rucheev A.V. in the amount of 195,000,000 roubles, in an especially large amount.
- Thus, Pakhomov Vladimir Sergeevich committed fraud, i.e. theft of other people's property by deception and abuse of trust, committed by a person using his official position, by an organised group, on a particularly large scale, i.e. the crime provided for by part 4 of article 159 of the Criminal Code of the Russian Federation.
- He (Pakhomov V.S.) committed fraud, i.e. theft of other people's property by deception and abuse of trust, committed by a person using his official position, by an organised group, on a particularly large scale, namely:
 - With the purpose of systematically committing embezzlement of funds of individuals, R.V. Shpakov, being the actual head of QBF Financial Group (QBF), general director and participant of various legal entities used for embezzlement, including KG LLC (INN 7701876374), JSC QBF Financial Group (INN 7703466327), Q-BROKER LLC (INN 9703003668), no later than 31 December 2011. established a criminal association (criminal organisation) in the form of a structured organised group (hereinafter referred to as the criminal association), consisting of three structural subdivisions, which at different times voluntarily included: Pakhomov V.S., who was the general director of LLC "KF Estate SPB" (INN 7840472851) and a participant in LLC "KG", which was used for embezzlement, Munaev Z.V., Athanasiadou Linda, Golubev A.S., Rossieva E.A., Matyukhin S.A., who was the General Director of LLC Investment Company QBF (INN 7733673955, hereinafter referred to as LLC Investment Company QBF, the Company, Broker), and unidentified persons, including employees of QBF Group companies (QBF).
 - The locations where the co - conspirators committed actions aimed at stealing money by deceiving individuals and abusing their trust were office premises, which were positioned by the participants of the criminal association as additional branches of QBF Financial Group LLC, operating under a single brand - QBF Financial Group, located in various regions of the Russian Federation, in offices at the following addresses: 8 Presnenskaya Naberezhnaya Naberezhnaya, bld. 1, Moscow, and 12 Presnenskaya Naberezhnaya Naberezhnaya, Ufa, Verkhnetorgovaya Square, bld. 1 and Presnenskaya Embankment, 12; Ufa, Verkhnetorgovaya Ploshchad, 4; Tyumen, ul. 4; Tyumen, 74 Maxim Gorky St.; Murmansk, 82 Lenin Ave.; Kazan, 6 Spartakovskaya St.; Ekaterinburg, 1a Boris Yeltsin St.; St. Petersburg, 11 Degtyarny Per. and 64 Malohtinsky Prospekt, 64, lit. "B"; Kaliningrad, 35 Teatralnaya St.. At the same time, the main place where the participants of the criminal association carried out most of the actions aimed at stealing money by deceiving individuals and abusing their trust, including those carried out remotely, using various information and telecommunication means of communication, was the office premises located at the following address: 8 Presnenskaya Naberezhnaya Embankment, bldg. 1, Moscow. 1.
- In their subsequent criminal activity, using the financial and logistical base of the QBF group, formed on the instructions of R.V. Matyukhin, using their official position in the above - mentioned organisations of the group, by means of deceit and abuse of trust, consisting of the creation of the "QBF" (QBF) group from the money systematically stolen from individuals, Shpakov R.V., Pakhomov V.S. and Matyukhin S.A., using their official positions in the above - mentioned organisations of the above - mentioned group, by means of deceit and abuse of trust, which consisted in creating a false appearance of the possibility of obtaining a high income among natural persons - clients of the companies of this group, persuaded clients to conclude agreements on rendering services on provision of a trading account with the amount of funds on it in the amount of the amount of funds received from the client (agreements on rendering brokerage services) and other investment contracts. These agreements and

contracts were concluded for direct access to trading on stock and derivatives markets, but the participants in the criminal association knew that the obligations to the clients to pay the funds were unfulfilled, as the information about the brokerage activities of the organisation with which a particular client concluded the agreement or contract was false. The co - conspirators did not use the money received from clients under these agreements and contracts for the purposes specified in the agreements and contracts, but stole it and used it at their own discretion.

- So 08.07.2020, at an unspecified time, being in the office of LLC "Investment Company QBF" (INN 7733673955), located at the address: St. Petersburg, Degtyarny per. 11, lit. The accomplices deceived Donskoy I.V. by concealing from him the information that this organisation had no legal grounds to engage in activities related to securities transactions, as it did not have the relevant mandatory licence issued by the competent authority of the Cayman Islands.
- Continuing their criminal actions, on 08.07.2020, at an unspecified time, being in the office of LLC "Investment Company QBF", located at the address: St. Petersburg, Degtyarny per. 11, lit. Rossieva and unidentified persons, acting as an organised group, jointly and in concert, with the involvement of persons unaware of the criminal intent, organised the acceptance of the aforementioned funds from I.V. Donskoy, as a result of which, having abused his trust, they received them at their disposal, i.e. took possession of the stolen funds.
- As a result, Pakhomov V.S., using his official position, acting in an organised group, jointly and in concert with Shpakov R.V., Athanasiadou Linda, Golubev A.S., Matyukhin S.A., Rossieva E.A. and unidentified persons, under the above circumstances, deliberately, through deceit and abuse of trust, on 08.07.2020 stole money belonging to Donskoy I.V. in the amount of 1,443,400 rubles, in an especially large amount.

- The locations where the co - conspirators committed actions aimed at stealing money by deceiving individuals and abusing their trust were office premises, which were positioned by the participants of the criminal association as additional branches of QBF Financial Group LLC, operating under a single brand - QBF Financial Group, located in various regions of the Russian Federation, in offices at the following addresses: 8 Presnenskaya Naberezhnaya Naberezhnaya, bld. 1, Moscow, and 12 Presnenskaya Naberezhnaya Naberezhnaya, Ufa, Verkhnetorgovaya Square, bld. 1 and Presnenskaya Embankment, 12; Ufa, Verkhnetorgovaya Ploshchad, 4; Tyumen, ul. 4; Tyumen, 74 Maxim Gorky St.; Murmansk, 82 Lenin Ave.; Kazan, 6 Spartakovskaya St.; Ekaterinburg, 1a Boris Yeltsin St.; St. Petersburg, 11 Degtyarny Per. and 64 Maloohitinsky Prospekt, 64, lit. - In their subsequent criminal activity, using the financial and logistical base of the QBF group, formed on the instructions of R.V. Shpakov from the money systematically stolen from citizens, the participants of the criminal association, R.V. Shpakov, V.S. Pakhomov and S.A. Matyukhin, using their official position in the above - mentioned organisations of the group, by means of deceit and abuse of trust, consisting of the creation of the "QBF" (QBF) group from the money systematically stolen from individuals, Shpakov R.V., Pakhomov V.S. and Matyukhin S.A., using their official positions in the above - mentioned organisations of the group, by means of deceit and abuse of trust, which consisted in creating a false appearance of the possibility of obtaining a high income among natural persons - clients of the companies of the group, persuaded clients to conclude various investment contracts with LLC IC QBF, including a contract for the provision of brokerage services, as well as to transfer under these contracts to the trust management of them, the co - conspirators, their funds, which were then transferred to them, the co - conspirators.

The counterparty (seller) under all OTC option contracts, including those concluded in the interests of individual clients, was Q-BROKER LLC, an affiliate of QBIF LLC. At the same time, in accordance with the criminal plan of the participants of the criminal association, the implementation of OTC options by Q-BROKER LLC was to function as a financial pyramid scheme, where the source of return of funds to clients under OTC option contracts executed by Q-BROKER LLC in full or in part were funds received under newly concluded option contracts, and the ultimate goal of concluding such contracts was actually the implementation of schematic operations (financial transactions) aimed at withdrawal of funds from the OTC option contracts.
- Thus, R.V. Shpakov, V.S. Pakhomov, S.A. Matyukhin, using their official positions in the above - mentioned organisations of the named group of companies, Athanasiadou Linda , A.S. Golubev, E.A. Rossieva and unidentified persons, being mainly in the office premises of LLC IC QBF, located at the address: Moscow, Presnenskaya Naberezhnaya, 8, p. 1. 1, as well as in unspecified places, acting as an organised group, as part of a criminal association, jointly and in concert, at an unspecified period of time, but not later than 08.06.2020, remotely, using unspecified information and telecommunication means of communication, misled Nosenko M.N. about their true intentions - the theft of his funds, under the pretext of executing an

- Subsequently, in accordance with the criminal plan, the money stolen by the co - conspirators was used by them to carry out scheme operations (financial transactions) aimed at withdrawing money outside the Russian Federation, cashing out, purchasing real estate, financing construction and issuing loans to legal entities and individuals affiliated with the co - conspirators.
- As a result, Pakhomov V.S., using his official position, acting in an organised group, jointly and in concert with Shpakov R.V., Matyukhin S.A., Athanasiadou Linda, Golubev A.S., Rossieva E.A. and unidentified persons, under the above circumstances, in the period from 17.06.2020 to 08.07.2020, deliberately, through deceit and breach of trust, stole money belonging to Nosenko M.N. in the amount of 6,200,000 roubles, in an especially large amount.
- Thus, Pakhomov Vladimir Sergeevich committed fraud, i.e. theft of other people's property by deception and abuse of trust, committed by a person using his official position, by an organised group, on a particularly large scale, i.e. the crime provided for by part 4 of article 159 of the Criminal Code of the Russian Federation.
- He (Pakhomov V.S.) committed fraud, i.e. theft of other people's property by deception and abuse of trust, committed by a person using his official position, by an organised group, on a particularly large scale, namely:

- Under the brokerage services agreement, the Company, acting as a broker in executing transactions, undertook to fulfil clients' orders to conclude transactions with derivative financial instruments, including options, the underlying asset of which was foreign issuers' equity securities (hereinafter - OTC option contracts), in the OTC market aimed at bringing profit to the clients (hereinafter - OTC option contracts). - Continuing their criminal actions, Shpakov R.V., Pakhomov V.S., Matyukhin S.A., Athanasiadou Linda, Golubev A.S., Rossieva E.A. and unidentified persons, acting in an organised group, jointly and in concert, on 10.07.2020, at an unspecified time and place, arranged for Mitroshin N.G. to sign an application for consent to conclude a brokerage services agreement with IC QBF LLC (application for adhesion for individuals), on the basis of which on 10.07.07.2020 between Mitroshin N.G. and LLC "IC "QBF", named as a broker, concluded the contract of brokerage services No. FB - 728 of 10.07.2020, and under the pretext of fulfilling the terms of the contract convinced the latter to transfer his funds to them allegedly for trust management.
 - Mitroshin N.G., unaware of the crime that was being prepared and misled as to the true objectives of the participants of the organised group - the theft of his funds, convinced that his funds would be returned after the terms of the option agreement were fulfilled, on 06.08.2020 made a transfer of funds from his account No. 40817810716254002101 opened with PJSC "VTB Bank", located at: Moscow, 5, Marksistskaya str. 1, to QBIF LLC account No. 40701810201400000052 opened with JSC Alfa - Bank located at 27 Kalanchevskaya Street, Moscow, under brokerage services agreement No. FB - 728 dated 10.07.2020, in the amount of RUB 4,000,000.
 - Having received these funds from Mitroshina N.G. in the total amount of 4,000,000 roubles, Shpakov R.V., Pakhomov V.S., Matyukhin S.A., Athanasiadou Linda, Golubev A.S., E.A. Rossieva and unidentified persons disposed of them at their own discretion, in accordance with the criminal plan and in fulfilment of a joint criminal intent, thereby stealing, knowingly without intending to fulfil their obligations to fulfil the terms of the option agreement, pay and return the funds to the client.
 - Further, realising that the activities of QBIF LLC were subject to inspection by the regulator, the Central Bank of the Russian Federation, in order to conceal their criminal activities and to make their actions look legitimate, as well as to create a belief in Mitroshin N.G. that his money would be invested profitably, Shpakov R.V., Pakhomov V.S., Athanasiadou Linda, Golubev A.S., Rossieva E.A. and unidentified persons abused their trust in the investment of his money, Pakhomov V.S., Matyukhin S.A., Athanasiadou Linda, Golubev A.S., Rossieva E.A. and unidentified persons, abusing the confidence of Mitroshin N.G., as well as persons unaware of the criminal intent, persuaded him to sign instructions to a broker for the purpose of entering into OTC derivative transactions, namely options, in accordance with which the funds of N.G.  - Subsequently, in accordance with the criminal plan, the money stolen by the co - conspirators was used by them to carry out scheme operations (financial transactions) aimed at withdrawing money outside the Russian Federation, cashing out, purchasing real estate, financing construction and issuing loans to legal entities and individuals affiliated with the co - conspirators.
 - As a result, Pakhomov V.S., using his official position, acting in an organised group, jointly and in concert with Shpakov R.V., Matyukhin S.A., Athanasiadou Linda, Golubev A.S., Rossieva E.A. and unidentified persons, under the circumstances described above, deliberately, through deceit and breach of trust, on 06.08.2020 stole money belonging to Mitroshin N.G. in the amount of 4,000,000 roubles, in an especially large amount.

- Thus, R.V. Shpakov, V.S. Pakhomov, S.A. Matyukhin, using their official positions in the above - mentioned organisations of the named group of companies, Athanasiadou Linda , A.S. Golubev, E.A. - Kormilitsyn S.V., unaware of the crime being prepared and misled as to the true objectives of the participants of the organised group - the theft of his funds, convinced that his funds would be returned after the option agreement was executed, in the period from 10.09.2020 to 19.11.2020 made transfers of funds from his account No. 40817810900000359975 opened with Tinkoff Bank JSC, located at: Moscow, 38, 2nd Khutorskaya str. - Having received these funds from Kormilitsyn S.V. in the total amount of 2,250,000 roubles, Shpakov R.V., Pakhomov V.S., Matyukhin S.A., Athanasiadou Linda, Golubev A.S., E.A. Rossieva and unidentified persons disposed of them at their own discretion, in accordance with the criminal plan and in fulfilment of a joint criminal intent, thereby stealing, knowingly without intending to fulfil their obligations to fulfil the terms of the option agreement, pay and return the funds to the client.
- Further, realising that the activities of QBIF LLC were subject to inspection by the regulator, the Central Bank of the Russian Federation, in order to conceal their criminal activities and make their actions look legitimate, as well as to create a belief in Kormilitsyn S.V. that his money would be profitably invested, R.V. Shpakov, Pakhomov V.S., Matyukhin S.A., Athanasiadou Linda, Golubev A.S., Rossieva E.A. and unidentified persons, abusing the confidence of Kormilitsyn S.V., as well as persons unaware of the criminal intent, persuaded him to sign instructions to a broker for the purpose of concluding OTC derivative transactions, namely options, in accordance with which Kormilitsyn S.V.'s funds in various amounts were transferred by QBIF IC LLC as a security payment to the accounts of the options seller, Q-BROKER LLC, an affiliate of QBIF LLC.
- Subsequently, in accordance with the criminal plan, the money stolen by the co - conspirators was used by them to carry out scheme operations (financial transactions) aimed at withdrawing money outside the Russian Federation, cashing out, purchasing real estate, financing construction and issuing loans to legal entities and individuals affiliated with the co - conspirators.
- As a result, Pakhomov V.S., using his official position, acting in an organised group, jointly and in concert with Shpakov R.V., Matyukhin S.A., Athanasiadou Linda, Golubev A.S., Rossieva E.A. and unidentified persons, under the above circumstances, in the period from 10.09.2020 to 19.11.2020, deliberately, through deceit and

breach of trust, stole money belonging to Kormilitsyn S.V. in the amount of 2,250,000 roubles, in an especially large amount.

- Thus, Pakhomov Vladimir Sergeevich committed fraud, i.e. theft of other people's property by deception and abuse of trust, committed by a person using his official position, by an organised group, on a particularly large scale, i.e. the crime provided for by part 4 of article 159 of the Criminal Code of the Russian Federation.
- He (Pakhomov V.S.) committed fraud, i.e. theft of other people's property by deception and abuse of trust, committed by a person using his official position, by an organised group, on a particularly large scale, namely:
- With the purpose of systematically committing embezzlement of funds of individuals, R.V. - The locations where the co - conspirators committed actions aimed at stealing money by deceiving individuals and abusing their trust were office premises, which were positioned by the participants of the criminal association as additional branches of QBF Financial Group LLC, operating under a single brand - QBF Financial Group, located in various regions of the Russian Federation, in offices at the following addresses: 8 Presnenskaya Naberezhnaya Naberezhnaya, bld. 1, Moscow, and 12 Presnenskaya Naberezhnaya Naberezhnaya, Ufa, Verkhnetorgovaya Square, bld. 1 and Presnenskaya Embankment, 12; Ufa, Verkhnetorgovaya Ploshchad, 4; Tyumen, ul. 4; Tyumen, 74 Maxim Gorky St.; Murmansk, 82 Lenin Ave.; Kazan, 6 Spartakovskaya St.; Ekaterinburg, 1a Boris Yeltsin St.; St. Petersburg, 11 Degtyarny Per. and 64 Malohtinsky Prospekt, 64, lit. "B"; Kaliningrad, 35 Teatralnaya St.. At the same time, the main place where the participants of the criminal association carried out most of the actions aimed at stealing money by deceiving individuals and abusing their trust, including those carried out remotely, using various information and telecommunication means of communication, was the office premises located at the following address: 8 Presnenskaya Naberezhnaya Embankment, bldg. 1, Moscow. 1.
- In their subsequent criminal activity, using the financial and logistical base of the QBF group, formed on the instructions of R.V. Matyukhin, using their official position in the above - mentioned organisations of the group, by means of deceit and abuse of trust, consisting of the creation of the "QBF" (QBF) group from the money systematically stolen from individuals, Shpakov R.V., Pakhomov V.S. and Matyukhin S.A., using their official positions in the above - mentioned organisations of the group, by means of deceit and abuse of trust, which consisted in creating a false appearance of the possibility of obtaining a high income among natural persons - clients of the companies of the group, persuaded clients to conclude various investment contracts with LLC IC QBF, including a contract for the provision of brokerage services, as well as to transfer under these contracts to the trust management of them, the co - conspirators, their funds, which were then transferred to them, the co - conspirators.
- Under the brokerage services agreement, the Company, acting as a broker in executing transactions, undertook to fulfil clients' orders to conclude transactions with derivative financial instruments, including options, the underlying asset of which was foreign issuers' equity securities (hereinafter - OTC option contracts), in the OTC market aimed at bringing profit to the clients (hereinafter - OTC option contracts). The counterparty (seller) under all OTC option contracts, including those concluded in the interests of individual clients, was Q-BROKER LLC, an affiliate of QBIF LLC. At the same time, in accordance with the criminal plan of the participants of the criminal association, the realisation of OTC options by Q-BROKER LLC was to function

as a financial pyramid scheme, where the source of return of funds to clients under OTC option contracts executed by Q-BROKER LLC in full or in part were funds received under newly concluded option contracts, and the ultimate goal of concluding such contracts was actually the implementation of schematic operations (financial transactions) aimed at withdrawal of funds from OTC option contracts.

- Thus, R.V. Shpakov, V.S. Pakhomov, S.A. Matyukhin, using their official positions in the above - mentioned organisations of the above - mentioned group of companies, Athanasiadou Linda , A.S. Golubev, E.A. - A.V. Podolnaya, unaware of the crime that was being prepared and misled as to the true objectives of the participants of the organised group - the theft of her funds, convinced that her funds would be returned after the option agreement was fulfilled, on 23.11.2020 transferred funds from her account No. 40817810340017621257 opened with Sberbank PJSC, located at 53, Shcherbakovskaya str. 1, to QBIF LLC account No. 40701810700003010998 opened with NSD ("National Settlement Depository") located at 12 Spartakovskaya Street, Moscow, under Brokerage Services Agreement No. BO - F - N - 0 - 00830 dated 18.11.2020 in the amount of RUB 6,000,000.

Rossieva and unidentified persons disposed of them at their own discretion, in accordance with the criminal plan and in fulfilment of a joint criminal intent, thereby stealing, knowingly without intending to fulfil their obligations to fulfil the terms of the option agreement, pay and return the funds to the client.
- Further, realising that the activities of QBIF LLC were subject to inspection by the regulator, the Central Bank of the Russian Federation, in order to conceal their criminal activities and make their actions look legitimate, as well as to create a belief in Podolna A.V. that her money would be invested profitably, R.V. Shpakov, Pakhomov V.S., Matyukhin S.A., Athanasiadou Linda, Golubev A.S., Rossieva E.A. and unidentified persons, abusing Podolna A.V.'s trust, as well as persons unaware of the criminal intent, persuaded her to sign instructions to a broker for the purpose of entering into OTC derivative transactions, namely options, in accordance with which A.V. Podolna's funds in various amounts were transferred to QBIF LLC as a security payment to the accounts of the options seller, Q-BROKER LLC, an affiliate of QBIF LLC.
- Subsequently, in accordance with the criminal plan, the money stolen by the co - conspirators was used by them to carry out scheme operations (financial transactions) aimed at withdrawing money outside the Russian Federation, cashing out, purchasing real estate, financing construction and issuing loans to legal entities and individuals affiliated with the co - conspirators.
- As a result, Pakhomov V.S., using his official position, acting in an organised group, jointly and in concert with Shpakov R.V., Matyukhin S.A., Athanasiadou Linda, Golubev A.S., Rossieva E.A. and unidentified persons, under the circumstances described above, deliberately, through deceit and abuse of trust, on 23.11.2020 stole money belonging to Podolna A.V. in the amount of 6,000,000 roubles, in an especially large amount.

- Thus, Pakhomov Vladimir Sergeevich committed fraud, i.e. theft of other people's property by deception and abuse of trust, committed by a person using his official position, by an organised group, on a particularly large scale, i.e. the crime provided for by part 4 of article 159 of the Criminal Code of the Russian Federation.

- V.S. Koreshkov, unaware of the crime being prepared and misled as to the true objectives of the members of the organised group - the theft of his funds, convinced that his funds would be returned after the option agreement was executed, in the period from 11.09.2020 to 03.12.2020 made transfers of funds from his account No. 42301810900002639990 opened with JSC Tinkoff Bank, located at 38, 2nd Khutorskaya str. "A, p. 26, to QBIF LLC account No. 40701810700003010998 opened with NSD ("National Settlement Depository") located at: Moscow, Spartakovskaya str. 12, under Brokerage Services Agreement No. FB - 784 dated 09.09.2020, namely: 11.09.2020 in the amount of RUB 750,000; 25.09.2020 in the amount of RUB 500,000; 19.10.2020 in the amount of RUB 200,000; 03.12.2020 in the amount of RUB 600,000, totalling RUB 2,050,000.
- Having received these funds from Koreshkova V.S. in the total amount of 2,050,000 roubles, Shpakov R.V., Pakhomov V.S., Matyukhin S.A., Athanasiadou Linda, Golubev A.S., E.A. Rossieva and unidentified persons disposed of them at their own discretion, in accordance with the criminal plan and in fulfilment of a joint criminal intent, thereby stealing, knowingly without intending to fulfil their obligations to fulfil the terms of the option agreement, pay and return the funds to the client.
- Further, realising that the activities of QBIF LLC were subject to inspection by the regulator, the Central Bank of the Russian Federation, in order to conceal their criminal activities and make their actions look legitimate, as well as to create a belief in Koreshkov V.S. that his money was being invested in a profitable way, Shpakov R.V., Pakhomov V.S., Matyukhin S.A., Athanasiadou Linda, Golubev A.S., Rossieva E.A. and unidentified persons abused their trust in the investment of his money, Pakhomov V.S., Matyukhin S.A., Athanasiadou Linda, Golubev A.S., Rossieva E.A. and unidentified persons, abusing the confidence of Koreshkov V.S., as well as persons unaware of the criminal intent, persuaded him to sign instructions to a broker for the purpose of entering into OTC derivative transactions, namely options, in accordance with which V.S. Koreshkov's funds

in various amounts were transferred to QBIF LLC as a security payment to the accounts of the options seller, Q-BROKER LLC, an affiliate of QBIF LLC.

- Subsequently, in accordance with the criminal plan, the money stolen by the co - conspirators was used by them to carry out scheme operations (financial transactions) aimed at withdrawing money outside the Russian Federation, cashing out, purchasing real estate, financing construction and issuing loans to legal entities and individuals affiliated with the co - conspirators.
- As a result, Pakhomov V.S., using his official position, acting in an organised group, jointly and in concert with Shpakov R.V., Matyukhin S.A., Athanasiadou Linda, Golubev A.S., Rossieva E.A. and unidentified persons, under the above circumstances, in the period from 11.09.2020 to 03.12.2020, deliberately, through deceit and breach of trust, stole funds belonging to Koreshkov V.S. in the amount of 2,050,000 roubles, in an especially large amount.
- Thus, Pakhomov Vladimir Sergeevich committed fraud, i.e. theft of other people's property by deception and abuse of trust, committed by a person using his official position, by an organised group, on a particularly large scale, i.e. the crime provided for by part 4 of article 159 of the Criminal Code of the Russian Federation.
- He (Pakhomov V.S.) committed fraud, i.e. theft of other people's property by deception and abuse of trust, committed by a person using his official position, by an organised group, on a particularly large scale, namely:
 - With the purpose of systematically committing embezzlement of funds of individuals, R.V. Shpakov, being the actual head of QBF Financial Group (QBF), general director and participant of various legal entities used for embezzlement, including KG LLC (INN 7701876374), JSC QBF Financial Group (INN 7703466327), Q-BROKER LLC (INN 9703003668), no later than 31 December 2011. established a criminal association (criminal organisation) in the form of a structured organised group (hereinafter referred to as the criminal association), consisting of three structural subdivisions, which at different times voluntarily included: Pakhomov V.S., who was the general director of LLC "KF Estate SPB" (INN 7840472851) and a participant in LLC "KG", which was used for embezzlement, Munaev Z.V., Athanasiadou Linda, Golubev A.S., Rossieva E.A., Matyukhin S.A., who was the General Director of LLC Investment Company QBF (INN 7733673955, hereinafter referred to as LLC Investment Company QBF, the Company, Broker), and unidentified persons, including employees of QBF Group companies (QBF).
- The locations where the co - conspirators committed actions aimed at stealing money by deceiving individuals and abusing their trust were office premises, which were positioned by the participants of the criminal association as additional branches of QBF Financial Group LLC, operating under a single brand - QBF Financial Group, located in various regions of the Russian Federation, in offices at the following addresses: 8 Presnenskaya Naberezhnaya Naberezhnaya, bld. 1, Moscow, and 12 Presnenskaya Naberezhnaya Naberezhnaya, Ufa, Verkhnetorgovaya Square, bld. 1 and Presnenskaya Embankment, 12; Ufa, Verkhnetorgovaya Ploshchad, 4; Tyumen, ul. 4; Tyumen, 74 Maxim Gorky St.; Murmansk, 82 Lenin Ave.; Kazan, 6 Spartakovskaya St.; Ekaterinburg, 1a Boris Yeltsin St.; St. Petersburg, 11 Degtyarny Per. and 64 Maloohitnsky Prospekt, 64, lit. "B"; Kaliningrad, 35 Teatralnaya St.. At the same time, the main place where the participants of the criminal association carried out most of the actions aimed at stealing money by deceiving individuals and abusing their trust, including those carried out remotely, using various information and telecommunication means of communication, was the office premises located at the following address: 8 Presnenskaya Naberezhnaya Embankment, bldg. 1, Moscow. 1.
- In their subsequent criminal activity, using the financial and logistical base of the QBF group, formed on the instructions of R.V. Shpakov from the money systematically stolen from citizens, the participants of the criminal association, R.V. Shpakov, V.S. Pakhomov and S.A. Matyukhin, using their official position in the above - mentioned organisations of the group, by means of deceit and abuse of trust, consisting of the creation of the "QBF" (QBF) group from the money systematically stolen from individuals, Shpakov R.V., Pakhomov V.S. and Matyukhin S.A., using their official positions in the above - mentioned organisations of the group, by means of deceit and abuse of trust, which consisted in creating a false appearance of the possibility of obtaining a high income among natural persons - clients of the companies of the group, persuaded clients to conclude various investment contracts with LLC IC QBF, including a contract for the

- provision of brokerage services, as well as to transfer under these contracts to the trust management of them, the co - conspirators, their funds, which were then transferred to them, the co - conspirators.
- Under the brokerage services agreement, the Company, acting as a broker in executing transactions, undertook to fulfil clients' orders to conclude transactions with derivative financial instruments, including options, the underlying asset of which was foreign issuers' equity securities (hereinafter - OTC option contracts), in the OTC market aimed at bringing profit to the clients (hereinafter - OTC option contracts). The counterparty (seller) under all OTC option contracts, including those concluded in the interests of individual clients, was Q-BROKER LLC, an affiliate of QBIF LLC. At the same time, in accordance with the criminal plan of the participants of the criminal association, the implementation of OTC options by Q-BROKER LLC was to function as a financial pyramid scheme, where the source of return of funds to clients under OTC option contracts executed by Q-BROKER LLC in full or in part were funds received under newly concluded option contracts, and the ultimate goal of concluding such contracts was actually the implementation of schematic operations (financial transactions) aimed at withdrawal of funds from the OTC option contracts.
 - Thus R.V. Shpakov, V.S. Pakhomov, S.A. Matyukhin, using their official positions in the above - mentioned organisations of the named group of companies, Athanasiadou Linda , A.S. Golubev, E.A. Rossieva and unidentified persons, being mainly in the office premises of LLC IC QBF, located at the address: Moscow, Presnenskaya Naberezhnaya, 8, p. 1. 1, as well as in unspecified places, acting as an organised group, as part of a criminal association, jointly and in concert, at an unspecified period of time, but not later than 03.09.2020, remotely, using unidentified information and telecommunication means of communication, misled Borisov M.A. about their true intentions - the theft of his funds, under the pretext of executing an order to conclude over - the - counter option contracts on the OTC market, without initially intending to execute the contracts taken by him.
 - Continuing their criminal actions, Shpakov R.V., Pakhomov V.S., Matyukhin S.A., Athanasiadou Linda, Golubev A.S., Rossieva E.A. and unidentified persons, acting in an organised group, jointly and in concert, on 03.09.2020, at an unspecified time and place, arranged for Borisov M.A. to sign an application for consent to conclude a brokerage services agreement with IC QBF LLC (application for adherence for individuals), on the basis of which on 03.09.2020 between Borisov M.A. and "IC QBF" LLC, named as a broker, concluded a brokerage services agreement No. BO - F - N - 0 - 00263 dated 03.09.2020, and under the pretext of fulfilling the terms of the said agreement persuaded the latter to transfer his funds to them allegedly for trust management.
 - M.A. Borisov, unaware of the crime being prepared and misled as to the true objectives of the members of the organised group - the theft of his funds, convinced that his funds would be returned after the option agreement was executed, in the period from 24.09.2020 to 08.12.2020 made transfers of funds from his account No. 40817810637004017483 opened with PJSC VTB Bank, located at 5, Marxistskaya St., Moscow, to IC QBF LLC account No. 40701810700003010998 opened with NSD JSC ("National Settlement Depository") located at 12 Spartakovskaya Street, Moscow, under Brokerage Services Agreement No. BO - F - N - 0 - 00263 dated 03.09.2020, namely: 24.09.2020 in the amount of RUB 800,000; 27.09.2020 in the amount of RUB 800,000; 28.09.2020 in the amount of RUB 900,000; 08.12.2020 in the amount of RUB 5,000, totalling RUB 2,505,000.
 - Having received these funds from Borisova M.A. in the total amount of 2,505,000 roubles, Shpakov R.V., Pakhomov V.S., Matyukhin S.A., Athanasiadou Linda, Golubev A.S., E.A. Rossieva and unidentified persons disposed of them at their own discretion, in accordance with the criminal plan and in fulfilment of a joint criminal intent, thereby stealing, knowingly without intending to fulfil their obligations to fulfil the terms of the option agreement, pay and return the funds to the client.
 - Further, realising that the activities of QBIF LLC were subject to inspection by the regulator, the Central Bank of the Russian Federation, in order to conceal their criminal activities and make their actions look legitimate, as well as to create a belief in Borisov M.A. that his money was being invested profitably, Shpakov R.V., Pakhomov V.S., Matyukhin S.A., Athanasiadou Linda, Golubev A.S., Rossieva E.A. and unidentified persons abused their trust in the investment of his money, Pakhomov V.S., Matyukhin S.A., Athanasiadou Linda, Golubev A.S., Rossieva E.A. and unidentified persons, abusing Borisov M.A.'s trust, as well as persons

unaware of the criminal intent, persuaded him to sign instructions to a broker for the purpose of entering into OTC derivative transactions, namely options, in accordance with which Borisov M.A.'s funds in various amounts were transferred by QBIF LLC as a security payment to the accounts of the options seller, Q-BROKER LLC, an affiliate of QBIF LLC.

- Thus, Pakhomov Vladimir Sergeevich committed fraud, i.e. theft of other people's property by deception and abuse of trust, committed by a person using his official position, by an organised group, on a particularly large scale, i.e. the crime provided for by part 4 of article 159 of the Criminal Code of the Russian Federation.

- Thus, Pakhomov Vladimir Sergeevich committed fraud, i.e. theft of other people's property by deception and abuse of trust, committed by a person using his official position, by an organised group, on a particularly large scale, i.e. the crime provided for by part 4 of article 159 of the Criminal Code of the Russian Federation.
- He (Pakhomov V.S.) committed fraud, i.e. theft of other people's property by deception and abuse of trust, committed by a person using his official position, by an organised group, on a particularly large scale, namely:
- With the purpose of systematically committing embezzlement of funds of individuals, R.V. - The locations where the co - conspirators committed actions aimed at stealing money by deceiving individuals and abusing their trust were office premises, which were positioned by the participants of the criminal association as additional branches of QBF Financial Group LLC, operating under a single brand - QBF Financial Group, located in various regions of the Russian Federation, in offices at the following addresses: 8 Presnenskaya Naberezhnaya Naberezhnaya, bld. 1, Moscow, and 12 Presnenskaya Naberezhnaya Naberezhnaya, Ufa, Verkhnetorgovaya Square, bld. 1 and Presnenskaya Embankment, 12; Ufa, Verkhnetorgovaya Ploshchad, 4; Tyumen, ul. 4; Tyumen, 74 Maxim Gorky St.; Murmansk, 82 Lenin Ave.; Kazan, 6 Spartakovskaya St.; Ekaterinburg, 1a Boris Yeltsin St.; St. Petersburg, 11 Degtyarny Per. and 64 Maloohhtinsky Prospekt, 64, lit. - Continuing their criminal actions, in order to achieve a criminal result aimed at stealing the funds of Malinin D.I., on 31.01.2019, at an unspecified time, being in the office of LLC "Investment Company QBF" (INN 7733673955), located at the address: St. Petersburg, Degtyarny per, 11, lit. At the same time, the accomplices deceived D.I. Malinin by concealing from him the information that this organisation did not have legal grounds to engage in the type of activity related to

transactions with securities, as it did not have the relevant mandatory licence issued by the competent authority of the Cayman Islands.

- Malinin D.I., unaware of the crime being prepared and misled as to the true objectives of the participants of the organised group - embezzlement of funds, believing that he was investing his funds with the aim of making a profit, which was not true, being in the office of LLC "QBF Investment Company" located at the address: St. Petersburg, Degtyarny per, 11, lit. - In turn, R.V. Shpakov, V.S. Pakhomov, Athanasiadou Linda, A.S. Golubev, S.A. Matyukhin, E.A. Rossieva and unidentified persons, acting as an organised group, jointly and in concert, with the involvement of persons unaware of the criminal intent, organised the acceptance of the above - mentioned funds from D.I. Malinin, as a result of which, having abused his trust, they received them at their disposal, i.e. took possession of the stolen money.
- As a result, Pakhomov V.S., using his official position, acting in an organised group, jointly and in concert with Shpakov R.V., Athanasiadou Linda, Golubev A.S., Matyukhin S.A., Rossieva E.A. and unidentified persons, under the above circumstances, in the period from 21.12.2018 to 09.12.2020, deliberately, through deceit and breach of trust, stole money belonging to Malinin D.I. in the amount of 6,660,000 rubles, in an especially large amount.
- Thus, Pakhomov Vladimir Sergeevich committed fraud, i.e. theft of other people's property by deception and abuse of trust, committed by a person using his official position, by an organised group, on a particularly large scale, i.e. the crime provided for by part 4 of article 159 of the Criminal Code of the Russian Federation.
- He (Pakhomov V.S.) committed fraud, i.e. theft of other people's property by deception and abuse of trust, committed by a person using his official position, by an organised group, on a particularly large scale, namely:
- With the purpose of systematically committing embezzlement of funds of individuals, R.V. Shpakov, being the actual head of QBF Financial Group (QBF), general director and participant of various legal entities used for embezzlement, including KG LLC (INN 7701876374), JSC QBF Financial Group (INN 7703466327), Q-BROKER LLC (INN 9703003668), no later than 31 December 2011. established a criminal association (criminal organisation) in the form of a structured organised group (hereinafter referred to as the criminal association), consisting of three structural subdivisions, which at different times voluntarily included: Pakhomov V.S., who was the general director of LLC "KF Estate SPB" (INN 7840472851) and a participant in LLC "KG", which was used for embezzlement, Munaev Z.V., Athanasiadou Linda, Golubev A.S., Rossieva E.A., Matyukhin S.A., who was the General Director of LLC Investment Company QBF (INN 7733673955, hereinafter referred to as LLC Investment Company QBF, the Company, Broker), and unidentified persons, including employees of QBF Group companies (QBF).
- The locations where the co - conspirators committed actions aimed at stealing money by deceiving individuals and abusing their trust were office premises, which were positioned by the participants of the criminal association as additional branches of QBF Financial Group LLC, operating under a single brand - QBF Financial Group, located in various regions of the Russian Federation, in offices at the following addresses: 8 Presnenskaya Naberezhnaya Naberezhnaya, bld. 1, Moscow, and 12 Presnenskaya Naberezhnaya Naberezhnaya, Ufa, Verkhnetorgovaya Square, bld. 1 and Presnenskaya Embankment, 12; Ufa, Verkhnetorgovaya Ploshchad, 4; Tyumen, ul. 4; Tyumen, 74 Maxim Gorky St.; Murmansk, 82 Lenin Ave.; Kazan, 6 Spartakovskaya St.; Ekaterinburg, 1a Boris Yeltsin St.; St. Petersburg, 11 Degtyarny Per. and 64 Maloohhtinsky Prospekt, 64, lit. "B"; Kaliningrad, 35 Teatralnaya St.. At the same time, the main place where the participants of the criminal association carried out most of the actions aimed at stealing money by deceiving individuals and abusing their trust, including those carried out remotely, using various information and telecommunication means of communication, was the office premises located at the following address: 8 Presnenskaya Naberezhnaya Embankment, bldg. 1, Moscow. 1.

- In their subsequent criminal activity, using the financial and logistical base of the QBF group, formed on the instructions of R.V. Shpakov from the money systematically stolen from citizens, the participants of the criminal association, R.V. Shpakov, V.S. Pakhomov and S.A. Matyukhin, using their official position in the above - mentioned organisations of the group, by means of deceit and abuse of trust, consisting of the creation of the "QBF" (QBF) group from the money systematically stolen from individuals, Shpakov R.V., Pakhomov V.S. and Matyukhin S.A., using their official positions in the above - mentioned organisations of the group, by means of deceit and abuse of trust, which consisted in creating a false appearance of the possibility of obtaining a high income among natural persons - clients of the companies of the group, persuaded clients to conclude various investment contracts with LLC IC QBF, including a contract for the provision of brokerage services, as well as to transfer under these contracts to the trust management of them, the co - conspirators, their funds, which were then transferred to them, the co - conspirators.
- Under the brokerage services agreement, the Company, acting as a broker in executing transactions, undertook to fulfil clients' orders to conclude transactions with derivative financial instruments, including options, the underlying asset of which was foreign issuers' equity securities (hereinafter - OTC option contracts), in the OTC market aimed at bringing profit to the clients (hereinafter - OTC option contracts). The counterparty (seller) under all OTC option contracts, including those concluded in the interests of individual clients, was Q-BROKER LLC, an affiliate of QBIF LLC. At the same time, in accordance with the criminal plan of the participants of the criminal association, the implementation of OTC options by Q-BROKER LLC was to function as a financial pyramid scheme, where the source of return of funds to clients under OTC option contracts executed by Q-BROKER LLC in full or in part were funds received under newly concluded option contracts, and the ultimate goal of concluding such contracts was actually the implementation of schematic operations (financial transactions) aimed at withdrawal of funds from the OTC option contracts.
- Thus, R.V. Shpakov, V.S. Pakhomov, S.A. Matyukhin, using their official positions in the above - mentioned organisations of the above - mentioned group of companies, Athanasiadou Linda , A.S. Golubev, E.A. Rossieva and unidentified persons, being mainly in the office premises of LLC IC QBF, located at the address: Moscow, Presnenskaya Naberezhnaya, 8, p. 1. 1, as well as in unspecified places, acting as an organised group, as part of a criminal association, jointly and in concert, at an unspecified period of time, but not later than 12.11.2020, remotely, using unidentified information and telecommunication means of communication, misled A.V. Kulikova about their true intentions - the theft of her funds, under the pretext of executing an order to conclude over - the - counter option contracts on the OTC market, without initially intending to execute the assumed obligations.
- Continuing their criminal actions, R.V. Shpakov, V.S. Pakhomov, S.A. Matyukhin, Athanasiadou Linda , A.S. Golubev and unidentified persons, acting in an organised group, together and in concert, on 12.11.2020, Rossieva E.A. and unidentified persons, acting in an organised group, jointly and in concert, on 12.11.2020, at an unspecified time and place, arranged for Kulikova A.V. to sign an application for consent to conclude a brokerage services agreement with IC QBF LLC (application for joining for individuals), on the basis of which on 12.11.11.2020 between Kulikova A.V. and "IC QBF" LLC, named as a broker, concluded a brokerage services agreement No. BO - F - N - 0 - 00767 dated 11.11.2020, and under the pretext of fulfilling the terms of the said agreement convinced the latter to transfer her funds to them allegedly for trust management.
- A.V. Kulikova, unaware of the crime that was being prepared and misled as to the true objectives of the members of the organised group - the theft of her money, convinced that her money would be returned after fulfilling the terms of the option agreement, on 09.12.2020, she transferred funds from her account No. 4081781022254017855, opened in the additional office of PJSC VTB Bank located at 26 Varshavskoye Shosse, Moscow, to the account No. 40701810201400000052 of LLC IC QBF, opened in JSC Alfa - Bank located at 27 Kalanchevskaya Street, Moscow, under the brokerage services agreement No. BO - F - N - 0 - 00767 dated 11.11.2020, in the amount of RUB 2,000,000.
- Having received these funds from Kulikova A.V. in the total amount of 2,000,000 roubles, Shpakov R.V., Pakhomov V.S., Matyukhin S.A., Athanasiadou Linda, Golubev A.S., E.A. Rossieva and unidentified persons disposed of them at their own discretion, in accordance with the criminal plan and in fulfilment of a joint

criminal intent, thereby stealing, knowingly without intending to fulfil their obligations to fulfil the terms of the option agreement, pay and return the funds to the client.

- Further, realising that the activities of QBF LLC were subject to inspection by the regulator, the Central Bank of the Russian Federation, in order to conceal their criminal activities and make their actions look legitimate, as well as to create a belief in Kulikova A.V. that her money would be invested profitably, R.V. Shpakov, Pakhomov V.S., Matyukhin S.A., Athanasiadou Linda, Golubev A.S., Rossieva E.A. and unidentified persons, abusing the confidence of Kulikova A.V., as well as persons unaware of the criminal intent, persuaded her to sign instructions to a broker for the purpose of entering into OTC derivative transactions with derivative financial instruments, namely options, in accordance with which A.V. Kulikova's funds in various amounts were transferred to LLC IC QBF as a security payment to the accounts of the options seller, LLC Q.Broker, affiliated with LLC IC QBF.
- Subsequently, in accordance with the criminal plan, the money stolen by the co - conspirators was used by them to carry out scheme operations (financial transactions) aimed at withdrawing money outside the Russian Federation, cashing out, purchasing real estate, financing construction and issuing loans to legal entities and individuals affiliated with the co - conspirators.
- As a result, Pakhomov V.S., using his official position, acting in an organised group, jointly and in concert with Shpakov R.V., Matyukhin S.A., Athanasiadou Linda, Golubev A.S., Rossieva E.A. and unidentified persons, under the circumstances described above, deliberately, through deceit and breach of trust, on 09.12.2020 stole money belonging to Kulikova A.V. in the amount of 2,000,000 rubles, in an especially large amount.
- Thus, Pakhomov Vladimir Sergeevich committed fraud, i.e. theft of other people's property by deception and abuse of trust, committed by a person using his official position, by an organised group, on a particularly large scale, i.e. the crime provided for by part 4 of article 159 of the Criminal Code of the Russian Federation.

 - Having received these funds from A.V. Shilova in the total amount of 2,000,000 roubles, R.V. Shpakov, V.S. Pakhomov, S.A. Matyukhin, Athanasiadou Linda , A.S.  - As a result, Pakhomov V.S., using his official position, acting in an organised group, jointly and in concert with Shpakov R.V., Matyukhin S.A., Athanasiadou Linda, Golubev A.S., Rossieva E.A. and unidentified persons, under the above circumstances, in the period from 25.12.2020 to 26.12.2020, deliberately, by means of deceit and breach of trust, stole money belonging to Shilov A.V. in the amount of 2,000,000 roubles, in an especially large amount.

- Under the brokerage services agreement, the Company, acting as a broker in executing transactions, undertook to fulfil clients' orders to conclude transactions with derivative financial instruments, including options, the underlying asset of which was foreign issuers' equity securities (hereinafter - OTC option contracts), in the OTC market aimed at bringing profit to the clients (hereinafter - OTC option contracts). The counterparty (seller) under all OTC option contracts, including those concluded in the interests of individual clients, was Q-BROKER LLC, an affiliate of QBIF LLC. At the same time, in accordance with the criminal plan of the participants of the criminal association, the realisation of OTC options by Q-BROKER LLC was to function as a financial pyramid scheme, where the source of return of funds to clients under OTC option contracts executed by Q-BROKER LLC in full or in part were funds received under newly concluded option contracts, and the ultimate goal of concluding such contracts was actually the implementation of schematic operations (financial transactions) aimed at withdrawal of funds from the OTC option contracts.
 - Thus, R.V. Shpakov, V.S. Pakhomov, S.A. Matyukhin, using their official positions in the above - mentioned organisations of the above - mentioned group of companies, Athanasiadou Linda , A.S. Golubev, E.A. Rossieva and unidentified persons, being mainly in the office premises of LLC IC QBF, located at the address: Moscow, Presnenskaya Naberezhnaya, 8, p. 1. 1, as well as in unspecified places, acting as an organised group, as part of a criminal association, jointly and in concert, at an unspecified period of time, but not later than 08.10.2020, remotely, using unidentified information and telecommunication means of communication, misled Kamzolov E.A. about their true intentions - the theft of his funds, under the pretext of executing an order to conclude over - the - counter option contracts on the OTC market, without initially intending to fulfil the undertaken obligations.
 - Continuing their criminal actions, Shpakov R.V., Pakhomov V.S., Matyukhin S.A., Athanasiadou Linda, Golubev A.S., Rossieva E.A. and unidentified persons, acting in an organised group, jointly and in concert, on 08.10.2020, at an unspecified time and place, organised the signing with Kamzolov E.A. of an application for consent to conclude a brokerage services agreement with IC QBF LLC (application for adhesion for individuals), on the basis of which on 08.10.10.2020 between Kamzolov E.A. and "IC "QBF" LLC, named as a broker, concluded the agreement on brokerage services No. BO - F - N - 0 - 00568, dated 09.10.2020, and under the pretext of fulfilment of the conditions of the said agreement persuaded the latter to transfer his funds to them allegedly for trust management.
 - E.A. Kamzolov, unaware of the crime being prepared and misled as to the true objectives of the participants of the organised group - the theft of his funds, convinced that his funds would be returned after the option agreement was executed, in the period from 28.10.2020 to 05.02.2021 made transfers of funds from his account No. 40817810823004013673 opened with PJSC VTB Bank, located at: Moscow, Leningradsky Prospekt, d. 60 to the account of QBIF LLC No. 40817810823004013673 opened with NSD ("National Settlement Depository"), located at: Moscow, Leningradsky Prospekt, d. 60. 60, to IC QBF LLC account No. 40701810700003010998 opened with NSD JSC ("National Settlement Depository") located at 12 Spartakovskaya Street, Moscow, under Brokerage Services Agreement No. BO - F - N - 0 - 00568 dated 09.10.2020, namely: 28.10.2020 in the amount of RUB 500,000; 29.10.2020 in the amount of RUB 300,000; 17.11.2020 in the amount of RUB 400,000; 09.12.2020 in the amount of RUB 400,000; 05.02.2021 in the amount of RUB 400,000, totalling RUB 2,000,000.
 - Having received these funds from Kamzolova E.A. in the total amount of 2,000,000 roubles, Shpakov R.V., Pakhomov V.S., Matyukhin S.A., Athanasiadou Linda, Golubev A.S., E.A. Rossieva and unidentified persons disposed of them at their own discretion, in accordance with the criminal plan and in fulfilment of a joint criminal intent, thereby stealing, knowingly without intending to fulfil their obligations to fulfil the terms of the option agreement, pay and return the funds to the client.

- Further, realising that the activities of QBIF LLC were subject to inspection by the regulator, the Central Bank of the Russian Federation, in order to conceal their criminal activities and to make their actions look legitimate, as well as to create a belief in Kamzolov E.A. that his money would be invested profitably, Shpakov R.V., Pakhomov V.S., Matyukhin S.A., Athanasiadou Linda, Golubev A.S., Rossieva E.A. and unidentified persons abused the trust in the investment of his funds, Pakhomov V.S., Matyukhin S.A., Athanasiadou Linda, Golubev A.S., Rossieva E.A. and unidentified persons, abusing the confidence of Kamzolov E.A., as well as persons unaware of the criminal intent, persuaded him to sign instructions to a broker in order to conclude OTC derivative transactions, namely options, in accordance with which E.A. - Subsequently, in accordance with the criminal plan, the money stolen by the co - conspirators was used by them to carry out scheme operations (financial transactions) aimed at withdrawing money outside the Russian Federation, cashing out, purchasing real estate, financing construction and issuing loans to legal entities and individuals affiliated with the co - conspirators.
- As a result, Pakhomov V.S., using his official position, acting in an organised group, jointly and in concert with Shpakov R.V., Matyukhin S.A., Athanasiadou Linda, Golubev A.S., Rossieva E.A. and unidentified persons, under the above circumstances, in the period from 28.10.2020 to 05.02.2021, deliberately, through deceit and breach of trust, stole money belonging to Kamzolov E.A. in the amount of 2,000,000 roubles, in an especially large amount.

- Under the brokerage services agreement, the Company, acting as a broker in executing transactions, undertook to fulfil clients' orders to conclude transactions with derivative financial instruments, including options, the underlying asset of which was foreign issuers' equity securities (hereinafter - OTC option contracts), in the OTC market aimed at bringing profit to the clients (hereinafter - OTC option contracts). The counterparty (seller) under all OTC option contracts, including those concluded in the interests of individual clients, was Q-BROKER LLC, an affiliate of QBIF LLC. At the same time, in accordance with the criminal plan of the participants of the criminal association, the realisation of OTC options by Q-BROKER LLC was to function as a financial pyramid scheme, where the source of return of funds to clients under OTC option contracts executed by Q-BROKER LLC in full or in part were funds received under newly concluded option contracts, and the ultimate goal of concluding such contracts was actually the implementation of schematic operations (financial transactions) aimed at withdrawal of funds from OTC option contracts.
- Thus, R.V. Shpakov, V.S. Pakhomov, S.A. Matyukhin, using their official positions in the above - mentioned organisations of the above - mentioned group of companies, Athanasiadou Linda , A.S. Golubev, E.A. Rossieva and unidentified persons, being mainly in the office premises of LLC IC QBF, located at the address: Moscow, Presnenskaya Naberezhnaya, 8, p. 1. 1, as well as in unspecified places, acting as an organised group, as part of a criminal association, jointly and in concert, at an unspecified period of time, but not later than 26.11.2020, remotely, using unspecified information and telecommunication means of communication, misled A.P. Vasyunin.
- Continuing their criminal actions, Shpakov R.V., Pakhomov V.S., Matyukhin S.A., Athanasiadou Linda, Golubev A.S., Rossieva E.A. and unidentified persons, acting in an organised group, jointly and in concert, on 26.11.2020, at an unspecified time and place, organised the signing with Vasyunin A.P. of an application for consent to conclude a brokerage services agreement with IC QBF LLC (application for joining for individuals), on the basis of which on 26.11.11.2020 between A.P. Vasyunin and "IC "QBF" LLC, named as a broker, concluded a brokerage services agreement No. BO - F - N - 0 - 00921 dated 26.11.2020, and under the pretext of fulfilling the terms of the said agreement persuaded the latter to transfer his funds to them allegedly for trust management.
- A.P. Vasyunin, unaware of the crime being prepared and misled as to the true objectives of the participants of the organised group - the theft of his funds, convinced that his funds would be returned after the option agreement conditions were fulfilled, in the period from 24.12.2020 to 08.02.2021 made transfers of funds from his account No. 40817810900009895100, opened in JSC "Tinkoff Bank", located at the address: Moscow, 2nd Khutorskaya str. 38 "A", building 26, to QBIF LLC account No. 40701810700003010998 opened with NSD JSC ("National Settlement Depository") located at 12 Spartakovskaya Street, Moscow, under Brokerage

- Having received these funds from A.P. Vasyunina in the total amount of 1,201,000 roubles, R.V. Shpakov, V.S. Pakhomov, S.A. Matyukhin, Athanasiadou Linda , A.S. Golubev and unidentified persons disposed of them at their own discretion in accordance with the criminal plan and in fulfilment of a joint criminal intent, thereby stealing them, knowingly without intending to execute them, E.A. Rossieva and unidentified persons disposed of them at their own discretion, in accordance with the criminal plan and in fulfilment of a joint criminal intent, thereby stealing, knowingly without intending to fulfil their obligations to fulfil the terms of the option agreement, pay and return the funds to the client.

- Subsequently, in accordance with the criminal plan, the money stolen by the co - conspirators was used by them to carry out scheme operations (financial transactions) aimed at withdrawing money outside the Russian Federation, cashing out, purchasing real estate, financing construction and issuing loans to legal entities and individuals affiliated with the co - conspirators.
- As a result, Pakhomov V.S., using his official position, acting in an organised group, jointly and in concert with Shpakov R.V., Matyukhin S.A., Athanasiadou Linda, Golubev A.S., Rossieva E.A. and unidentified persons, under the above circumstances, in the period from 24.12.2020 to 08.02.2021, deliberately, through deceit and breach of trust, stole money belonging to Vasyunin A.P. in the amount of 1,201,000 roubles, in an especially large amount.

- The locations where the co - conspirators committed actions aimed at stealing money by deceiving individuals and abusing their trust were office premises, which were positioned by the participants of the criminal association as additional branches of QBF Financial Group LLC, operating under a single brand - QBF Financial Group, located in various regions of the Russian Federation, in offices at the following addresses: 8 Presnenskaya Naberezhnaya Naberezhnaya, bld. 1, Moscow, and 12 Presnenskaya Naberezhnaya Naberezhnaya, Ufa, Verkhnetorgovaya Square, bld. 1 and Presnenskaya Embankment, 12; Ufa, Verkhnetorgovaya Ploshchad, 4; Tyumen, ul. 4; Tyumen, 74 Maxim Gorky St.; Murmansk, 82 Lenin Ave.; Kazan, 6 Spartakovskaya St.; Ekaterinburg, 1a Boris Yeltsin St.; St. Petersburg, 11 Degtyarny Per. and 64 Malohtinsky Prospekt, 64, lit. "B"; Kaliningrad, 35 Teatralnaya St.. At the same time, the main place where the participants of the criminal association carried out most of the actions aimed at stealing money by deceiving individuals and abusing their trust, including those carried out remotely, using various information and telecommunication means of communication, was the office premises located at the following address: 8 Presnenskaya Naberezhnaya Embankment, bldg. 1, Moscow. 1.
- In their subsequent criminal activity, using the financial and logistical base of the QBF group, formed on the instructions of R.V. Shpakov from the money systematically stolen from citizens, the participants of the criminal association, R.V. Shpakov, V.S. Pakhomov and S.A. Matyukhin, using their official position in the above - mentioned organisations of the above - mentioned group, by means of deceit and abuse of trust, consisting of the creation of the "QBF" (QBF) group from the money systematically stolen from individuals, Shpakov R.V., Pakhomov V.S. and Matyukhin S.A., using their official positions in the above - mentioned organisations of the group, by means of deceit and abuse of trust, which consisted in creating a false appearance of the possibility of obtaining a high income among natural persons - clients of the companies of the group, persuaded clients to conclude various investment contracts with LLC IC QBF, including a contract

- for the provision of brokerage services, as well as to transfer under these contracts to the trust management of them, the co - conspirators, their funds, which were then transferred to them, the co - conspirators.
- Under the brokerage services agreement, the Company, acting as a broker in executing transactions, undertook to fulfil clients' orders to conclude transactions with derivative financial instruments, including options, the underlying asset of which was foreign issuers' equity securities (hereinafter - OTC option contracts), in the OTC market aimed at bringing profit to the clients (hereinafter - OTC option contracts). The counterparty (seller) under all OTC option contracts, including those concluded in the interests of individual clients, was Q-BROKER LLC, an affiliate of QBIF LLC. At the same time, in accordance with the criminal plan of the participants of the criminal association, the realisation of OTC options by Q-BROKER LLC was to function as a financial pyramid scheme, where the source of return of funds to clients under OTC option contracts executed by Q-BROKER LLC in full or in part were funds received under newly concluded option contracts, and the ultimate goal of concluding such contracts was actually the implementation of schematic operations (financial transactions) aimed at withdrawal of funds from OTC option contracts.
 - Thus, R.V. Shpakov, V.S. Pakhomov, S.A. Matyukhin, using their official positions in the above - mentioned organisations of the above - mentioned group of companies, Athanasiadou Linda , A.S. Golubev, E.A. Rossieva and unidentified persons, being mainly in the office premises of LLC IC QBF, located at the address: Moscow, Presnenskaya Naberezhnaya, 8, p. 1, as well as in unidentified places, acting in an organised group as part of a criminal association, together and in concert, during an unspecified period of time, but no later than 11.02.2021. 1, as well as in unspecified places, acting as an organised group, as part of a criminal association, jointly and in concert, at an unspecified period of time, but not later than 11.02.2021, remotely, using unspecified information and telecommunication means of communication, misled Smirnov A.V. about their true intentions - the theft of his funds, under the pretext of executing an order to conclude over - the - counter option contracts on the OTC market, without initially having the intention to execute the taken on
 - Continuing their criminal actions, R.V. Shpakov, V.S. Pakhomov, S.A. Matyukhin, Athanasiadou Linda , A.S. Golubev and unidentified persons, acting in an organised group, jointly and in concert, on 11.02.2021, organised the signing of the agreement with Smirnov, V.S, Rossieva E.A. and unidentified persons, acting in an organised group, jointly and in concert, on 11.02.2021, at an unspecified time and place, arranged for Smirnov A.V. to sign an application for consent to conclude a brokerage services agreement with IC QBF LLC (application for joining for individuals), on the basis of which on 11.02.2021 Smirnov A.V. and "IK QBF" LLC, named as a broker, concluded a brokerage services agreement No. BO - F - N - 0 - 01757, dated 09.02.2021, and under the pretext of fulfilling the conditions of the said agreement persuaded the latter to transfer his funds to them ostensibly for trust management.
 - A.V. Smirnov, unaware of the crime being prepared and misled as to the true objectives of the participants of the organised group - the theft of his funds, convinced that his funds would be returned after the option agreement was executed, on 12.02.2021 transferred funds from his account No. 42301810700002299048 opened with JSC Tinkoff Bank, located at 38, 2nd Khutorskaya St., Moscow.A, page 26, to QBIF LLC account No. 40701810700003010998 opened with NSD ("National Settlement Depository") located at 12 Spartakovskaya Street, Moscow, under Brokerage Services Agreement No. BO - F - N - 0 - 01757 dated 09.02.2021 in the amount of RUB 2,500,000.
 - Having received these funds from Smirnov A.V. in the total amount of 2,500,000 roubles, Shpakov R.V., Pakhomov V.S., Matyukhin S.A., Athanasiadou Linda, Golubev A.S., E.A. Rossieva and unidentified persons disposed of them at their own discretion, in accordance with the criminal plan and in fulfilment of a joint criminal intent, thereby stealing, knowingly without intending to fulfil their obligations to fulfil the terms of the option agreement, pay and return the funds to the client.
 - Further, realising that the activities of QBIF LLC were subject to inspection by the regulator, the Central Bank of the Russian Federation, in order to conceal their criminal activities and make their actions look legitimate, as well as to create a belief in Smirnov A.V. that his money was being invested in a profitable way, R.V. Shpakov, Pakhomov V.S., Matyukhin S.A., Athanasiadou Linda, Golubev A.S., Rossieva E.A. and unidentified persons, abusing Smirnov A.V.'s trust, as well as persons unaware of the criminal intent, persuaded him to sign instructions to a broker in order to conclude OTC derivative transactions, namely options, in accordance

with which Smirnov A.V.'s funds in various amounts were transferred to QBIF LLC as a security payment to the accounts of the options seller, Q-BROKER LLC, an affiliate of QBIF LLC.

- Subsequently, in accordance with the criminal plan, the money stolen by the co - conspirators was used by them to carry out scheme operations (financial transactions) aimed at withdrawing money outside the Russian Federation, cashing out, purchasing real estate, financing construction and issuing loans to legal entities and individuals affiliated with the co - conspirators.
- As a result, Pakhomov V.S., using his official position, acting in an organised group, jointly and in concert with Shpakov R.V., Matyukhin S.A., Athanasiadou Linda, Golubev A.S., Rossieva E.A. and unidentified persons, under the circumstances described above, deliberately, through deceit and breach of trust, on 12.02.2021 stole money belonging to Smirnov A.V. in the amount of 2,500,000 roubles, in an especially large amount.
- Thus, Pakhomov Vladimir Sergeevich committed fraud, i.e. theft of other people's property by deception and abuse of trust, committed by a person using his official position, by an organised group, on a particularly large scale, i.e. the crime provided for by part 4 of article 159 of the Criminal Code of the Russian Federation.

 - Further, realising that the activities of QBIF Ltd. were subject to inspection by the regulator, the Central Bank of the Russian Federation, in order to conceal their criminal activities and make their actions look legitimate, as well as to create a conviction in Korolskiy V.V. that his money was profitably invested, Shpakov R.V., Pakhomov V.S., Matyukhin S.A., Athanasiadou Linda, Golubev A.S., Rossieva E.A. and unidentified persons, abusing the trust of Korolsky V.V., as well as persons unaware of the criminal intent, persuaded him to sign instructions to a broker for the purpose of concluding OTC derivative transactions, namely options, in accordance with which Korolsky V.V.'s funds in various amounts were transferred to QBIF LLC as a security payment to the accounts of the options seller, Q-BROKER LLC, an affiliate of QBIF LLC.
 - Subsequently, in accordance with the criminal plan, the money stolen by the co - conspirators was used by them to carry out scheme operations (financial transactions) aimed at withdrawing money outside the Russian Federation, cashing out, purchasing real estate, financing construction and issuing loans to legal entities and individuals affiliated with the co - conspirators.
 - As a result, Pakhomov V.S., using his official position, acting as an organised group, jointly and in concert with Shpakov R.V., Matyukhin S.A., Athanasiadou Linda, Golubev A.S., Rossieva E.A. and unidentified persons, under the above circumstances, in the period from 09.02.2021 to 26.02.2021, deliberately, through deceit and breach of trust, stole funds belonging to Korolsky V.V. in the amount of 2,500,000 roubles, in an especially large amount.

- In their subsequent criminal activity, using the financial and logistical base of the QBF group, formed on the instructions of R.V. - Thus, R.V. Shpakov, V.S. Pakhomov, S.A. Matyukhin, using their official positions in the above - mentioned organisations of the above - mentioned group of companies, Athanasiadou Linda , A.S. Trukhmeneva's funds in various amounts were transferred to QBIF LLC as a security payment to the accounts of the options seller, Q-BROKER LLC, an affiliate of QBIF LLC.
 - Subsequently, in accordance with the criminal plan, the money stolen by the co - conspirators was used by them to carry out scheme operations (financial transactions) aimed at withdrawing money outside the Russian Federation, cashing out, purchasing real estate, financing construction and issuing loans to legal entities and individuals affiliated with the co - conspirators.
 - As a result, Pakhomov V.S., using his official position, acting in an organised group, jointly and in concert with Shpakov R.V., Matyukhin S.A., Athanasiadou Linda, Golubev A.S., Rossieva E.A. and unidentified persons, under the circumstances described above, deliberately, through deceit and breach of trust, in the period from 02.12.2020 to 26.02.2021, stole money belonging to Trukhmeneva S.V. in the amount of 1,602,000 roubles, on a particularly large scale.
 - Thus, Pakhomov Vladimir Sergeevich committed fraud, i.e. theft of other people's property by deception and abuse of trust, committed by a person using his official position, by an organised group, on a particularly large scale, i.e. the crime provided for by part 4 of article 159 of the Criminal Code of the Russian Federation.

- Having received these funds from Rodnevskaaya M.Y. in the total amount of 3,283,227.25 rubles, Shpakov R.V., Pakhomov V.S., Matyukhin S.A., Athanasiadou Linda, Golubev A.S., E.A. Rossieva and unidentified persons disposed of them at their own discretion, in accordance with the criminal plan and in fulfilment of a joint criminal intent, thus stealing, knowingly without intending to fulfil their obligations to fulfil the terms of the option agreement, pay and return the funds to the client.
- Further, realising that the activities of QBIF LLC were subject to inspection by the regulator, the Central Bank of the Russian Federation, in order to conceal their criminal activities and make their actions look legitimate, as well as to create a belief in Rodnevskaaya M.Y. that her money would be invested profitably, R.V. Shpakov, S.V. Pakhomov, S.S. Matyukhin, Athanasiadou Linda , A.S. Golubev, E.A. Rossieva and unidentified persons abused the trust in her money, Pakhomov V.S., Matyukhin S.A., Athanasiadou Linda, Golubev A.S., Rossieva E.A. and unidentified persons, abusing the confidence of Rodnevskaaya M.Y., as well as persons unaware of the criminal intent, persuaded her to sign instructions to a broker for the purpose of entering into OTC derivative transactions with derivative financial instruments, namely options, in accordance with which the funds of

- Subsequently, in accordance with the criminal plan, the money stolen by the co - conspirators was used by them to carry out scheme operations (financial transactions) aimed at withdrawing money outside the Russian Federation, cashing out, purchasing real estate, financing construction and issuing loans to legal entities and individuals affiliated with the co - conspirators.
- As a result, Pakhomov V.S., using his official position, acting as an organised group, jointly and in concert with Shpakov R.V., Matyukhin S.A., Athanasiadou Linda, Golubev A.S., Rossieva E.A. and unidentified persons, under the above circumstances, in the period from 20.01.2021 to 19.03.2021, deliberately, through deceit and breach of trust, stole money belonging to Rodnevskaia M.Y. in the amount of 3,283,227.25 roubles, in an especially large amount.
- Thus, Pakhomov Vladimir Sergeevich committed fraud, i.e. theft of other people's property by deception and abuse of trust, committed by a person using his official position, by an organised group, on a particularly large scale, i.e. the crime provided for by part 4 of article 159 of the Criminal Code of the Russian Federation.

- The locations where the co - conspirators committed actions aimed at stealing money by deceiving individuals and abusing their trust were office premises, which were positioned by the participants of the criminal association as additional branches of QBF Financial Group LLC, operating under a single brand - QBF Financial Group, located in various regions of the Russian Federation, in offices at the following addresses: 8 Presnenskaya Naberezhnaya Naberezhnaya, bld. 1, Moscow, and 12 Presnenskaya Naberezhnaya Naberezhnaya, Ufa, Verkhnetorgovaya Square, bld. 1 and Presnenskaya Embankment, 12; Ufa, Verkhnetorgovaya Ploshchad, 4; Tyumen, ul. 4; Tyumen, 74 Maxim Gorky St.; Murmansk, 82 Lenin Ave.; Kazan, 6 Spartakovskaya St.; Ekaterinburg, 1a Boris Yeltsin St.; St. Petersburg, 11 Degtyarny Per. and 64 Malohtinsky Prospekt, 64, lit. At the same time, the main place where the participants of the criminal association carried out most of the actions aimed at stealing money by deceiving individuals and abusing their trust, including those carried out remotely, using various information and telecommunication means of communication, was the office premises located at the following address: 8 Presnenskaya Naberezhnaya Embankment, bld. 1, Moscow. 1.
- In their subsequent criminal activity, using the financial and logistical base of the group "QBF" ("QBF"), formed on the instructions of Shpakov R.V. from the money systematically stolen from citizens, the participants of the criminal association, Shpakov R.V., Pakhomov V.S. and Matyukhin S.A., using their official position in the above - mentioned organisations of the group, by deceit and abuse of trust, consisting of creating the money from individuals - individuals who were systematically stolen from citizens, Shpakov R.V., Pakhomov V.S. and Matyukhin S.A., using their official positions in the above - mentioned organisations of the above - mentioned group, by means of deceit and abuse of trust, which consisted in creating a false appearance of the possibility of receiving a high income among natural persons - clients of the companies of this group, persuaded clients to conclude various investment agreements with LLC IC QBF, including an

The counterparty (seller) under all OTC option contracts, including those concluded in the interests of individual clients, was Q-BROKER LLC, an affiliate of QBIF LLC. At the same time, in accordance with the criminal plan of the participants of the criminal association, the implementation of OTC options by Q-BROKER LLC was to function as a financial pyramid scheme, where the source of return of funds to clients under OTC option contracts executed by Q-BROKER LLC in full or in part were funds received under newly concluded option contracts, and the ultimate goal of concluding such contracts was actually the implementation of schematic operations (financial transactions) aimed at withdrawal of funds from the OTC option contracts.
 - Thus R.V. Shpakov, V.S. Pakhomov, S.A. Matyukhin, using their official positions in the above - mentioned organisations of the group of companies, Athanasiadou Linda , A.S. Golubev, E.A.  - Further, realising that the activities of QBIF LLC were subject to inspection by the regulator, the Central Bank of the Russian Federation, in order to conceal their criminal activities and make their actions look legitimate, as well as to create a belief in Savin A.V. that his money was being invested in a profitable way, R.V. Shpakov, V.S. Pakhomov, S.S. Matyukhin, Athanasiadou Linda , A.S. Golubev, E.A. Rossieva and unidentified persons abused their trust in the investment of his money, Pakhomov V.S., Matyukhin S.A., Athanasiadou Linda, Golubev A.S., Rossieva E.A. and unidentified persons, abusing Savin A.V.'s trust, as well as persons unaware of

the criminal intent, persuaded him to sign instructions to a broker for the purpose of entering into OTC derivative transactions, namely options, in accordance with which Savin A.V.'s funds in various amounts were transferred to QBIF LLC as a security payment to the accounts of the options seller, Q-BROKER LLC, an affiliate of QBIF LLC.

- Subsequently, in accordance with the criminal plan, these funds stolen by the co - conspirators were used by them to carry out scheme operations (financial transactions) aimed at withdrawing funds from the Russian Federation, cashing out funds, purchasing real estate, financing construction and issuing loans to legal entities and individuals affiliated with the co - conspirators.
- As a result, Pakhomov V.S., using his official position, acting as an organised group, jointly and in concert with Shpakov R.V., Matyukhin S.A., Athanasiadou Linda, Golubev A.S., Rossieva E.A. and unidentified persons, under the above circumstances, in the period from 05.01.2021 to 23.03.2021, deliberately, through deceit and breach of trust, stole money belonging to Savin A.V. in the amount of 2,000,000 roubles, in an especially large amount.
- Thus, Pakhomov Vladimir Sergeevich committed fraud, i.e. theft of other people's property by deception and abuse of trust, committed by a person using his official position, by an organised group, on a particularly large scale, i.e. the crime provided for by part 4 of article 159 of the Criminal Code of the Russian Federation.

- In their subsequent criminal activity, using the financial and logistical base of the QBF group, formed on the instructions of R.V. Shpakov from the money systematically stolen from citizens, the participants of the criminal association, R.V. Shpakov, V.S. Pakhomov and S.A. Matyukhin, using their official position in the above - mentioned organisations of the group, by means of deceit and abuse of trust, consisting of the creation of the "QBF" (QBF) group from the money systematically stolen from individuals, Shpakov R.V., Pakhomov V.S. and Matyukhin S.A., using their official positions in the above - mentioned organisations of the group, by means of deceit and abuse of trust, which consisted in creating a false appearance of the possibility of obtaining a high income among natural persons - clients of the companies of the group, persuaded clients to conclude various investment contracts with LLC IC QBF, including a contract for the provision of brokerage services, as well as to transfer under these contracts to the trust management of them, the co - conspirators, their funds, which were then transferred to them, the co - conspirators.
- Under the brokerage services agreement, the Company, acting as a broker in executing transactions, undertook to fulfil clients' orders to conclude transactions with derivative financial instruments, including options, the underlying asset of which was foreign issuers' equity securities (hereinafter - OTC option contracts), in the OTC market aimed at bringing profit to the clients (hereinafter - OTC option contracts). The

counterparty (seller) under all OTC option contracts, including those concluded in the interests of individual clients, was Q-BROKER LLC, an affiliate of QBIF LLC. At the same time, in accordance with the criminal plan of the participants of the criminal association, the realisation of OTC options by Q-BROKER LLC was to function as a financial pyramid scheme, where the source of return of funds to clients under OTC option contracts executed by Q-BROKER LLC in full or in part were funds received under newly concluded option contracts, and the ultimate goal of concluding such contracts was actually the implementation of schematic operations (financial transactions) aimed at withdrawal of funds from OTC option contracts.

- Thus R.V. Shpakov, V.S. Pakhomov, S.A. Matyukhin, using their official positions in the above - mentioned organisations of the above - mentioned group of companies, Athanasiadou Linda , A.S. Golubev, E.A. Rossieva and unidentified persons, being mainly in the office premises of LLC IC QBF, located at the address: Moscow, Presnenskaya Naberezhnaya, 8, p. 1, as well as in unidentified places, acting in an organised group as part of a criminal association, together and in concert, during an unspecified period of time, but not later than 08.02.2021, remotely, remotely, and also at unspecified places, acting in an organised group. 1, as well as in unspecified places, acting as an organised group, as part of a criminal association, jointly and in concert, at an unspecified period of time, but not later than 08.02.2021, remotely, using unspecified information and telecommunication means of communication, misled G.V. Mayorova about their true intentions - the theft of her funds, under the pretext of executing an order to conclude over - the - counter option contracts on the OTC market, without initially intending to execute the assumed obligations.
- Continuing their criminal actions, Shpakov R.V., Pakhomov V.S., Matyukhin S.A., Athanasiadou Linda, Golubev A.S., Rossieva E.A. and unidentified persons, acting in an organised group, jointly and in concert, on 08.02.2021, at an unspecified time and place, organised the signing of an application for consent to conclude a brokerage services agreement with IK QBF LLC (application for joining for individuals) with Mayorova G.V., on the basis of which on 08.02.02.2021 between Mayorova G.V. and "IC "QBF" LLC, named as a broker, concluded the contract of brokerage services No. BO - F - N - 0 - 01727 dated 08.02.2021, and under the pretext of fulfilment of the conditions of the said contract persuaded the latter to transfer her funds to them allegedly for trust management.
- G.V. Mayorova, unaware of the crime being prepared and misled as to the true objectives of the members of the organised group - the theft of her money, convinced that her money would be returned after fulfilling the terms of the option agreement, in the period from 12.03.2021 to 25.05.2021 she transferred funds from her account No. 40817810240018209765 opened with PJSC "Sberbank", located at the address: Moscow region, Serpukhov, Lunacharskogo str. 33A, to IC QBF LLC's account No. 40701810700003010998 opened with NSD JSC ("National Settlement Depository") located at 12 Spartakovskaya Street, Moscow, under Brokerage Services Agreement No. BO - F - N - 0 - 01727 dated 08.02.2021, namely: 12.03.2021 in the amount of RUB 230,000, 16.03.2021 in the amount of RUB 320,000, 12.04.2021 in the amount of RUB 200,000; 12.04.2021 in the amount of RUB 200,000; 12.04.2021 in the amount of RUB 200,000; 12.04.2021 in the amount of RUB 100,000; 14.04.2021 in the amount of RUB 300,000; 16.04.2021 in the amount of RUB 333,333, 16.04.2021 in the amount of RUB 100,000; 20.04.2021 in the amount of RUB 150,000; 10.05.2021 in the amount of RUB 130,000; 18.05.2021 in the amount of RUB 220,000; 22.05.2021 in the amount of RUB 250,000; 25.05.2021 in the amount of RUB 150,000, and also made transfers of funds from its account No. 40817810640015794307 opened with PJSC "Sberbank", located at the address: Moscow region, Serpukhov, Lunacharskogo str. 33 A, to IC QBF LLC's account No. 40701810700003010998 opened with NSD, located at 12 Spartakovskaya Street, Moscow, under Brokerage Services Agreement No. BO - F - N - 0 - 01727 dated 08.02.2021, namely: 11.04.2021 in the amount of RUB 200,000; 29.04.2021 in the amount of RUB 80,000; 04.05.2021 in the amount of RUB 300,000; 05.05.2021 in the amount of RUB 600,000; 07.05.2021 in the amount of RUB 200,000, as well as made transfers of funds from her account No. 40817810209034000199 opened with PJSC VTB, located at the address: Moscow region, Serpukhov, ul. 10A Krupskaya St., Serpukhov, to QBIF LLC's account No. 40701810700003010998 opened with NSD, located at 12 Spartakovskaya St., Moscow, under Brokerage Services Agreement No. BO - F - N - 0 - 01727 dated 08.02.2021, namely: 12.03.2021 in the amount of RUB 200,000; 18.03.2021 in the amount of RUB 320,000; 14.04.2021 in the amount of RUB 100,000; 29.04.2021 in the amount of RUB 80,000; 05.05.2021 in the amount of RUB 100,000, totalling RUB 5,063,333.

- Having received these funds from Mayorova G.V. in the total amount of 5,063,333 roubles, Shpakov R.V., Pakhomov V.S., Matyukhin S.A., Athanasiadou Linda, Golubev A.S., E.A. Rossieva and unidentified persons disposed of them at their own discretion, in accordance with the criminal plan and in fulfilment of a joint criminal intent, thus stealing, knowingly without intending to fulfil their obligations to fulfil the terms of the option agreement, to pay and return the funds to the client.
- Further, realising that the activities of QBIF LLC were subject to inspection by the regulator, the Central Bank of the Russian Federation, in order to conceal their criminal activities and to make their actions look legitimate, as well as to create a belief in Mayorova G.V. that her money would be profitably invested, R.V. Shpakov, Pakhomov V.S., Matyukhin S.A., Athanasiadou Linda, Golubev A.S., Rossieva E.A. and unidentified persons, abusing the confidence of Mayorova G.V., as well as persons unaware of the criminal intent, persuaded her to sign instructions to a broker for the purpose of entering into OTC derivative transactions with derivative financial instruments, namely options, in accordance with which the funds of Mayorova G.V. in various amounts were transferred by IC QBF LLC as a security payment to the accounts of the options seller - Q-BROKER LLC, affiliated with IC QBF LLC.
- Subsequently, in accordance with the criminal plan, the money stolen by the co - conspirators was used by them to carry out scheme operations (financial transactions) aimed at withdrawing money outside the Russian Federation, cashing out, purchasing real estate, financing construction and issuing loans to legal entities and individuals affiliated with the co - conspirators.
- As a result, Pakhomov V.S., using his official position, acting as an organised group, jointly and in concert with Shpakov R.V., Matyukhin S.A., Athanasiadou Linda, Golubev A.S., Rossieva E.A. and unidentified persons, under the above circumstances, in the period from 12.03.2021 to 25.05.2021, deliberately, through deceit and breach of trust, stole money belonging to Mayorova G.V. in the amount of 5,063,333 roubles, in an especially large amount.

Thus, Pakhomov Vladimir Sergeevich committed fraud, i.e. theft of other people's property by deception and abuse of trust, committed by a person using his official position, by an organised group, on a particularly large scale, i.e. the crime provided for by part 4 of article 159 of the Criminal Code of the Russian Federation.

As a result, Pakhomov V.S. committed offences under part 3 of article 210, part 4 of article 159 of the Criminal Code of the Russian Federation. (Vol. No. 333, pp. 37 - 236, Vol. No. 334, pp. 1 - 250, Vol. No. 335, pp. 1 - 146)

General evidence and their summary, confirming the guilt of Pakhomov V.S. in committing an offence under part 3 of article 210 and 151 of an offence under part 4 of article 159 of the Criminal Code of the Russian Federation:

- Testimony of Z.V. Munayev

- Testimony of Z.V. Munayev, given by him as a witness, suspect, accused (the criminal case on the accusation of Z.V. Munayev of committing a crime under part 2 of article 210 of the Criminal Code of the Russian Federation and 50 crimes under part 4 of article 159 of the Criminal Code of the Russian Federation was separated on 15 April 2022 for the completion of the preliminary investigation into a separate proceeding on the basis of p.4 According to which he testified that in 2010, when he was a student at a financial academy, he received an invitation for a job on the Internet from the website hh.ru, and then was interviewed for the position of financial adviser and was employed by Qubi Finance Ltd. The interview was conducted by Arseny Rukhov. At that time Qubey Finance LLC had 5 - 6 sales departments, a lot of employees and a high turnover of staff. The office was located at 24 Krasnaya Presnya Street, Krasnaya Presnya, Moscow, in the Tropicana business centre. Many of the heads of sales departments were acquaintances of R.V. Shpakov, reporting to him personally, and he (R.V. Shpakov) was one of the co - founders of the

company, along with Sergey Lvovich Kuzin and Nikolai Mikhailovich Modin. The beneficiary of the company at that time was Kuzin Sergey, who had 50 per cent or more of the authorised capital. R.V. Shpakov and N.M. Modin had the remainder of the authorised capital in approximately equal shares. His (Z.V. Munaev) direct supervisor was Arseniy Rukhov and he (Z.V. Munaev) performed his duties, which included: receiving from A. Rukhov a client base for ringing, making calls, telephone negotiations, holding meetings in the office of the company, concluding contracts, attracting and further support of clients. Qubey Finance LLC was licensed by the Federal Financial Markets Service and carried out activities in the securities market, mainly brokerage and trust management. In 2011 Cube Finance moved to a new office - mixed - use complex "City of Capitals" at the following address: 8 Presnenskaya Naberezhnaya Street, Moscow, building 1, 12th floor. During the year the system of work did not change, the staff increased and was regularly renewed. He (Z.V. Munayeva) and some other colleagues, such as Vladimir Pakhomov, Avetis Vartanov, Maxim Yudin, were promoted to the positions of sales department heads, and they all reported to R.V. Shpakov as head of the sales office. In the same year 2011 cash turnover started, i.e. receiving and giving money to clients in cash. Transactions with clients were very fast, withdrawal at that time took 1 - 2 weeks. As it was explained to them (employees), cash turnover was carried out by Duntorse by direct bank transfer from the client's balance, as well as by collection services when paying cash in the company's office. The cash was accumulated by Duntorse and delivered to the office at the request of Shpakov R.V. Duntorse was associated with a Russian company, Freedom Finance, headed by Timur Turlov. When receiving money from clients in cash, a receipt was made out on the Duntorse form or handwritten in free form. In this receipt, the signatory on the Duntorse side was an ordinary employee of this company acting under a power of attorney. On the side of Qubey Finance LLC, the signatories were R.V. Shpakov and Frolov. This activity was not part of the standard activities of a professional securities market participant supervised by the Central Bank and the FFMS and was not formalised in accordance with the Russian investment legislation in force at the time. In 2012, the management of QB Finance (Shpakov, Kuzin, Modin) established QB CAPITAL CY LTD (Cyprus), which fully fulfilled the role of Duntorse and replaced it in the process of servicing clients and transactions. As Duntorse was owned by Timur Turlov, Shpakov paid Turlov T. for the services provided by his (Turlov T.) company Duntorse to QB Finance's clients. In order to reduce costs and to consolidate financial flows under his management, a company "QB CAPITAL CY LTD" was established. This company was acquired by QB Finance management from Cliffe Law Company under the name Asheraxe LTD and Cliffe provided the first bank servicing this organisation, Piraeus Bank. Neither QB CAPITAL CY LTD nor Duntorse had a licence to carry out brokerage or any other securities activity during their entire period of operation, this was due to the licence held by the Russian entity QB Finance Ltd. The company "QB CAPITAL CY LTD" was controlled by R.V. Shpakov and, as he subsequently learnt, R.V. Shpakov was its sole founder. Shpakov, Modin and Kuzin also set up similar companies called "QB Financial Servicec QB" and "QB CAPITAL MANAGEMENT LTD", both in the Republic of Cyprus. The organisation "QB Financial Servicec QB" was intended for the activity of a new branch in Kiev under the management of Arseniy Rukhov. QB CAPITAL MANAGEMENT LTD was intended for non - Moscow clients of the branch network in the territory of the Russian Federation. The general director of "QB CAPITAL MANAGEMENT LTD" was appointed as "nominee". "QB Financial Servicec QB" and "QB CAPITAL MANAGEMENT LTD" were used to sign contracts with clients, and client funds were attracted to the companies' bank accounts. Linda "led" these companies and Shpakov R.V. These companies did not have any licences to deal with securities. The similarity in the name was necessary to show that the companies belonged to the same group of companies. In 2013, Kuzin Sergey and Modin Nikolay left the founders of QBF LLC and their shares were bought out by Shpakov R.V. Around the same year, QBF Asset Management LLC was founded by Shpakov R.V. alone. This company managed funds. In the same year, the first CueBeef Real Estate fund was launched and formed, related to the construction of the Gribovsky Les LCD in Odintsovo, where the developer was Simon Jesso LLC, affiliated to R.V. Shpakov, and which was sold by the sales department of CueBeef Finance LLC as one of the group companies. In 2013. R.V. Shpakov, directly or with the help of colleagues, became acquainted with NOA CIRCLE, a certified provider of corporate, legal and accounting services in Cyprus, of which Linda and Apollo Athanasiadou were the representatives. On behalf of R.V. Shpakov, Vladimir Pakhomov and Dmitry Lepeshkin travelled to Cyprus to negotiate with the above persons. "NOA CIRCLE" took over the maintenance and servicing of all clients of "Duntorse" transferred to "QB CAPITAL CY LTD", "QB CAPITAL MANAGEMENT LTD", "QB Financial Servicec" and new clients of "QB CAPITAL CY LTD", their financial operations, maintenance of company accounts, submission of financial statements of the organisations. Bank - client, keys of remote access were at Shpakov R.V. The system of work with clients in terms of non - cash and cash settlements

remained the same. Subsequently, he (Z.V. Munayev) learnt that the clients' funds received in cash were not properly entered into the settlement accounts of "Duntonse" and "QB CAPITAL CY LTD". The clients were provided with balance reports, which reflected the full amount of the investment. Shpakov R.V. had in his assistants employees of Freedom Finance and Duntonse, who generated and provided reports on QB CAPITAL CY LTD transactions and passed them to Shpakov R.V. One of his assistants was Igor Klyushnev, who was aware of the interaction between Duntonse and QB CAPITAL CY LTD, was not directly involved in the preparation of reports, but, according to Shpakov R.V., was related to them. Maxim Povalishin, an employee, played a primary role in the preparation of the reports, and Igor Klushnev was involved in their preparation. Both Povalishin and Klushnev ceased to have anything to do with the compilation of the reports no later than 2018, as Simtelligence was already a company in 2019. After the liquidation of "QB CAPITAL CY LTD" and the transfer of its rights and obligations to "SIMTELLIGENCE COMPANY LIMITED", the report writers remained the same and the essence of the reports is the same. After their departure, from the point of view of the content of the reports, R.V. Shpakov himself played a major role in their formation, and Linda Athanasiadou may have been aware of it in some part. In terms of the form of the reports and their distribution, this was handled by Yuri Orlov, the IT specialist. For some clients, the sales staff did the most detailed analysis of the reports, their content, the consistency of positions and values with the real market data, also the change of these positions and prices through months and years, the impact of each position on the change of the portfolio value and profit/loss of each client, and the consistency of the behaviour of this portfolio with the real behaviour of the market and indices. Linda and Apollon Athanasiades had many personal and professional connections in Cyprus, both in the financial sector, the law firm and the regulator. Moreover, they had greater expertise and knowledge of the operating environment of local jurisdiction companies in the international financial markets. In addition, Apollon Athanasiades is a relative of the President of Cyprus (as of 2013 and after). NOA provided full financial and legal support to R.V. Shpakov's Cypriot and later other foreign companies, reporting to regulators and conducting audits. Apollo was the CEO of NOA, Linda was also an employee (representative) of the company. Linda Athanasiadou also performed orders on behalf of R.V. Shpakov in the banks servicing his company. Linda had the necessary keys, access to the "bank - client" of the companies "QB CAPITAL CY LTD", "QB CAPITAL MANAGEMENT LTD", "QB Financial Service" for herself and other persons, and other necessary documents to perform the actions assigned by R.V. Shpakov. According to Linda, when making transfers, she always provided the banks with the client's contracts with both the Cypriot company and the Russian licensed company to confirm the legality of the activity. As a result of an agreement between R.V. Shpakov and Linda, QBF Investment (later renamed Constance) was established in 2014. Its founder was R.V. Shpakov, its head (general director) was Linda Athanasiadou and she carried out all financial and economic activities of Constance. Constance's financial operations were not related to those of Shpakov's previous companies, it was subject to different terms and conditions, had different products and services, and attracted new clients, including Russian clients. During this period, the Russian company's main focus was foreign markets. Two contracts were concluded with the client: with a Russian organisation and with a foreign organisation. On the Russian side, the contract was concluded with QB Finance LLC (since 2016 - QBIF LLC) - Asset Management Assignment (Trust Management Agreement), or Consultancy Management Agreement; the second contract with the client - Agreement on Providing Access to the International Securities Market, which was concluded on behalf of the foreign organisation (before 2013 it was Duntonse, after 2013 - QB CAPITAL CY LTD). The funds were transferred directly under the second contract to the settlement account of the organisation "Duntonse", opened in "Piraeus" bank in Cyprus. Then, the clients' funds were transferred: in the case of "Duntonse" - to the accounts of the top brokers, in particular, other companies of the "Freedom Finance" group, as well as "LEK Securities" and other brokers, and they already carried out operations on the exchange trading accounts, and in the case of "QB CAPITAL CY LTD" - to the accounts of "Duntonse" and other brokers. This whole scheme was signalled to the clients at the conclusion of the contract. Clients were given receipts and cash receipts/expenditure vouchers from the foreign organisation with which the client had a contract. Withdrawals were made to the clients' current accounts. The system of settlement with the client was as follows: money was transferred directly from individuals and legal entities to the Duntonse account, then oral and written orders were carried out, both from clients and portfolio managers of Kubi Finance under the direction of R.V. Shpakov to execute transactions on trading accounts. Every month clients received reports from "Duntonse" on the results of financial transactions and depending on their desire, could request either partial or full withdrawal of funds, or make pre - investment. When clients' funds were transferred to the accounts of Duntonse and then QB Capital CY LTD, some

portion was accurately channelled to the trading accounts of the top brokers and transactions were executed. Prior to 2015, a portion of more than 50 per cent of client funds was directed to the top brokers' accounts, and after 2015, less than 50 per cent was directed to the top brokers' accounts. However, the reports provided to the client included the full amount invested (funds credited). A company with a licence (Qubey Finance, then IK QBF LLC) used foreign trading accounts to make trading transactions with client funds. Securities, according to the agreement, were to be purchased and registered by internal accounting for the client, with no confirmation of the trades executed, as the pool was managed, i.e. the totality of accumulated client funds, internally divided into large trading strategies. In 2011 - 2014. Qubey Finance LLC provided clients with monthly reports that contained information on portfolio type, asset/instrument mix, purchase price, quantity, month - end price, value of each position, margin lending level (leverage), entries and withdrawals (amounts, dates), portfolio changes, and transitions from strategy to strategy. In the case of Duntonse, the responsible officer was also identified. These reports were the only source of information. The reporting period varied, as did the frequency of distribution. In QBF, the reporting period was a month. The report was sent electronically in "PDF" format to clients' mailboxes, as a rule, every 10th day of the month following the end of the previous reporting period (month). The company had clients both for "Advisory brokerage" service (the client gave an order to buy and sell; the manager did not have the rights to make transactions independently, but executed the client's order) and for "Trust management" service (the manager independently made transactions according to the agreement signed by the client and the declaration specifying the main criteria, strategies and possible limitations). Most of the company's clients in the international market had contracts of the second type, "trust management". In the case of advisory management contracts, the client gave a transaction order electronically (scan of the document signed by the client) for each transaction, or gave the order "by voice" by calling a special telephone number with a record of the conversation: the client identifies himself, says in full the type of transaction and the instruments he needs. The securities and each specific position on the stock exchange are purchased in the name of the company "QB CAPITAL CY LTD". The balances in the reports to the clients of the international market did not correspond to the real amounts that R.V. Shpakov actually sent to the accounts of the respective clients in "QB CAPITAL CY LTD", the top brokers. Thus, the incoming balance in the reports was only formally indicated. In the period around 2015, Shpakov R.V. had a "hole" in his total funds of all clients, i.e. he (Shpakov R.V.) lost part of the company's funds on stock exchange transactions, but at the time did not disclose this in client reports to hide losses and not to cause an outflow of funds, deterioration of reputation, threat to the whole business. R.V. Shpakov substituted in his reports unprofitable positions actually bought by him on the stock exchange with other stock exchange positions with neutral - positive trading (financial) result for the company and clients. Many attracted clients were paid their own and "earned" funds at the expense of other clients' funds. At the same time, the clients attracted in the period since 2015, QBF LLC (QBF IK) offered yields already lower than in previous periods, more than 2 - 3 times lower, tariffs were increased, the product line was increased, marketing materials were improved. Thus, he and many employees carried out relevant and important at that time work on the company's struggle with the difficult market situation, but these actions did not lead to the desired favourable result, as it turned out that on the part of Roman Shpakov there was a misuse of clients' money, i.e. Roman Shpakov used depositors' money for his own enrichment. Also the circumstances of 2015 and afterwards led Shpakov to the fact that he used for settlements with some clients the funds of other, newly attracted clients, which only aggravated the difficult situation in the company and in the market. If the clients' funds had been placed on segregated (separate) accounts and there had been timely control over them by the regulator, the risk of misuse of newly received clients' funds would have been much less. Both he (Z.V. Munayev) and many employees during the long years of the company's operation asked R.V. Shpakov questions concerning the company's activity, system of functioning, including the system of settlements with clients, and the company's profit. Most of the questions found reasonable answers, but they could not get full and meaningful answers. The team was especially concerned about this in the period from 2015, when the first serious shifts in the timing of settlements with clients began. At the same time, Shpakov R.V. as a manager always stopped excessive questions and interest in the internal activities of the company, always saying that the client in the end, although with a long period of time, but receives money in full, and many and most with a profit that exceeds the level of competitors' offers, which justified his approach to such activities. Duntonse and QB CAPITAL CY LTD did not have their own licences but used third party licences held by QB Finance Ltd. QB Finance Ltd. did not accept client funds itself. In addition, Duntonse and QB CAPITAL CY LTD did not have separate client accounts, which increased the risk and opportunities for the account

manager to use client funds both in favour of clients and making better deals on the stock exchange, and in his own interests. He knows about the activities of QB Capital CY LTD that it was a shareholder of QB Capital Real Estate Fund or QB Capital Regional Real Estate Fund and is listed in the register of owners in the Management Company. The presence of "QB Capital CY LTD" Clients of one of the positions in their reports of units of ZPIF "Real Estate" indicates that "QB Capital CY LTD" should have used a part of the funds accepted from the Clients to purchase a share in the said Fund for further channelling the funds to the Developer in the construction project. The clients are not provided with the confirmation of the acquisition of the fund units either from "QB Capital CY LTD" or from QBF Asset Management. Since the rights and obligations of "QB Capital CY LTD" were transferred to "Simtelligence Company Limited" in full, Simtelligence Company Limited had the right of claim to the funds of MC "QB Asset Management" within the framework of the funds actually transferred to the Fund from "QB Capital CY LTD". Since the transfers were not made in full, the reports sent to the clients did not correspond to the actually purchased positions (purchased shares in the Fund). The units purchased by the company "QB Capital CY LTD" are registered in the fund only for it, the Fund does not re - register them to the clients of "QB Capital CY LTD", this assignment of rights should have been carried out by the internal accounting of "QB Capital CY LTD". Decisions on the amount of funds transfer within each of the products of "QB Capital CY LTD" to specific instruments were made directly by R.V. Shpakov based on the conditions and restrictions of the Fund. It would have been much easier for R.V. Shpakov to withdraw or otherwise withdraw funds from foreign accounts controlled by him and transfer them directly to construction projects using controlled developers and builders. However, even if the full amount of the required funds were directed to the relevant Real Estate Funds, this product did not have a mandatory cash and interest payment term, but rather had target yields and a 100% risk of cash loss like any other investment product. Therefore, the Fund's obligations to the Units, as well as to QB Capital CY LTD and Simtelligence Company Limited, do not constitute a guaranteed payment of corpus and interest. All Client monies transferred to "QB Capital CY LTD" and "Simtelligence Company Limited", regardless of the portfolio positions, contractual terms and conditions and other legal aspects, will not be returned to the clients, as this decision can be made directly only by R.V. Shpakov, and all funds were appropriated unilaterally by him. In 2014, he (Z.V. Munaev) was appointed to the position of Head of Sales Department of Moscow, and Vladimir Pakhomov was sent to St. Petersburg to open the first regional branch, while still listed in Qubi Finance LLC. In the same year, he (Z.V. Munaev) and Pakhomov, only the two of them, were assigned (transferred) shares in Qubey Finance LLC by R.V. Shpakov for 6 per cent each, but he (Z.V. Munaev) never received dividends from them. During the time period from 2012 to 2014, the timeframe for withdrawal of clients' funds from Cyprus increased to 1 - 1.5 months. Since 2014, many banks, including Piraeus Bank, have made the requirements for transactions more complicated and aggravated. In addition, due to the new requirements for funds received from the territory of the Russian Federation, the period of their verification for the source of origin, the source of the client's income, and the client's identity has increased. In 2015, both the set of documents required for deposit and withdrawal of funds and the withdrawal terms increased for the clients of Qubi Finance LLC. R.V. Shpakov and Linda initially provided the employees with a greatly expanded list of documents required from clients for withdrawal of funds, but in fact most of the documents from this list did not represent a set of documents actually required by the bank. For example, the bank did not need a diploma of education, certificate of military duty, proof of residence and other documents from the above extended list. In reality, banks required the following documents: source of origin of funds, source of income, certificate of no criminal record, letter of recommendation from the bank/lawyer/advocate. The list of documents for withdrawal of funds was artificially extended by R.V. Shpakov to increase the timeframe for withdrawal of funds and the possibility of using these funds for a longer period of time. Since 2015, the terms of withdrawal of clients' funds from Cyprus increased to 1.5 - 3 months. At the same time "QB CAPITAL CY LTD" ceased to be serviced in the banks of Cyprus. From 2015 to 2018, the number of construction projects increased by raising customer funds. The branch network increased strongly, as well as the number of complaints and dissatisfied customers regarding the withholding of funds due to them under their contracts. Also, due to the circumstances, employee dissatisfaction with management and the situation increased and the working climate deteriorated. The employees had fears and fears of the continuation of the organisation's activities with clients and the impossibility of paying the latter money. Due to unsatisfactory, in R.V. Shpakov's opinion, sales results, he (Z.V. Munaev) was removed from the position of sales manager. Vladimir Pakhomov was appointed to this position and became sales manager for both Moscow and St. Petersburg. In 2018, the liquidation of "QB CAPITAL CY LTD" began. Following complaints from citizens to the Central Bank and Cyprus, the

question arose to check the activities of QB CAPITAL CY LTD, an affiliate of QB Finance Group, in Cyprus. Linda and Apollon Athanasiades, Shpakov Roman were afraid of full disclosure of the data of the owners of the Cypriot companies, their affiliation with "QB Finance", account providers, financial transactions due to the fact that they were illegal on the territory of Cyprus, which Linda emphasised and explained that in the territory of the Russian Federation it would be presented as a financial pyramid scheme. In order to prevent these events there was a change in all corporate documents of the founders, management from R.V. Shpakov to his (Z.V. Munayev) name. Linda Athanasiadou provided him (Z.V. Munayev) with these documents, drawn up "backdated" for his signature. During the same period, in order not to disclose the affiliation of the organisations, he was removed from the founders of IK QBF LLC (renamed from QBF LLC in 2016 - 2017). He was told by R.V. Shpakov and Linda Athanasiadou that two organisations would be set up to continue settlements with clients and prevent the company from renegeing on its obligations to them (clients). As soon as possible, two companies were set up, namely: "SIMTELLIGENCE" (Hong Kong), "WHITE LAKE MANAGEMENT LTD" (Cayman Islands). Settlements with former clients QB CAPITAL CY LTD and Duntonse continued, as well as the attraction of new clients using these organisations and the procedure of re - signing the contracts of "old" clients to new contracts with SIMTELLIGENCE COMPANY LIMITED and WHITE LAKE MANAGEMENT. SIMTELLIGENCE COMPANY LIMITED was owned by Linda's partner and mate Mike Christofi, he is a citizen of the Republic of Cyprus who was living in Hong Kong. When the liquidation of "QB Capital CY LTD" was on the agenda, Linda looked for a new company and jurisdiction, and by criteria known only to her and Apollo, Hong Kong was chosen, where Mike had a friendly owned almost "empty" company. Linda acquired it in 2018 in favour of R.V. Shpakov and "Simtelligence Company Limited" took over the rights and obligations of "QB Capital CY LTD" and continued to carry on its previous activities. "Simtelligence Company Limited did not have any licences to carry out securities activities. The regulator did not have any complaints about the legality of the company's activities. The accounts and funds of the LLC company were managed by Linda Athanasiadou and R.V. Shpakov, similar to "QB Capital CY LTD". The only thing that has changed is the combination of unlicensed and licensed companies: instead of the licensed QB Capital CY LTD, the licensed White Lake Management Ltd took the place of the licensed company. Sometimes a third company, VL Consulting LLC, was added to this bundle. Its role served only as a communication link for the correct legal transfer of information between the Russian Federation and foreign jurisdictions. VL Consulting LLC did not have a securities licence. Settlements and cash transactions in this bundle were handled directly by Simtelligence Company Limited, as was QB Capital CY LTD in the previous bundle. "Simtelligence Company Limited" accepted clients' funds into its accounts, after which it was understood that the funds would be directed to the accounts of the top brokers and "White Lake Management Ltd" as a licensed entity. At least this was discussed as "QB Capital CY LTD" was liquidated as a procedure for new companies and jurisdictions. After the account of "Simtelligence Company Limited" was opened in AMERIA - Bank (Armenia) with his (Z.V. Munayev) participation, the first funds of this company were credited to it (the account) because it had just taken over the activities of "QB Capital CY LTD". His participation was necessary because he (Z.V. Munayev) was the last signatory of "QB Capital CY LTD".) was the last signatory of "QB Capital CY LTD", was the only one who was able to explain the transfer of activities to "Simtelligence Company Limited", the legality of the activities, the former connection with "Qubi Finance" LLC, as well as in person (which was mandatory) to go through the standard banking procedures for opening a non - resident account. Subsequently, according to Linda, his involvement was no longer necessary, either with this Bank or others. He did not open any further accounts for Simtelligence Company Limited. White Lake Management Ltd, was set up from scratch in the Cayman Islands and Linda and her team then ensured that the company went through the necessary procedures to obtain a licence. The company had a director by the name of Paul, a Cayman Island national who was also accountable to the regulator. Paul was found and appointed as a director by Linda Athanasiadou. When Linda was in the Moscow office, he (Z.V. Munaev) saw their telephone conferences in the conference room on several occasions. "White Lake Management Ltd" had the ability as a broker/manager to accept funds directly into their accounts and trade them independently with the necessary access and terminal. The sales staff was interested in attracting clients to the licensed company, and therefore sales started at "White Lake Management Ltd", but due to the late stage of its establishment and development, it attracted about 1 - 2 dozens of new clients. "White Lake Management Ltd" also had 1 - 2 bank accounts and "White Lake Management Ltd" was also a management company/broker for clients of "Simtelligence Company Limited". It was in conjunction with it that the clients of Simtelligence Company Limited could access international markets. Although, it was also direct transactions from

Simtelligence Company Limited to FFin Bs and possibly to other companies and Brokers. In fact, the operations of "White Lake Management Ltd" were managed by R.V. Shpakov and Linda, and they also had access to the accounts. "White Lake Management Ltd" was set up to distribute cash flows similar to the earlier example of "QB Capital CY LTD", "QB CAPITAL MANAGEMENT LTD" and "QB Financial Servicec QB". "WLM LTD" was to take only cash client payments, transfer them and issue them back to the client. The linkage of the work of "WLM LTD" was also with "White Lake Management Ltd". The jurisdiction of "WLM LTD" was the Cayman Islands and it was entered into 2019 - 2020, it was managed by the same persons - Linda and Shpakov R.V. The director of the company was a nominee. Externally, the procedure for concluding contracts and cash flow should have been identical, but whether the actual crediting of funds to the company's accounts was carried out he does not know, just as he does not know. The similarity of the name was to make the clients understand that the company belonged to a group of companies, which included "White Lake Management Ltd" and "VL Consulting" Ltd. WLM LTD did not have a securities licence. Initially it was brought to the attention of the employees that the banks used by the brokers were necessary for further transfer of funds to the accounts of the top brokers. The brokers of "QB Capital CY LTD", and at the time of liquidation of "QB Capital CY LTD" (QCCI), should have had no problems with accepting client funds, because, according to Linda's words, the transfers were accompanied by documents attached to them both by "QB Capital CY LTD" and the Russian licensed LLC "Qubey Finance", in connection with which this bundle of companies ensured the legality of sending and crediting the funds to their destination. The accounts of R.V. Shpakov's foreign companies in foreign banks were opened by Linda Athanasiadou. Additional legal support could be provided by Apollo Athanasiadou . Opening of accounts at different periods of time could be both remote and with personal visit of Linda and possibly other employees. QB Capital CY LTD" and "Simtelligence Company Limited" had accounts in the following banks: Piraeus Bank (Cyprus), CDB Bank (Cyprus), Verso Bank, Atlas Bank (probably Montenegro), Ameria Bank (Armenia), Bank in the Republic of Vanuatu (can't remember the name), NBSB Bank (Hong Kong). He (Z.V. Munayev) was personally involved in opening accounts in Ameria Bank (Armenia) because he was a signatory in the liquidation of "QB Capital CY LTD". An account was also opened in the same bank for Simtelligence Company Limited. Linda had acquaintances among the top management of Ameria Bank. Linda received regular payments from R.V. Shpakov for banking and legal support. With his participation in the liquidation of "QB Capital CY LTD", only a package of corporate documents of "QB Capital CY LTD" was signed, which he did not read carefully enough. He did not sign any documents on closing or other actions on the bank accounts of the company and was not notified about them. He (Z.V. Munaev) assumes that his personal data and his signature after signing that liquidation kit could have been used by R.V. Shpakov and Linda Athanasiadou in other corporate documents of "QB Capital CY LTD" and "Simtelligence Company Limited" in other jurisdictions, including the banks mentioned by him. This is due to the fact that Linda and R.V. Shpakov were very much afraid of disclosure of information on R.V. Shpakov during the liquidation of "QB Capital CY LTD" due to the existence of requests of the Central Bank of the Russian Federation in Russia at that time and distribution of these requests among banks abroad. He (Z.V. Munayev) has no information about the accounts of "QB Capital CY LTD" being closed, their cash balances and has never had it. At the closing of "QB Capital CY LTD" the funds from its bank accounts were transferred to the accounts of "Simtelligence Company Limited", as the liquidation procedure itself, in order to be legal, did not imply bankruptcy of the company and zeroing out/withdrawal of debts, but transfer of rights and obligations from "QB Capital CY LTD" to "Simtelligence Company Limited". Around 2018 - 2019, the Cypriot regulator CySEC began to receive enquiries from the Central Bank of Cyprus regarding the related activities of QB Capital CY LTD and QB CAPITAL CY LTD. At that time Linda was very concerned about possible difficulties for the companies she was accompanying. On behalf of R.V. Shpakov, Linda travelled to the regulator, including negotiations with the head of the regulator to eliminate possible risks for the companies. Linda Athanasiadou was a qualified professional in the Republic of Cyprus, had many connections in the local financial market, was a confidant of many Cypriot businessmen and other influential persons, had friendly relations with the staff of the Cyprus regulator. At the same time, NOA was assigned to support R.V. Shpakov's companies. "SIMTELLIGENCE COMPANY LIMITED" and "White Lake Management", Linda Athanasiadou had the necessary keys, access to the "bank - client" and these companies. In addition to the previously mentioned companies and services, the interaction between R.V. Shpakov and Linda was reflected in the creation of such funds as "Purity", "Falco". The said funds were created by Linda, approximately in 2018, with the financing of Roman Shpakov. The management of these funds, their financial and economic activities were carried out by Linda and R.V. Shpakov. Also, in approximately

2019, Linda through her connections introduced into the perimeter of work (attracted) Shpakov R.V.'s companies the company "Argento..." - an organisation for the creation and management of structured products, operating in conjunction with Magento and Societe Generale Bank. R.V. Shpakov began to include securities of this company in client portfolios. The assignment of rights from "SIMTELLIGENCE COMPANY LIMITED" and "WHITE LAKE MANAGEMENT LTD" to RIF (Rent Investment Fund) real estate funds was initiated by R.V. Shpakov as the second big stage of transferring/resigning a significant part of clients to long - term and transparent products. At the first stage this second stage was not planned, but started to be realised later. Almost all clients were offered to buy fund units, and the justification was the same as before the re - signing of contracts: tougher regulation, difficulty of interaction between Russia and foreign counterparties, complexity, paperwork, cost, time, language barriers, and many other reasons. The organiser of the procedure of the second re - signing was the same executor - Linda Athanasiadou . Probably, in the Russian part, Yaroslava Smirnova and Evgeniya Rossieva were involved in the registration of units or relations with other objects (construction as an investment object). The company "LAMERA HOLDINGS LIMITED" was found by Linda. Some nominee or a person appointed by Linda signed the documents on behalf of the company. The value of a unit when it is sold in a primary formed and established fund, where there are no owners (fund) yet, is determined on the basis of an appraiser's report and relevant standard appraisal procedures strictly regulated by the Management Company and the Central Bank of the Russian Federation. The sale of RIF units to new (including "oversubscribed") clients was not like this, i.e. it was not a primary sale. The initial owner of the first units after all the necessary procedures was one of R.V. Shpakov's companies, most likely LLC Q.Broker. Further sale of the company's units is carried out at the market price, not on the basis of the appraiser's report and market procedures, as the price is set by the seller - the company Shpakov R.V. Thus, the market value of the sale of units from the company to the client was determined by the willingness of the seller in terms of the assigned price and appropriate bargaining. The intention of the employees during the period of their high activity in sales and re - signings for the purchase of units of the real estate fund "RIF" was based on the desire to settle accounts with clients and make a transparent withdrawal of their funds from foreign companies to the Russian jurisdiction, as this, including in the work both in general within the company and with clients, fell under the concept of "withdrawal of funds", and "LAMERA HOLDINGS LIMITED" was needed to document the wiring from abroad to the Russian fund. The fact that the clients had units was the closure of the obligations of the previous companies to the clients: both SIMTELLIGENCE COMPANY LIMITED and QB CAPITAL CY LTD made a full settlement of the last balances in the reports, the previous contractual relations ended and new ones began with clear transparent conditions and with a real investment object. One of the objects was a real income - generating warehouse (probably warehouses) for logistics and other companies, this object brought rent income, was inside the RIF fund. This income was to be paid to the shareholders. The original owner of the warehouses received payment from the sale of shares in them, a cash payment as part of the transaction with R.V. Shpakov, most likely at a value equal to or close to the appraiser's report of the given value of the object. The further sale value of the fund units to the client was determined by R.V. Shpakov. There were no other market benchmarks, and the difference with the initial amount paid by the appraiser was the company's "margin". The final sale price, although it had a clear set bar and range from Shpakov R.V., had a bargaining zone, the presence of which depended on the initiative of the buyer as a normal standard sale transaction. The sales staff had their own commission from sales and could not always communicate the possibility of bargaining and other conditions to the customers. The management company MC QBF Asset Management was responsible for the execution of the assignment agreement in the Russian part and crediting the units to the clients' names. In the foreign part, Linda Athanasiadou and her foreign team were responsible for the process of bringing the Russian part from the side of SIMTELLIGENCE COMPANY LIMITED and LAMERA HOLDINGS LIMITED. Perhaps one of the employees, Kirill Olezko, was involved in some process. Olezko was involved in some corporate correspondence with the Moscow office staff. If even 50 per cent of SIMTELLIGENCE COMPANY LIMITED's obligations to Clients were transferred under assignment agreements into units, SIMTELLIGENCE COMPANY LIMITED would be liquidated. In 2019, another area of activity for QBIF, LLC, was the provision of services through over - the - counter auction contracts (OTC) for IPOs and other transactions. This service was provided by IK QBEF LLC, directly accepting funds from clients in accordance with its licences. By signing an accession agreement, the client entered into a brokerage service agreement with IK QBEF LLC and transferred money from its current account to the company's current account opened with Alfa - Bank, Sberbank, NSD and other payment organisations. Clients were provided with a separate brokerage account (segregated) with a corresponding balance of funds

belonging to them. Further, the Client submitted an order on his behalf to enter into an OTC option contract (OOC) with Q-BROKER LLC, a company owned by R.V. Shpakov, where he was the CEO for the transaction (bet) he was interested in. As part of the brokerage account services, including transactions concluded with Q-BROKER LLC, the client submitted an order for each new transaction on his own behalf and thereby expressed his desire and agreed to its terms. All clients had the basic information contained in the Framework Contract (agreement), where general, including legislative and regulatory, concepts were formulated. This order was submitted to IC QBF LLC, and IC QBF LLC, represented by its General Director S.A. Matyukhin, entered into this agreement with Q-BROKER LLC on behalf and at the expense of the client. Clients joined it and sent orders for each new IPO with its specific terms and conditions in the calculation of the financial result (win rate). The fact of submitting an order from the client's side was accompanied by the transfer of funds from LLC IC QBF to the settlement account of LLC Q.Broker. The funds were transferred from the Client's brokerage account to the brokerage account of Q-BROKER LLC opened in the same organisation - IC QBF LLC. Further the funds from Q-BROKER LLC were channelled in accordance with the submitted client orders for execution of IPO and other transactions. The IPO transactions were executed jointly with Constance Investment (formerly Constance) as the foreign broker of Q-BROKER LLC. Clients' funds were transferred from the settlement account of "Q.Broker" LLC to the settlement account of "Constance Investment" in Cyprus and further, from "Constance Investment" were sent to the top brokers for execution of transactions. Almost all participants of the Russian financial market have IPO contracts of this type, which are settlement rather than delivery contracts, i.e. the option at its end provides the client with a monetary financial result in the form of profit or loss on each specific transaction, rather than the delivery of securities on the IPO transaction for which the application was submitted. According to this example, in IC QBF LLC, the VODs were settlement VODs; at the conclusion of the contract, Clients were notified of the type of profit or loss in monetary terms, without delivery of securities to their brokerage accounts. The IPO securities themselves were received by Constance Investment as a foreign broker and depository for this type of transactions. Sales of IPO ADSs were made by the sales staff of the sales department to their client bases. Contracts could be concluded both in the company's office and remotely via certified software and State Services (ESIA). This algorithm is uniform for customers throughout the Russian Federation. In accordance with the terms of the IOU, the company has no obligation to send funds to specific details, as the terms of the option is a bet between the client and the market in accordance with the bet he makes on this contract. The important thing for him is the final financial result. Accordingly, the company has no legal or other restrictions on the channelling of funds and their use. These conditions are uniform for all brokers both in Russia and abroad. The participants in the financial chain of transactions for the IPO WOD were: 1. Accounting department represented by Ekaterina Gramza (personal treasurer of R.V. Shpakov and supervisor of financial distribution in the jurisdiction of the Russian Federation); 2. Licensed broker represented by Stanislav Matyukhin, General Director of QBIF LLC, who was responsible for all professional activities of the company on the Russian market; 3. Intermediary Company - Q-BROKER LLC represented by its owner and General Director R.V. Shpakov; 4.1 Foreign broker "Constance Investment" represented by Director Linda Athanasiadou, or 4.2. Companies - other, including for non - purpose areas of expenditure and related companies, of which only the participants of the financial chain, i.e. Shpakov R.V., Gramza, Matyukhin S.A., and Linda Athanasiadou in case of foreign transfers and transactions, were known about. The termination of this chain by clause 4.2 was not unlawful, but this option of passing their money was not voiced to the clients. The necessary and statutory end of the entire financial chain of the IPO WOD is the receipt of funds by the clients with profit or loss in accordance with the terms of their contracts. In this case, due to financial management errors and managerial decisions of R.V. Shpakov, the clients faced the fact that they were unable to receive funds on their brokerage accounts and previously submitted orders for IPO IOUs and other IOUs. Thus, R.V. Shpakov by means of decisions on actions of p.4.2, directed funds in his own interests and at his own discretion, thereby misleading both the company's employees and clients in terms of the direction of the use of funds, did not ensure the return of withdrawn funds to the brokerage accounts of clients, violated the terms of the concluded IOUs in terms of final settlements under these contracts, jeopardised the entire activity of the company and clients. R.V. Shpakov organised attraction of clients through more favourable IPO rates, access to more companies, better conditions for IPO entry, allocation and IPO exit. The standard negotiation methodology of IK QBF LLC, as well as any other financial company, does not include the description of the whole legal and financial chain of trade deals, as the client came to receive the finished service and results. Thus, in the process of negotiations only curious and persistent clients sought information about top brokers, legal terms,

contract terms for specific IPOs, etc., while most of the clients were not explained. QBIF LLC had IOUs for relevant products and services of related companies such as Purity, Argento... " whose activities were managed by Linda Athanasiadou. Client funds received by QBIF LLC were channelled through Q-BROKER LLC through the financial chain to these funds and products - "Purity", "Argento...". The clients' funds transferred to Purity through Q-BROKER LLC were partially or fully returned to the clients, while for Argento..., due to the long maturity of these securities held and registered with NSD's depository, the funds were not returned due to the fact that the maturity date had not occurred, but due to the actions taken and being taken by R.V. Shpakov to dispose of these funds. Most of the clients of trust management services on the Russian stock market received their funds in the appropriate amount, as the company made many transactions on the Moscow and St. Petersburg stock exchanges with quoted securities in accordance with the standards of client service conditions and the practice of Russian investment companies. Other transactions for which funds were channelled from Q-BROKER LLC were the purchase of Argento Access Sarl securities registered with NSD. As far as Argento Access Sarl securities are concerned, although they are issued by a certified Issuer and are registered with NSD, they are not trustworthy, liquid and meet the expected interests of clients, i.e. the money was transferred to this company in the interests of R. Shpakov.V. with the help of Linda Athanasiadou with the intention of not returning this money to the clients; transfer to the accounts of LLC "Management Company QBF" and its mutual funds, including ZPIFs for the construction projects of Shpakov R.V., i.e. at the expense of attracted clients' funds the clients' funds were invested in the construction projects of R.V. Shpakov through the shell funds; transferred to the accounts of construction companies LLC "M1 Development", LLC "Simon Jesso" (Developer), LLC "SeverSpecStroy" (Developer), and other companies related to the construction projects of R.V. Shpakov, the names of which he does not know. All construction activities of R.V. Shpakov in Severodvinsk were managed by his mother Irina Nikolaevna Shpakova. Also I.N. Shpakova managed financial operations of all construction projects in Severodvinsk and supervised the work of the Russian accounting department of LLC IC QBF - all accountants, financial operations, payments of the companies related and controlled by R.V. Shpakov; transfers to the accounts of JSC QBF Group (the company that owns 100 per cent of the shares of LLC IC QBF and LLC MC QBF). This company, among other things, entered into promissory notes with clients to accept money from them for loans at interest. The Company could also make direct settlements with certain clients and employees in respect of financial obligations, such as refunds, salaries, payments with counterparties for core and other activities; withdrawal of money to the accounts of R.V. Shpakov and his affiliated companies. and companies affiliated with him, such as LLC 168 Kvartal, LLC 701, LLC 702, LLC 776, LLC Ver - Mont, LLC Vysota, LLC KG, LLC K - Investment, LLC K - Consulting, LLC KF Estate SPB, LLC Cusisiai, LLC Finbutik, LLC Indep Smart, LLC RentInvest, LLC Synthesis, LLC F - Management, LLC F - Technologies, LLC F - Experts, PJSC CEF, JSC RIF and others. Thus, in order for the entire business to function and be in the best interests of the clients, the cash had to be transferred back to Q-BROKER LLC at a profit or loss, and further transferred to the clients to their brokerage accounts at QBIF LLC in the appropriate amount and result. At the end of each ICO, the funds must be automatically credited to the accounts of QBIF LLC and its clients, while the withdrawal of funds to clients' current accounts from QBIF LLC is the result of an order submitted by the client for the amount of the brokerage account balance. Financial instruments that do not meet the criterion of liquidity, recoverability, sufficient collateral for repayment were the largest financial investments of IC QBF LLC and Q-BROKER LLC, such as: - VODs; - units of construction ZPIFs; - securities of Argento Access Sarl. Entering into transactions with these financial instruments is not a good faith practice and is not acting in the best interests of the client. Having reliable information about these instruments and directions of their use, clients would definitely refuse to purchase them, whereas in our case R.V. Shpakov organised a system of their (clients') attraction with a pre - existing intention to use the funds in his own interests and not to return them to their owners. It was a scheme of misleading on his part and obtaining clients' money by fraudulent means. Despite the fact that the whole chain of cash flow from the client to exchange or other unknown transactions was legal, the system of work outlined earlier is still illegal in its final link - R.V. Shpakov's decision not to pay money back to clients and return it to their accounts. Stanislav Matyukhin performed some of the operations of withdrawing (cashing out) funds from the accounts of QBIF LLC and some QBIF Group companies on behalf of R.V. Shpakov. S.A. Matyukhin received financial orders for transfers from R.V. Shpakov for investment and related business, while Ekaterina Gramza carried out orders from R.V. Shpakov for other companies not related to investment business, but she made transfers for Q-BROKER LLC. The cash received by the employees of QBIF LLC from clients under the concluded agreements on provision of direct access to international stock markets was accepted

both in the offices of the company and at off - site meetings with clients. For the most part, this took place in the office of IC QBF LLC. Cash was accepted by the company's employees, who were instructed that this was a standard and legal procedure and that the funds were credited to the clients' foreign accounts within the Company's general account. Cash from customers was accepted at all times by all hired employees without restriction, with the authorisation of the immediate supervisor, as prior notification was required for a separate meeting room and cash counting equipment (counting machine). Accepted cash was left in the cash room in a safe. Then the head of the department to which the client belongs, or the head of the department at the end of the working day of the office reported to R.V. Shpakov about the amount of received funds. The statistics collected for all department heads at the end of the day was sent to Shpakov R.V. by the head of the sales department in correspondence. Shpakov R.V. then instructed to bring the money to him personally in his office or to one of the employees of the sales department who was in the office after the end of the working day, or to one of his trusted employees of non - selling departments or assistants. In case R.V. Shpakov was absent from the office, he (R.V. Shpakov) instructed that the money be brought to him (Z.V. Munayev during his tenure as head of the sales department) so that he (Z.V. Munayev), having waited for R.V. Shpakov, transferred this money to him (R.V. Shpakov) for further transfer abroad or in case of counter cash flows (from abroad to Russia/from Russia to abroad) by means of netting, he would disburse funds on his orders, including but not limited to the following: salaries of sales and non - sales employees, commissions and bonuses of sales and non - sales employees, office and other related expenses, disbursement of clients' funds on behalf of R.V. Shpakov (returns on orders from R.V. Shpakov).V. (returns on withdrawal orders), personal orders of Shpakov R.V. to one of his employees. Sometimes he (R.V. Shpakov) asked to give part of the money to persons unknown to the employees. Part of the money received from clients by Shpakov R.V. was sent by him to the relevant "supervisors" in the Central Bank of Russia and government agencies to prevent negative consequences in relation to the company QBIF LLC. The procedure described above was common to both the Moscow office and the branches, except for the following differences known to him: consolidation of funds from the branches generally took place in the St. Petersburg office through business trips of employees from the branches to St. Petersburg, or business trips of employees of the St. Petersburg office or Pakhomov V.S. personally to the branches. At the request of R.V. Shpakov, V.S. Pakhomov encashed funds from all branches of QBF LLC, namely the branches in Tyumen, Yekaterinburg, Kaliningrad, Ufa and St. Petersburg, with varying frequency. The decision to make payments in the Moscow office was made personally by R.V. Shpakov, while for the branches the decision on the cash consolidated in St. Petersburg was made by V.S. Pakhomov and R.V. Shpakov, with Shpakov's final approval. Due to Shpakov R.V.'s direct presence in the Moscow office, all major decisions, including financial decisions, were made by him personally, and the managers in Moscow did not have such extensive powers, while for the branches, due to Shpakov R.V.'s remoteness from these offices and lack of personal immersion in their daily activities, the powers of the head of the branch network, Pakhomov V.S., were much wider and he was more independent, although he coordinated the most important issues with Shpakov R.V., and also necessarily fulfilled his instructions. Money from St. Petersburg was transported from St. Petersburg to Moscow to Shpakov R.V. personally by Pakhomov V.S. at the request of Shpakov R.V. without any clear periodicity. Such "encashment" was absent in the branches due to personal business trips of branch employees to St. Petersburg, and was only in Moscow, which was mentioned by Shpakov R.V. when he organised the work. The procedure for transferring funds collected from Moscow and the branches from employees on behalf of Shpakov R.V. to visiting persons unknown to the employees was called by Shpakov R.V. "encashment". In accordance with the lists of clients' applications for withdrawal transmitted from the Moscow and branch sales departments, Shpakov R.V., based on the cash received, made decisions on the withdrawal of a part of the clients from the lists of cash for withdrawal on his behalf. In the remaining part of the withdrawals were carried out both by bringing so - called "encashment" cash received from foreign trading accounts and by direct non - cash transfers to clients. Receipt of money from customers was accompanied by the issuance of documents: a receipt to a cash receipt order or a receipt for receipt of money. Not all the money received from clients was transferred to their respective accounts. Mutual settlements of cash from the company's offices and non - cash withdrawals from trading accounts from abroad, as stated by R.V. Shpakov, did not always take place. The cash received should have matched the amount declared to be withdrawn from the foreign trading account, so that the cash would not have to be transferred, but could be taken into account immediately for settlement on the spot (in banking and brokerage terminology this is called "clearing of payments"). Since about 2015, without any systematic regularity in terms of terms, amounts or participants in the process, R.V. Shpakov gave

orders to the company's employees, whom he himself chose, to accept funds to their accounts from him (R.V. Shpakov) or his companies to withdraw and make payments, which were initially known to him (R.V. Shpakov) personally, and later, as the company's organisational structure grew, part of the payments were known to him (Z.R. Munayev) and other heads of structural divisions. The funds were transferred to the accounts of employees (he was sometimes among them), most often under loan agreements. In fact, neither he nor other employees transferred the money back. The contracts were drafted by Ekaterina Gramza. These contracts were actually signed, they knew that these were corporate funds of R.V. Shpakov, and since the withdrawals were made through normal banking transactions within available banking limits and bank laundering checks, the employees almost never had additional questions. Moreover, some of the funds were actually due to some of the employees as salary from Shpakov R.V. or bonuses. Also, due to frequent salary delays and very severe delays in commissions and bonuses after 2015, employees always reacted adequately and positively to Shpakov R.V.'s instruction to transfer funds to employees' accounts for withdrawal and disbursement to the sales department for salaries. Most of the salaries and bonuses were given "in an envelope" by one of the employees who was in charge of the technical issuance of envelopes. This employee was Kristina Bogdanova, a former secretary, a young girl unfamiliar with financial activities and much that went on in the company. The money could have been transferred to her by one of the employees, and possibly personally by Shpakov R.V. This system of payments was practised in the company in order to save money, to avoid taxation (the UST tax was not paid in full). Subsequently, closer to the liquidation of "QB CAPITAL CY LTD", when difficulties in settlements with clients were very noticeable, such transfers to the accounts of employees from R.V. Shpakov to withdraw cash to the company, including contained payments to clients of these employees, as clients were in a long wait for cash. Shpakov R.V. used them as employees for this purpose in order to save on infrastructure costs and withdrawal transfers, Shpakov R.V. could ask for a cash withdrawal from an employee several times a year. These were transfers both from R.V. Shpakov as an individual and from companies controlled by him: JSC FG, KG LLC; possibly from Gramza's personal account, and also, from the accounts of Q-BROKER LLC. In all the years of QBF's operation, such cash - out procedures involved, as a rule, heads of sales departments and heads of sales departments, including both Moscow and branches. Despite the fact that there was a turnover of employees even at the level of heads of departments, nevertheless, even a new manager could be involved in such procedures some time after his appointment. As a rule, for him it was a direct order from the Company's CEO or passed on through the heads of sales departments (his, Spinka, Pakhomov, Golubev, Korzh, other persons), so it was not objectionable. Of the employees known to him who took part in cashing money for R.V. Shpakov: Avetis Vartanov, Maxim Yudin, Nikita Selivanov, Nikolay Padalko, Dmitry Kipa, Alexander Zaitsev, Ara Balayan, Ruslan Spinka, Andrey Korzh, Vladimir Pakhomov, him (Z.V. Munayev), Alexey Golubev, Vladislav Plitin, Vladimir Maslennikov, Pavel Dzhumamuratov. Everything was formalised with loans that were not initially physically signed, but were signed later. "Alfa Bank" and "Sberbank" were the most common banks from whose accounts transfers were made to employees' personal accounts. The Banks sometimes had questions, normal banking questions, which were exhausted when Gramza provided the contracts. The withdrawn money was handed over by the employees personally to R.V. Shpakov, it could also be handed over to him (Z.V. Munayev) in his (R.V. Shpakov's) absence or employment for subsequent handover to the latter. The money could also be handed over to one of the department heads in view of Shpakov R.V.'s absence, to him or Spinka in the office. Temporarily, the money could have been transferred to and held by Spinka as one of the heads of the sales department. Shpakov R.V. kept the transferred cash in his office, in his nightstand. The loans were a documentary cover, while this was an illegal cash - in. The original origin of the money could not be known to any of the employees of the Moscow office, with the exception of Ekaterina Gramza, it was in some part client funds, not corporate funds belonging to R.V. Shpakov, and not his personal funds. Vladimir Pakhomov, head of the branch network, and Alexei Golubev, head of the St. Petersburg office, were also involved in the cash - out. Vladimir Pakhomov organised the cashing of funds by employees of the St. Petersburg office, while Alexey Golubev was aware of this system. In addition, there were cases of clients depositing money with the aim of obtaining services of access to the international stock market for the purpose of investing in brokerage services at QBIF LLC, while the contracts and relevant agreements were concluded on behalf of the employees of QBIF LLC who accompanied these clients and were signed by them. This was done by private agreement between the client and the employee when the clients did not want their identity and data in connection with the investment of funds to become known to anyone, as well as in order to ensure that there was no documentary evidence of this particular way of using the funds. With the

development of cryptocurrency transactions both in the world and in Russia, R.V. Shpakov repeatedly took an interest in such transactions. Shpakov R.V. had some attempts of transactions in cryptocurrency both for his own speculative purposes and in terms of operations for clients in the period of about 2016 - 2017, but they were not successful or were not properly developed. He knows about this from the words of Shpakov R.V. The second continuation of operations with cryptocurrencies was approximately in 2019, it concerned the interaction between Shpakov R.V., Linda and banks and brokers servicing Shpakov's foreign operations, capable of independently converting or transferring funds (US dollars and Euros) into cryptocurrency. From the words of R.V. Shpakov and Linda, he (Z.V. Munayev.) is aware that due to the transition from "QB Capital CY LTD" to "Simtelligence Company Limited" and "White Lake LTD", some of the operations on earlier clients of "QB Capital CY LTD" were hampered, not all the Banks properly accepted the client's set of documents and Linda's documents on "QB Finance" - "QB Capital CY LTD" bundle, therefore, at some point, by their decision, cryptocurrency transactions allowed abroad were connected for some settlements in some part. That is, it was a part of settlements between the moment of sending funds from the Bank servicing "Simtelligence Company Limited" and the moment of receiving funds by the client in non - cash and cash form. He (Z.V. Munayev) does not know the details of the transfers, their belonging to the clients, other participants and executors on the part of R.V. Shpakov. However, the receipt of funds in cash in the office was still accompanied by the arrival of unknown people with cash, and to receive them Shpakov R.V. sent someone from the staff or received them personally. Pavel Vlasov may have more information than other employees, as he (P. Vlasov) was often the employee to whom Shpakov R.V. instructed to collect the cash. Also, LLC IC QB&Ef and Vostochny Bank developed a scheme of interaction and implementation of investment programmes through the bank - sale of trust management services (hereinafter - TM) on individual investment accounts (hereinafter - IIS) of LLC IC QB&Ef to clients of Vostochny Bank, which began in about 2019. The employee of the company responsible for this direction was Renat Amerov - Director for work with partners and counterparties. He hired him (R. Amerov) around that time in 2019, because after his (Z.V. Munaev) removal from the position of Director of Sales Department, he was interested in new directions, as he was afraid for his place in the company, and financial situation. He and Renat considered different categories of partners, both financial and non - financial, to create a joint product with them and offer it through their sales networks. Financial categories - the most promising of these were banks, for obvious reasons. During the year of his work Renat went round many banks, big and small, and in some meetings he (Z.V. Munayev) participated as well. One of these banks was Vostochny Bank. At that time they were doing very well selling investment insurance for a long term, from 3 - 5 years, where the Bank received a commission of about 20 per cent. On the Bank's agenda was the issue of launching trust management partners. Bank Vostochny considered options of partners - BCS, their (IK QBF LLC) and ITA Capital. As a result, all three companies were admitted to sales at different periods of time. QBIF Ltd. had an agency agreement with Bank Vostochny, with a commission to the bank of about 10 per cent, and sold the Vostochny IIS DM product "Stable Growth", with a term of 5 years, but the actual term of the product was unlimited, until full withdrawal of the client's funds. Renat hired additional employees - coaches, who organised sales with the employees of the territorial offices of Vostochny Bank, located all over the country, it was about 500 offices, among which about one third was allocated to the coaching company. Each coach had a list of assigned cities and offices, the employees of which had the product of QBIF Ltd. in their "showcase" of sales among other products. The task of the coach together with the bank employee was to ensure the planned sales volume and the necessary commission income for the bank. Under this product, the client concludes an agreement with QBIF Ltd. at a bank branch by means of an electronic digital signature (EDS), immediately transfers money to the company's investment account, thus becoming an active client for servicing. His funds are placed in exchange - traded securities and over - the - counter financial instruments by the decision of the portfolio manager and the Investment Committee. The Investment Committee determines the strategy, permissible limits, conditions and restrictions. The CEO and risk manager of the company (respectively Stanislav Matyukhin and Georgiy Dandov) have direct influence on the decision. For the most important decisions for approvals, Renat and he (Z.V. Munayev) approached R.V. Shpakov with regard to the organisation of sales and coaching work, while Stanislav, Georgiy and other employees - in their part. Initially, the strategy configuration contained only stock exchange instruments, and the funds were fully allocated to the Moscow stock exchange. Employees received timely remuneration for this product, Vostochny Bank received timely commissions, and Clients received the necessary returns. Due to the fact that these were fully liquid funds and traded on the Moscow Exchange, Clients could withdraw the entire amount at any time, net of commissions

paid, and with the earned yield by submitting an application through a bank branch or remotely electronically directly to the company to the bank details - an account opened with Bank Vostochny. In such configuration the product worked for a long time, about half a year - a year. Then by the end of this period, due to a new tender in Vostochny Bank for the selection of a company - provider of investment services, sales were stopped, and QBIF Ltd. continued to serve the previously accumulated pool of clients. The bank demanded new product configurations with increased commission and conclusion via an option contract (structured note). This roughly coincided with the launch of IPO services via OTC option contracts. Through long coordination and personal meetings with the Bank's management, R.V. Shpakov proposed a new configuration of a structured product for Vostochny Bank with the use of OODs for 5 years with an annual yield of approximately 10 - 20 per cent (non - guaranteed) and the conclusion of an IIS via OTC (Brokerage). The launch of sales was successful but did not last long. At the same time sales were going on at BCS and Aitiay Capital, Shpakov R.V. lamented the financial additional arrangements of these companies with the management of Bank Vostochny. A few months after the second launch, in 2020, the bank disconnected QBIF from sales unilaterally. The coaching department was engaged in servicing old clients, some clients were transferred to the Sales Department. With the development of sales of IPO VOD at some point in time, R.V. Shpakov decided to include VOD as a tool in the strategy of trust management of both clients of the Sales Department of Moscow and branches, as well as agent networks and partners, in particular, the bank "Vostochny". He does not know in what configuration and in what volumes (limits) and to whom these assignments were addressed, he learnt about the fact itself when the company's employees, in particular, the sales department and coaches, started contacting him with questions about the meaning of these option agreements. Having collected the questions, they sent them to R.V. Shpakov and through joint discussion with him received answers satisfactory to them, related to the increased profitability for clients of these option agreements, not so long term and the possibility of redemption of some of these option agreements by the company at the personal decision of the management, namely R.V. Shpakov, without losses for clients. The number of such option agreements could amount to dozens, if not hundreds, of contracts concluded within the framework of trust management services. Thus, the decision to include the options in the sales of Vostochny Bank's MA was made not at the time of the direct sale of these products and receipt of client funds to the company's accounts, but much later, through the decision of R.V. Shpakov with the approval of the officials of IC QBF LLC. When the client concluded a Trust Management Agreement (TM) with IC QBF LLC through Vostochny Bank, the following documents were executed: IIS Trust Agreement (signed between the Client and LLC IC QB&Ef), with client funds being sent directly from LLC IC QB&Ef to the Moscow Exchange. When at a certain point in time, by decision of R.V. Shpakov, the following documents were also signed for each ICO: - an instruction (signed between IC QBF LLC and Q-BROKER LLC); - a contract (signed between IC QBF LLC and Q-BROKER LLC). When the client concluded the Brokerage Service Agreement (BO) with IC QBF LLC through Vostochny Bank, the following documents were executed: - BO IIS contract (signed between the Client and IC QBF LLC); - an instruction (signed between the Client and IC QBF LLC; this instruction was given once for the entire contract amount, which was equal to the contract amount); - a contract (signed between the Client and Q-BROKER LLC). At the end of 2017. - early 2018, an on - site inspection as part of a working group of the Central Bank of Russia (CBR) began at the office of QBIF LLC to check all investment activities of the organisation as a professional participant on the securities market. As he later learnt, R.V. Shpakov had an acquaintance in the Central Bank of the Russian Federation. He (R.V. Shpakov) informed him (Z.V. Munayev) about it in the office of the company in his office during a conversation immediately after the beginning of the inspection of the Central Bank of Russia. This acquaintance was, according to R.V. Shpakov, Deputy Chairman of the Central Bank of Russia Skobelkin, who supervised currency control activities. During the same conversation, R.V. Shpakov showed him (Z.V. Munayev) the website of the Central Bank of the Russian Federation, where in the structure of the management he pointed to the page with the profile data of this employee, with information about his position. Further, in the course of communication with R.V. Shpakov, he informed him (Z.V. Munayev) that this support of the activity of the company LLC IC QB&Ef by Skobelkin is carried out on a regular and reimbursable basis. Periodically, namely monthly, after making settlements in the office of the company, Shpakov R.V. instructed him (Munayev Z.V.) to transfer to him (Shpakov R.V.) an amount of 50 - 80 thousand US dollars with the comment "For our friends" in the context of verification activities of the Central Bank of the Russian Federation. On this basis, he concluded that these funds were intended to be transferred by R.V. Shpakov to R.V. Skobelkin as a reward for the latter's support of the company's activities and to minimise the negative consequences of the verification measures. The audit by the CBR

working group lasted approximately half a year. During the same period there were cross enquiries from the CBR not only to QB IC QF LLC, but also in Cyprus to the local regulator on the related activities of QB CAPITAL CY LTD on the subject of investment of funds of Russian citizens attracted on the territory of the Russian Federation in the office of QB IC QF LLC, using QB CAPITAL CY LTD and its bank accounts. The funds to be transferred to Skobelkin through QB CAPITAL CY LTD and its bank accounts were transferred both by R.V. Shpakov personally and on behalf of R.V. Shpakov through V.S. Pakhomov (repeatedly). The transfer of funds to Skobelkin began immediately after the start of the CBR audit, was carried out monthly, usually from the 15th to the 25th day of the month, and continued after the end of the CBR audit until May 2021. This contact, namely acquaintance of Shpakov R.V. with Skobelkin, appeared to Shpakov R.V. through his uncle Pakhomov V.S. He knows about it both from Shpakov R.V. and from Pakhomov V.S. Also in his (Munayevu Z.V.) presence there was a conversation between Pakhomov V.S. and Shpakov R.V., from which it became known that one of the managers of the Central Bank of Russia, surnamed Shvetsov, had long been dissatisfied with the activities of IK QBF LLC, and was looking for an opportunity to suspend the company's activities, such an opportunity was the audit that began in late 2017 - early 2018. The inclusion of another employee of the Central Bank of Russia, surnamed Chistyukhin, in this situation, among other things, made it possible to prevent negative consequences for the activities of IK QBF LLC. As he (Z.V. Munayev) understood from the context of the conversation between R.V. Shpakov and V.S. Pakhomov, Chistyukhin interceded for the company at the "request" of Skobelkin or the security officers of the Central Bank of Russia. During the time period of approximately November 2020 to January 2021, a meeting between V.S. Pakhomov and CBR employee(s) took place in the area of Neglinnaya Street, Moscow, during which they discussed an increase in the amount of the regular monthly remuneration due to the emerging new and aggravating circumstances of QBIF LLC. He learned about this meeting, after its conclusion, from Pakhomov V.S. during a conversation in which he (Munayev Z.V.), Pakhomov V.S. and Shpakov R.V. took part.) directly interacted with during his work in the company can explain the following: Stanislav Matyukhin, General Director of QBIF LLC, was responsible for all of the company's activities in the Russian market, its operational activities, coordinated marketing materials, scripts (dialogue templates) for sales, contracts, tariffs, implemented the necessary software, was responsible to the regulator and other supervisory structures. S.A. Matyukhin was responsible for the entire Russian part of the business, and was aware of the directions and amounts in which client funds from QBIF LLC were channelled. S.A. Matyukhin also coordinated with sales managers the methods (scripts) of negotiations with clients and the information communicated by financial advisors to clients. The information communicated to clients by financial advisors agreed with S.A. Matyukhin, mainly related to the terms of service and proposed trade deals, did not cover much of the legal and financial components, did not contain complete information on transfers to the companies involved in the service; Pakhomov Vladimir started working at Qubey Finance LLC (since 2011. QF LLC, since 2016 QBIF LLC) in 2010 in sales with a junior position as a financial advisor in Moscow, then within 1 - 2 years was promoted by R.V. Shpakov to the position of the head of one of the six sales departments of the Moscow office of QF LLC. Around 2013. V.S. Pakhomov was sent on a business trip to St. Petersburg to open a new office there and was appointed by R.V. Shpakov to head this new office with accommodation in St. Petersburg. V.S. Pakhomov was fully responsible for all activities of this office, at that time almost on a par with the powers that R.V. Shpakov had over the Moscow office, namely: recruitment and training of employees, determination of salary, development of sales policy, negotiation techniques, training materials and memos, templates for telephone conversations and meetings with clients, handling objections, as well as development of marketing strategy and implementation of expenses, solving issues of rent and possible relocation to new offices. Pakhomov V.S. directly conducted meetings with clients, showed by his example various negotiation techniques, set standards for employees on key parameters of efficiency of the regional sales department, determined the amount of remuneration for financial advisors, marketing specialists, IT - employees, regional lawyers and accountants. V.S. Pakhomov opened all regional offices of the company in the cities of Yekaterinburg, Kaliningrad, Tyumen, Ufa and Murmansk. Since about 2014. V.S. Pakhomov was the director of the entire branch network of QBIF LLC and had full authority over it on a par with those mentioned above in relation to the St. Petersburg office. His main task was to attract clients and ensure the activity of the regional sales department, which was based in St. Petersburg. All the offices of the company were managed by V.S. Pakhomov from St. Petersburg. In his activities Pakhomov V.S. was subordinate only to Shpakov R.V., and in his (Pakhomov V.S.) subordination were the heads of all client offices of regional cities and their subordinate employees. V.S. Pakhomov was subsequently employed by LLC KF Estate SPB, JSC FG, JSC QBF, and possibly other companies. Pakhomov V.S.,

received remuneration from sales in the form of a percentage of the volume of attracted funds (a percentage of newly received funds - as a standard motivation model in sales on the financial market, as well as a percentage of the accumulated portfolio depending on the results of the plan fulfilment). All persons involved in sales, including V.S. Pakhomov, had the system of motivation and payment from sales specified in agency contracts rather than in labour contracts. Both salaries and interest on sales were paid to them as employees in cash. Some of the money paid to the employees, namely most of the interest on sales, was not paid officially. As a rule, salaries were paid to employees once a month, usually in the middle of the month, and interest on sales was paid once a month, at the end of the month. Employees employed by accountable licensed companies were paid twice a month (advance and repayment). For him (Z.V. Munayev) and V.S. Pakhomov, around 2014, the system was changed to an average percentage of the accumulated fixed client portfolio in ruble terms, accrued monthly. They were also promised dividends from the profits of Qubey Finance Ltd. Pakhomov V.S., after he (Munayev Z.V.) was detained in May 2021 and a measure of restraint in the form of imprisonment was chosen against him, he knew from the corporate lawyers who accompanied him that Pakhomov V.S. continued to work at QBIF LLC or at one of the related companies with Shpakov R.V. under his direct supervision. Despite their strained relationship in 2019 - 2020, Despite their strained relationship in 2019 - 2020 related to Shpakov R.V.'s work with government agencies and not the smoothest resolution of issues, in 2021 their (Shpakov and Pakhomov's) relationship strengthened and became very close due to a new criminal case and detentions of employees in May 2021. organised the activities of the Moscow office and branches "on the ground", receiving instructions from R.V. Shpakov by telephone and other means of communication, and organised the distribution of finances, the work and instruction of employees and their interaction with clients, in order to obtain the greatest benefits for himself and R.V. Shpakov, both in their position and status in the criminal case and in terms of money. Ekaterina Gramza got a job at Qubey Finance LLC around 2013 - 2014 in one of the initial positions - in the administrative department as a secretary or file clerk. At some point in time, R.V. Shpakov had a need to expand the finance department, and at the same time during this period he (R.V. Shpakov) developed a close trusting relationship with Ekaterina Gramza, in connection with which she was transferred to the position of junior accountant at Qubey Finance LLC. At first she helped with a number of issues, then she was appointed to the position of accountant with her own function and authority, and this was no earlier than 2015 and no later than 2018. Gramza E. made payments and entries both in licensed companies (not alone, as these companies had accountants reporting to the regulator) and in related companies of Shpakov R.V. involved in financial flows, e.g. Q-BROKER LLC, FG JSC, QBF JSC (despite the fact that these organisations may have had other persons as accountants). Almost all of Shpakov R.V.'s corporate and personal payment orders were made through Ekaterina Gramza. The full list of transactions made by her was unknown to anyone, as many of them concerned personal payments of Shpakov R.V., however, due to the trust in Shpakova I.N., her competence in accounting and supervision of the entire accounting department of Shpakov R.V.'s companies, Ekaterina Gramza coordinated and approved with Shpakova I.N. part of the issues of making payments, reporting on them, as well as the company's reporting to the tax inspection and regulator. V. was 100 per cent, while Shpakova I.N. may have owned 60 - 70 per cent of all financial information, which included full coverage of corporate payments and bookkeeping, but may not have included personal payments and orders from Shpakova R.V. Shpakova I.N., residing in Severodvinsk, flew to Moscow and stayed there, appearing in the office from several days to 1 - 2 weeks. The frequency of her visits to Moscow was once every 1 - 3 months. I.N. Shpakova became involved in the management of financial flows from about 2015 - 2016. Shpakova I.N. did not have access to personal accounts, she did not need them, while Ekaterina Gramza had access to a number of personal accounts of the company. Shpakova I.N. is the mother of Shpakova R.V. She is an accountant/financier by competence and speciality. I.N. Shpakova started to take part in the company's affairs around 2014, when the construction of the first residential buildings in Severodvinsk, where she permanently resides, began. The construction of residential properties in this city began with the launch of the QBIF Regional Real Estate fund through QBIF Asset Management LLC and the client money attracted there, as well as the bank credit line obtained on this basis. R.V. Shpakov entrusted her with full financial and organisational management of construction in this city. After 2015, with the emergence of financial difficulties in payments to clients and delays in salaries and remuneration of the company's employees, she began to take part in the work of the entire accounting department of Shpakov R.V.'s Russian companies. Shpakova I.N. supervised the hiring of accounting staff, organised their work, supported the creation of company reports to the tax authorities and regulators, supported the processing of certain significant and document - intensive payments, supervised responses

to requests and instructions from the tax authorities and regulators, took part in the preparation of the company's financial statements, participated in the preparation of the company's financial and organisational management. A.V. Sorokin, the husband of I.N. Shpakova, and D.V. Sorokin (brother of A.V. Sorokin) were trustees of R.V. Shpakov and I.N. Shpakova in relation to construction projects of R.V. Shpakov in Severodvinsk. With the help of these persons R.V. Shpakov organised the possession of the construction objects, the procedures of various registration, reporting, payments related to these construction objects. The Sorokin brothers have permanent residence in the Arkhangelsk region and represent the interests of R.V. Shpakov there, fulfilling his instructions. Timur Turlov is an old acquaintance, friend and partner of R.V. Shpakov, with whom the latter started to organise his business. Shpakov R.V.'s financial transactions involved Duntonse and then the Freedom Finance Group, including but not limited to FFin Bs (Belize), an organisation owned by Timur Turlov. These entities were involved in accepting client money from Qubey Finance LLC and coagulating some or all of the client money raised in their accounts. The first of these companies, Duntonse, started working with R.V. Shpakov in 2010: its accounts were recommended by the sales department staff to be used by clients to send funds directly (opened in Cyprus). Subsequently, when "QB Capital CY LTD" appeared, client funds were sent from it to "Duntonse" and then later to "FFin Bs" (Belize). According to R.V. Shpakov, he and Timur had agreements. Timur had a financial participation and a share of remuneration due to him from the total turnover of client money attracted to Timur's company accounts. During the period of direct referrals to Duntonse, this remuneration was higher. Then, during the initial attraction to "QB Capital CY LTD" and transfer to Timur's companies, his remuneration became lower, as Shpakov R.V. undertook the main part of risks on initial payments. At the same time, he (Munaev Z.V.) is convinced that Shpakov and Turlov's companies carried out operations with the attracted funds not fully in accordance with the interests of clients, but primarily based on their own interests and intentions in appropriating part of client funds. Decisions made on the disposal of clients' funds with "QB Capital CY LTD", "Duntonse", "FFin Bs" (Belize) could not have been made without joint and complete agreement between Shpakov and Turlov, as the foreign counterparties hired by them were responsible for ensuring the work of these organisations. Timur Turlov also facilitated non - cash and cash payments to R.V. Shpakov and his companies, as well as to his offices. Some of the non - cash funds were transferred by Timur to accounts controlled by Shpakov R.V., in particular, he knows of several such payments to Kubi Finance LLC. But the main interest of R.V. Shpakov in receiving funds from Timur Turlov was in cash. In addition to the fact that Freedom Finance itself accepted and issued cash in its offices, sometimes, according to R.V. Shpakov, with receipts signed personally by Timur Turlov, the latter assisted R.V. Shpakov in withdrawing non - cash funds from foreign and Russian accounts, converting them into cash, delivering them at the request of R.V. Shpakov to him personally or to his office for further processing. Many employees, and he (Z.V. Munayev) among others, considered this delivery as a collection service, which may have been some of the funds, but later Shpakov R.V. himself often told high - ranking employees that Timur Turlov had helped him obtain these funds. With the beginning of IPO sales by QBIF LLC, the relationship between Shpakov R.V. and Turlov T. was outwardly more competitive, and more recently their (Shpakov's and Turlov's) relationship and financial interactions have been equal and identical to where they originally started. Based on the large amount of client funds previously raised and transactions on them together with Timur Turlov, as it turned out, the latter was the only (apart from Linda Athanasiadou) reliable person for Shpakov R.V. who could provide custody of the remaining client funds at Shpakov R.V.'s disposal. The previously accumulated funds in Turlov's accounts could have allowed Shpakov R.V. to dispose of them at his discretion and in agreement with Timur, even in the face of a federal and international manhunt, since these funds and the accounts controlled by Timur are located in foreign jurisdictions with complex ownership structures, where the relationship of these funds to Shpakov R.V. may not be obvious at this time. Moreover, R.V. Shpakov may use the situation with the criminal case to put pressure on Timur with various arguments in his favour in order to threaten him with criminal prosecution for earlier transactions if he is caught or if Turlov does not assist him in general. Alexey Golubev started working for QBF Group in St. Petersburg around 2013 - 2015 and was employed by either QBF Finance LLC or QF Estate SPB LLC, started as a financial advisor, then was promoted to head of department, then to head of office in St. Petersburg. In management positions he (A.S. Golubev) organised sales, recruitment of employees and their training, non - material motivation system (trips, strengthening of corporate spirit). Under A.S. Golubev's leadership, sales of QBF products to clients were carried out by financial advisors. A.S. Golubev was responsible for the fulfilment of the sales plan, set sales plans for subordinate employees, determined key indicators, the effectiveness of their activities, such as the number of calls, appointments, meetings

held, contracts signed, the number of clients attracted for the month. At different periods of time, both Pakhomov V.S. and Golubev A.S. were signatories to the Agreements in the St. Petersburg offices and other branches. When new branches were opened in the Russian Federation, the St. Petersburg manager, most likely Pakhomov V.S., acted as a signatory on behalf of QBIF LLC, and then, when the manager of the new office passed his probationary period and confirmed his position, he (Pakhomov V.S.) appointed Golubev A.S. as a direct signatory. The management of the branch offices, their opening, organisation of their work and sales were carried out from the St. Petersburg office directly by Pakhomov V.S. Pakhomov V.S. had a power of attorney from the General Director of LLC IC QB&EF to sign client agreements on behalf of the company, as well as other business agreements (before 2017 - on behalf of the General Director of LLC IC QB&EF Frolov V.G., after 2017. - on behalf of Matyukhin S.). On the instructions and orders of V.S. Pakhomov and R.V. Shpakov, the General Director of IC QBF LLC issued powers of attorney to other persons to sign client agreements. Office managers mostly communicated with Pakhomov V.S., and with Shpakov R.V. only in urgent corporate matters, and mainly during corporate trips, training and other team - building events. Evgenia Rossieva joined QBF Group after 2016. E.A. Rossieva's direct supervisor was R.V. Shpakov and supervised her activities and the activities of the entire division. There were several areas of activity of the Legal Department: corporate, licence activities, legal proceedings. E.A. Rossieva and other lawyers did not have a power of attorney to sign on behalf of the company. Eugenia personally recruited employees in the legal department. She also organised the work of the employees, their workload, connection to certain corporate tasks, interaction with other departments and employees. Related departments, both selling and non - selling, often turned to Evgenia and her staff for their direction, confirmation/acceptance from the legal department where necessary, in disputes and conflict situations both internally and with external counterparties. His interaction with Eugenia was regular, on sales department issues, employee and client issues on company contracts (labour, agency, client, partner). In the area of sales and interaction with employees, he could give her direct assignments within his competence, and she made decisions to participate within her workload and in coordination with her manager Shpakov R.V. Also, interaction with her and her department was carried out on the side of the branch network, as a rule, on issues of the sales department, its employees and clients. In addition to the Russian part supervised by Evgenia, the interaction with her was carried out by Linda on the foreign part, and Evgenia received instructions from her to create documents and bring them into compliance with Russian legislation so that they did not violate the law. Evgenia was at the intersection of the Russian and foreign legal parts, but she did not make decisions in the foreign part, and received input on the system of work, regulations, procedures, norms mostly from Linda, and less or very little from Apollo Athanasiadou. She also hired employees - "nominees" for the role of signatories through Shpakov R.V.'s contractors, as Shpakov R.V. had created a large number of companies in the perimeter, and did not want to entrust certain issues to the hired staff - signatories, and instructed to hire external "nominees" for this purpose, so that his orders would be carried out unconditionally. Due to the fact that R.V. Shpakov was the beneficiary of the licensed companies of the QBF group of companies, as well as the General Director of JSC FG QBF, the parent company of the group, he was subject to certain restrictions from the regulator and other inspection authorities in terms of combining positions, combining activities of the companies of his "formal" group of companies, and other companies related to him through "nominees". This applied to both the Russian part and the foreign part. For example, on the foreign part at a certain moment the will of the nominee for the company "QB Capital CY LTD" was made by him (Z.V. Munayev) due to the fact that Linda approved that R.V. Shpakov for the liquidation of this company could not be directly connected with it. Rossieva E.A. assesses her closeness to R.V. Shpakov as rather tight, as he (R.V. Shpakov) brought her up to speed and gave her instructions both on a wide and rather narrow range of issues concerning him personally. E.A. Rossieva's awareness was quite high. E.A. Rossieva was paid a monthly fixed remuneration of not less than 100,000 roubles and annual and quarterly bonuses based on her performance. During his work in the company he was aware that the heads of branches of LLC IC QBIF in the process of work, communication with clients, management of subordinates and processes, organisation of conclusion of contracts, deepening of their knowledge about investment products sooner or later began to ask questions that related to the activities of their offices. Some of these questions were inconvenient for R.V. Shpakov, as he did not want to give detailed answers to them. The heads of branches were interested in the reason why the terms of withdrawal of funds on behalf of clients are so long, where the clients' funds are transferred to, what is the earnings of the company for a specific period of time, positions on the earnings of individual clients, how the clients' accounts in organisations are credited with the funds accepted by them in cash, and how the withdrawal of

funds is made from the company's accounts for cash disbursement to clients, confirmation of reports, their compliance with the truth, and the reason for the agreement between the company and the clients. There were questions about interaction with Timur Turlov. R.V. Shpakov explained to everyone that the Broker had the right to take a loan for himself, and R.V. Shpakov explained the high commissions of the company by this. The office managers knew that "QB CAPITAL CY LTD" and "SIMTELLIGENCE COMPANY LIMITED" had no licences to carry out activities with securities. He (Z.V. Munayev) knows about the activities of a number of heads of major departments and directions in the group of companies: he knows Oleg Timokhin personally, he (Timokhin) was one of the heads of the back office of "QB IC" LLC, was subordinate to Stanislav Matyukhin, kept records of the company's clients' operations using standard software, prepared reports for the regulator, was one of the employees accountable to the regulatory requirements. His (Timokhin's) accounting included all operations of both Brokerage Services and Trust Management. With the appearance of IPO product in the company he (Timokhin) also had close communication with Shpakov R.V., Korzh A.V., Spinka R.V. Shpakov R.V. gave Timokhin instructions to form the terms of contracts, their expiry dates, other standard points of accounting due to deep penetration into the operational processes of the company. The accounting that Timokhin was in charge of was not part of the accounting and finance department, was not responsible for the distribution of finances and payments, however Timokhin worked closely with the accounting department due to related reporting, accompanied contracts (with VOD) with Q-BROKER LLC, informed Shpakov R.V. and the sales department about impending cancellations, necessary prolongations and other actions for the standard work of the brokerage business. Ruslan Spinka was the Head of the Sales Department after the period of Vladimir Pakhomov approximately from 2020. He (Spinka R.), like the previous heads of the department, had under his command heads of sales departments, financial advisors, freelance agents who were hired for a percentage. He started his working career from the most junior position, from about 2014, he was engaged in personal sales, he was the head of the sales department for a long time. Spinka was personally appointed to the position of Head of Sales Department by R.V. Shpakov and his duties included the standard functionality: ensuring sales plans, developing new products, liaising with related departments, creating a personal account for the company's clients, ensuring standard activity and efficiency indicators for sales department employees. He interacted with him (Spinka) personally both in terms of assisting in the work of the sales department in view of his (Munayev Z.V.) extensive previous experience, as well as in view of the development of partner and agency areas. His (Spinka R.) period of work also coincided with the "boom" of the IPO product launch, he (Spinka R.) ensured the recruitment of new employees. International market clients were transferred to the support department. Spinka reported directly to R.V. Shpakov and also carried out his (Z.V. Munayev's) assignments as directed by R.V. Shpakov. Andrey Korzh started as a junior position, fulfilled his personal sales plan, was later promoted to Head of Sales, and was also effective in meeting sales targets. On Spinka's appointment as Head of Sales, Korzh was appointed as his deputy and assisted Spinka in organising and running the sales department. Korzh's direct communication with customers was active during his tenure as a financial advisor and during his personal sales plan. Thereafter, his work with clients was sporadic, involving either conflict situations or the need to attend a meeting when discussing prospective deals at the request of either clients or subordinate employees. As he (Korzh) worked for the company, his (Korzh's) functionality expanded but did not change much. Korzh had a close relationship with Timokhin during his work with the IPO product in terms of contract renewals. Also R.V. Shpakov often gave instructions to Andrey Korzh about these or those prolongations, new IPO deals, the need to discuss with clients directly. Vladimir Maslennikov joined the company around 2012. Maslennikov has been a financial advisor for almost his entire working career, and has received numerous awards for best results, but his promotion was clearly delayed. When Ruslan Spinka was appointed head of the sales department, the latter appointed Vladimir as head of the client support department, which included some of the former sales department employees as well as new employees. All international clients of the Moscow office were transferred to this department. Vladimir Frolov, who at that time and thereafter held the position of General Director of Qubey Finance LLC, has known him since his employment. Subsequently, it was explained to him that he (Frolov) was a nominal director, i.e. a fictitious, fake director. The real director managing the company is R.V. Shpakov. Everyone treated it as a common practice. Subsequently, when the legal department appeared, Shpakov R.V. assigned him (Munayev Z.V.) the task of finding nominees (front directors) for certain companies, and for the most part Evgeniya Rossieva, in the foreign part the tasks were assigned by Shpakov to Linda Athanasiadou. Some of the signatories whom he remembers at the moment were Gorobets Elena, Korshunov, Maricheva, Marichev and others. He was not personally acquainted with them.

Gorobets was a nominee in "QB CAPITAL CY LTD" for a long time, probably during the period of management and ownership of the company by R.V. Shpakov directly, then the name of Gorobets was in the incoming and outgoing cash documents, signatures were made by facsimiles (which corresponded to reality). He and all employees knew about her (Gorobets) real existence, and also heard that she had been to the notary's office many times with lawyers, probably before and during her work with Evgeniya Rossieva. Her (Gorobets) role was at least as a signatory from "QB CAPITAL CY LTD". Roles of signatories of "QB CAPITAL CY LTD", including nominal ones, in different periods were fulfilled by many different employees: heads of departments, offices, sales departments, and initially including Shpakov R.V., Kuzin S.L., Modin N.V. as real actors. In this connection the roles of the signatories on behalf of "QB CAPITAL CY LTD" caused few questions for the employees of the company. The signatory should have had a power of attorney from Shpakov R.V. For a long time, the director and signatory of the contracts of "QB CAPITAL CY LTD" was directly Shpakov R.V. Voronova was the accountant of "QB CAPITAL CY LTD" for a long time approximately in the period from 2010 to 2018. Voronova accompanied the operations of both the licensed companies and other operations of Shpakov R.V.'s companies prior to the appointment of Ekaterina Gramza to this function. Voronova was aware of the operations of Shpakov's companies in the Russian part. She may also have been aware of some relations between Shpakov R.V. and Turlov, knew about the company "Dantons", accepted payments from it to LLC "Kyubi Finance", and reported to the tax inspectorate. Between 2015 and 2018. Voronova worked closely with Ekaterina Gramza, the latter assisted her and then took over some of her functions. During the initial period of work, Shpakov R.V.'s level of trust in Voronova was close to 100 per cent in the Russian part. With the introduction of Ekaterina Gramza into the accounting department, Shpakov's trust in Voronova diminished. Korshunov had been solicited no earlier than 2018 and was one of the signatories in Shpakov's foreign companies. Evgeniya Rossieva, employees of the legal department, other freelancers from among possible acquaintances of Shpakov or acquaintances of the company's employees participated in the search for nominees on behalf of R.V. Shpakov. Discussions on the need for nominees were held, in particular, with Kirill Padun. In addition, Berezka Andrei, an acquaintance of Vladimir Pakhomov, assisted in the search for nominees. Berezka A. was approached by Eugenia Rossieva on behalf of Shpakov to search for nominees. Rossieva had direct co-operation with Berezka. One of the private situations of conditions in attracting and servicing clients was the situation with Borzenkov, about which he has information from the words of R.V. Shpakov and V.S. Pakhomov, as well as Sobolev, including during his (Z.V. Munayev) visits to the Moscow office of IK QBF LLC, as well as from general corporate correspondence and chats in messengers. According to R.V. Shpakov's decision, the activities of selling financial products of QBF LLC were carried out in various regions of the Russian Federation, including in the city of Yekaterinburg. An office in this city was opened by Kirill Sobolev and Vladimir Pakhomov in approximately 2014. Together they organised the recruitment of staff, sales methodology, production and maintenance of memos, staff training, marketing materials and their distribution to potential clients, radio and other advertising, a system of document management, acceptance and transfer of funds, legal support for local clients and the office as a whole, as well as rent and related administrative matters. Sobolev was the first head of this office and was appointed to this position by Vladimir Pakhomov. V.S. Pakhomov, in turn, was the director of the entire branch network, responsible for its functioning, ensuring its operations and attracting clients. By that time, apart from the Moscow office of Qubey Finance, there were no less than 2 and no more than 4 regional offices. One of the clients of the Ekaterinburg office was Borzenkov. He (Z.V. Munaev) learnt about this client within a year after his appearance from R.V. Shpakov and V.S. Pakhomov in connection with a comparison of the sales results of the Moscow office and the offices of the branch network. Moscow and the offices of the branch network, when they were discussing the successes of these offices and the most significant results. Sobolev and Pakhomov personally knew Borzenkov, personally participated in negotiations with this Client, offered him (Borzenkov) an individual and different approach to the organisation of work with the Company due to Borzenkov's large financial resources and prospects for their expansion in work with the Company. Borzenkov was a local businessman and former local official. From the words of R.V. Shpakov and V.S. Pakhomov, he (Z.V. Munayev) knows that Borzenkov was offered personalised legal terms, additional agreements, service tariffs, financial transaction schemes, other personalised terms (terms different from other clients, more favourable). Sobolev and Pakhomov V.S. promoted and insisted on these conditions and scheme of work due to their high interest in developing relations with the client and receiving personal financial results and personal remuneration, which depended on the amount of money deposited. They also had an agent from among the employees of Borzenkov's companies, who, for a fee, assisted both in attracting this client and in financial and legal

support. The remuneration of this agent was also non - standard and differed greatly from the remuneration of the other agents. It is quite possible that this remuneration included payments to Sobolev and Pakhomov V.S. as well as to other persons. As part of the agreements concluded with Borzenkov in 2016 - 2017 with IK QBIF LLC (asset management agreements) and QB CAPITAL CY LTD (for the provision of direct access to international stock markets), the client transferred funds to the accounts of QB CAPITAL CY LTD. As in the case with other clients, it was assumed that Borzenkov would receive standard trust management services and receive income according to the agreed strategy. As we know from the situation with the companies of QB Group on the Clients attracted in this way on the relevant contracts with LLC "IC "QB" and "QB CAPITAL CY LTD", money for management was received directly by R.V. Shpakov, having all the keys both from the bank - client "QB CAPITAL CY LTD" and other trading access keys as the owner (beneficiary). Pakhomov and Sobolev took part according to the roles defined to them by Shpakov R.V. in misleading Borzenkov in terms of his service on the international financial markets, namely in the reliability of the scheme of work of the companies involved, the perimeter of the licence coverage, the presence of regulatory structures, the reliability of bank inspections, further supervision of regulators on the targeted use of funds. Particularly important in the desire to induce Borzenkov to enter into the agreement was the increased returns promised to Borzenkov and the personal financial and legal scheme of work specifically for Borzenkov that was presented as legal. "QB CAPITAL CY LTD" did not have a licence from the Cyprus regulator to carry out investment brokerage activities, did not have personal client accounts, as well as access of portfolio managers of "IC QBIF" LLC to foreign trading accounts of QB CAPITAL CY LTD, as all accesses were directly with R.V. Shpakov. When the investment company received the funds and transferred them for management, they were distributed to portfolio managers (traders) who, in accordance with their job descriptions, powers, as well as experience and skills, should implement a trading strategy using these funds in order to make a profit for the clients and the Company. In the case of Borzenkov, the funds did not reach the portfolio managers; R.V. Shpakov handled all the funds himself and at his own discretion. According to the words of R.V. Shpakov and V.S. Pakhomov, on the personal scheme of work with Borzenkov: the funds transferred by him to "QB CAPITAL CY LTD, initially had a specific purpose, belonged to companies related to him, who received these funds for specific uses. Borzenkov's financial director organised and consolidated the funds from these companies, and together with Sobolev and Pakhomov they transferred the funds to Cyprus under contracts with "QB CAPITAL CY LTD" in order to subsequently receive the funds (part of them) used in circulation on the financial market to other accounts of Borzenkov and his related companies. For this purpose, Sobolev and Pakhomov prepared for Borzenkov and his financial director additional supporting accounting documents necessary to close the accounts of both Borzenkov personally and his companies. According to Pakhomov, V.S. Borzenkov received some of the money, in different amounts at different times, by wire transfer. While working with Shpakov, Borzenkov and Shpakov had difficulties in receiving the rest of the money. Borzenkov expressed clear dissatisfaction and promised Shpakov R.V. problems, about which Shpakov R.V. informed him (Munayev Z.V.) personally. In conversation with him, discussing the reasons for the impossibility of full return of Borzenkov's money, Shpakov R.V. referred to the market situation, documentary requirements of banks, the complexity of trade transactions, the procedure of client checks by banks, - exactly everything that he (Shpakov R.V.) told him (Munayev Z.V.) and other clients of the Moscow office. Moscow. When interacting with Borzenkov on behalf of Shpakov R.V., Pakhomov V.S. and Sobolev also greatly exaggerated the list of required client documents for the bank in order to delay the withdrawal process, to frighten the client with bank requirements, to make the client change his mind and refuse to withdraw funds, to be more loyal to the company for the support provided to him in defence of his interests before banks and verification procedures. Both Pakhomov V.S. and Sobolev were aware of this and were executors in this part. But the main reason of non - repayment is the intention of Shpakov R.V. to embezzle the funds of Borzenkov, who was misled by Pakhomov V.S. and Sobolev on his (Shpakov R.V.) scheme of work. Regardless of the situation with banks and inspections, if R.V. Shpakov had the intention to realise a settlement with a client, he could have done it in various other ways. According to the contracts concluded with Borzenkov, the client was counting on the target return specified in them (in the form of profit in monetary terms, not in the form of receipt of securities as an asset or property, the delivery of which was not stipulated in the contracts), which Pakhomov and Sobolev could increase due to their negotiating position and authority, which undoubtedly attracted the client and, along with other personal conditions, convinced him of the need to cooperate with Borzenkov. One of the managers of the Cypriot company "NOA CIRCLE" Athanasiadou Linda was aware of the situation and participated in the process of organisation of

financial flows, transfers, legal support, preparation of necessary documents, reporting to banks, etc., including Borzenkov's money. According to her, Shpakov R.V. did not allocate timely financing of the required amounts for the transfers to Borzenkov on the required dates. Also from Pakhomov's words he (Munayev Z.V.) knows that he (Pakhomov V.S.) kept a part of client contracts and documents. The documents were kept at his place of residence in a flat in St. Petersburg, as well as in a flat in Moscow: these were contracts (or part of them) concerning clients in St. Petersburg. Pakhomov V.S. could have also kept customer contracts of other branches, as customer contracts were taken from branches, but with different frequency. As for the client contracts of clients in Moscow, they were kept on behalf of R.V. Shpakov by the responsible employee Ekaterina Gramza at the following address: Moscow, Presnenskaya Naberezhnaya, 8 p. 1, residential apartments in the tower. 1, residential apartments of the Capital City Tower, north block, apartment number and floor he does not know. Pakhomov V.S. was directly involved in supervising the company's issues with the Central Bank of Russia and law enforcement agencies, for which he received additional remuneration from Shpakov R.V. In general, Pakhomov V.S.'s awareness of the work of Qube Finance LLC in Russia and abroad is quite high, in private matters with Shpakov R.V. and his assignments, as well as in solving issues with various government agencies. During his work in the company he (Z.V. Munayev) had a corporate phone "iPhone XS Max" IMEI 357287094420629, a corporate SIM card with the number 9031004184 was installed in it, this phone was intended for his personal use. He and sometimes Shpakov R.V. used the phone in cases of correspondence with Cyprus and for negotiations with Linda, in those cases when he wanted to communicate information from his (Munayev Z.V.) phone, allegedly on his behalf. Shpakov R.V. also conducted some personal correspondence from his phone, which he (Shpakov R.V.), as he said, deleted afterwards. After presenting a copy of the protocol of examination of items (documents) dated 20.12.2020, he explains the following: in the correspondence dated 12.03.2018 for the period of time from 09:19:34 to 17:47:04 from the mobile application "WhatsApp" between him and the lawyer of the company Rossieva Evgenia Anatolievna, with mobile phone number (+7985 - 173 - 43 - 21) it was about the purchase of the company, which was necessary for the procedure of re - signing contracts with Clients in connection with the liquidation of "QB Capital CY LTD", to other companies, which subsequently were "Simtelligence Company Limited" and "White Lake Management Ltd". At first, for this purpose the company "Big City" was found, which was abandoned, and another organisation was found - "Yurmater" LLC, the head of which was a nominee in the interests of Shpakov R.V. The nominee had a power of attorney on behalf of Shpakov R.V., and Evgeniya Rossieva knew more about it. This company, which is referred to in the correspondence, was to take over as an intermediate Russian party the rights and obligations of "QB Capital CY LTD" (this was insisted on by the Cypriots, i.e. Linda, they were the ones who developed this scheme), to take over and immediately transfer the rights and obligations to "Simtelligence Company Limited". In the correspondence dated 12.03.2018 for the period from 10:23:16 to 17:46:45, 13.03.2018 for the period from 09:50:11 to 15:19:09, as well as 26.03.2018 at 15:07:01 it was discussed that all monetary relations, payments, payments, confirmations, approvals on expenses were given directly by R.V. Shpakov. Often for lower - level employees he could aggregate information for some payments for different departments for his approval without his direct participation, as the number of employees in the Moscow office more than 150 people from more than 10 departments. Also often in correspondence he could negotiate some expenses and discuss the company's position on his own behalf, but most often he referred to R.V. Shpakov, because all employees knew that the payments came from him. All lists of required expenditures collected by him were handed over personally to Shpakov R.V. He did not collect all the lists, but only a part of them for those departments with which he interacted, or not for his departments, but concerning issues related to Shpakov R.V.'s personal instructions, these could be, as a rule, heads of departments, also persons reporting personally to R.V. Shpakov or, due to the importance of payments, discussing upcoming payments with him personally. They could also be assistants and secretaries close to R.V. Shpakov during different periods of the company's work (they were dismissed and changed). For Eugenia Rossieva, as a rule, he handed over lists, applications with the actual amounts needed. During most of the period of the company's operation all payments and lists were handled directly by Shpakov, but when the financial situation with external and internal payments became complicated, in order not to be "pestered", he (R.V. Shpakov) would put him (Z.V. Munayeva) as an intermediate link for filtering. On the lists handed over to him, R.V. Shpakov put either "pluses" (if he fully agreed with the necessity of this expenditure item) or, if he disagreed, put a specific amount that he agreed to allocate for this expenditure item. Also, R.V. Shpakov could ask him to confirm any item. For the most part, his (Z.V. Munayev's) involvement in these matters concerns the period after he was removed from his

position as head of the sales department, because, in his opinion, he had sufficient free time. He (Z.V. Munayev) regularly had to face the negative attitude of R.V. Shpakov towards payment and as a consequence late payment of both important and smallest payments. Shpakov R.V. controlled all, absolutely all expenses of the company and employees, to the ruble, both large and important, and quite insignificant. As a result, R.V. Shpakov mostly distributed money for previously agreed expenditures to employees himself - mostly through the heads of departments. Sometimes he Shpakov) passed the required amounts through him. In the correspondence "RV", "Roman" - this is everywhere Shpakov R.V. Alena - this is Kabanova Alena, the secretary of the 2nd internal reception, was subordinate to all employees of this unit. Who is Sergei - he can't remember now. Apparently, this correspondence is about fulfilment of some unimportant assignment, some momentary issue not related to regular activities. Svetlana Beloded - Head of the Recruitment Department. Natalia is a corporate lawyer, Eugenia's subordinate. Anastasia is Anastasia Ananyeva. Six per cent of the share of the authorised capital of QB Capital CY LTD was "rewritten" from him to her: due to the process of re - signing contracts and liquidation of QB Capital CY LTD, he was removed from the number of participants of QB Capital CY LTD), although he did not want it and waited for at least the first payment of dividends from 2014 to 2018. A share in a company has value, especially in a licensed company, and he was counting on it. Shpakov R.V. offered him the option of transferring "on paper" his part, 6 per cent of the share in the company, to some of his trustees. For this reason he turned at that time to his acquaintance Anastasia Ananyeva, who agreed to help him, without knowing the details, out of her kindness. Ananyeva was appointed to take part in the company for some time, but this did not last very long. After the liquidation and all the procedures had been completed, Shpakov R.V. denied him the right to have Anastasia among the participants of LLC "Kyubi Group" and offered to transfer to him (Shpakov R.V.) these 6 per cent of the authorised capital of the company, explaining that now he himself would tacitly and by their verbal agreement have the same 6 per cent share in case of sale of the company or accrual of dividends with him (Shpakov R.V.). Pakhomov V.S.'s share in the Company (6 per cent) remained unchanged. Due to the fact that earlier Shpakov R.V. convinced him of the necessity of his participation in the liquidation procedure of "QB Capital CY LTD", the role of nominee and signatory, and the fact that he agreed with it, he did not think that he (Munayev Z.V.) would become a participant and procedural part of all legal, documentary, other processes, meetings, correspondence. However, it happened so, because he agreed and signed. During and after the liquidation procedure of "QB Capital CY LTD", contrary to his wishes, he had to lead or mediate in many meetings and correspondence, although the initiatives and tasks were not from his side. In the correspondence "approached C" - suggests that this refers to Stepanov, one of the major clients, but he is not sure. Stepanov was one of the first to file a complaint with either the Central Bank, law enforcement agencies or go to court in connection with delayed refunds. "Kg" - we are talking about "KG" LLC (Kyubi Group). Always when it comes to the 6 per cent stake he previously owned, it is about his participation in the authorised capital of LLC Kubi Group. Marianna Scherbakova is a marketing specialist. At one time the issue of providing additional service for a certain segment of clients from marketing, including legal service, was discussed. Shcherbakova had contacts of law firms, as far as he remembers. Evgenia Rossieva could have approached Marianna about finding candidates for the role of nominee directors. "Ds" for cash. In the correspondence from the mobile app for 14.03.2018, 14:26:37 and 14.03.2018, 14:27:41, the abbreviation "kep" was used to refer to "QB Capital CY LTD", the abbreviation "IC" referred to QB Investment Company Ltd. In this correspondence it is about sending letters to clients about liquidation of "QB Capital CY LTD" and re - signing contracts to other organisations, so that they understand that the procedure is legal, it is not bankruptcy, not a "scam", but a process of renewal of infrastructure and jurisdiction. Talking about "unpaid invoices" - he does not know what kind of invoices we are talking about, but he believes that Evgeniya Rossieva did not want the presence of such information to provoke negativity on the part of Clients, so that various unnecessary thoughts and logical chains would not arise. There were never any direct payments between "QB Capital CY LTD" and IK QBIF LLC, and there should not have been according to the initial installation. "We wrote everywhere" - referring to QB Capital CY LTD's responses to enquiries from the Central Bank. "Frolov signed" - apparently referring to notifications to Clients. In the fragment of correspondence for 15.03.2018 for the period of time from 22:56:50 to 15.03.2018, 22:56:58, the phrase "Noa candidate" indicates that at that time there was a recruitment of employees in the Russian organisation "NOA" - a law firm being established to provide services to external clients. The plan was to create a Russian firm with the name "NOA", a project of Linda Athanasiadou. "NOA candidates" - those wishing to be employed, were also partly lawyers or had contacts with law firms. There is such a business practice that even if they are not employed, there

remain potential business relationships with some of them. As a result, the Russian NOA organisation was established in 2020 and Alexander Nepomnyashchy was appointed as its director. The Russian NOA had its own separate line of business related to Russian services for new Russian clients. The Russian "NOA" did not overlap with the previous lines of business of the Cyprus "NOA CIRCLE" mentioned earlier in the interrogations. In the fragment of correspondence for the period from 16.03.2018 in the time period from 12:41:27 to 18:48:22 it is about the search for a nominal (front) director to the organisation "BigCity". According to one of Shpakov R.V.'s instructions, this organisation was to be registered to him (ownership of it), and a nominee was sought for the post of general director. In the fragment of correspondence dated 22.03.2018 in the period of time from 12:40:03 to 14:02:26 the abbreviations "signatories" were used, "BR" - Bank of Russia, "Intermarket" - direction to conclude agreements with Clients on direct access to international stock markets; "they" - either Evgenia Rossieva or she together with Stanislav Matyukhin. Eugenia's message suggests that there were no violations of the letter of the law at the moment on the part of the company, but there are verbal recommendations, instructions and "motivated judgement" (this is the official stable wording) of the Bank of Russia about this or that event or practice, which prompts a market participant either to refuse something or to bring it into compliance with a change in structure or interest. In the context of "ik" on the part of "br" this is what is being referred to. "Cyprus 3 contracts" - we are talking about some three Clients who complained about non - return of funds, could write complaints to the website of the Bank of Russia. The contracts with the Clients were standard: one with a Russian organisation, one with a foreign one. "The "signatories" to the contracts were employees of QBIF LLC who had powers of attorney to sign the contracts on behalf of the company. All of the branch managers of QB&E LLC, in particular, were signatories. Reorg is a part of the process of general liquidation and re - signing procedure, which means reorganisation of LLC IC QB&EF directly, spin - off of LLC QB&EF from it, which "takes" from LLC IC QB&EF the assignment contracts (international market contracts), thus fulfilling the recommendation of the Bank of Russia to stop participation of a licensed company in the procedure (practice) of international assignment contracts. "Edweiserie" - LLC "QBF Edweiserie". There should have been another company, also an official member of the QBF group of companies, but at the same time not falling under a licensed IC, which would have handled international assignment agreements, so that interaction with Clients would have been within the law (the latest recommendations of the regulator). There was an idea to use QBF Advisor LLC for these purposes, but it was not realised. The Bank of Russia did not like the fact that OOO IC QBF was carrying out international activities that were not covered by the Russian regulator, for this reason the Bank of Russia recommended to "rid" OOO IC QBF of international contracts. In the fragment of correspondence dated 29.03.2018 in the period of time from 13:22:24 to 13:23:12 at the mentioning of "Cayman and Hong Kong" and "need 2 signatories" it refers to the organisations "Simtelligence Company Limited" (Hong Kong) and "White Lake Management Ltd" (Cayman Islands), to which it was planned to renegotiate contracts with Clients from "QB Capital CY LTD". This was one of Linda's assignments, the fulfilment of which was part of the overall re - signing process. "Baffle your colleagues and Berezka" - this is about persons who are approached by Evgeniya Rossieva to search for nominee directors for the role of founders/nominee directors of organisations, including Andrei Berezka, who was mentioned earlier. Eugenia was given tasks on this matter both directly (Linda) and through him, as he took on a pool of tasks. In the last sentence, authored by him (Z.V. Munayev), he had the following in mind: there were cases when a client asked why the person whose signature was on the contract was not present and wanted to see that person in person. For such purposes, so that it would be possible to show the signatory of the contracts at the client's request that "they should be ready to come to the office". In the fragment of correspondence dated 29.03.2018 in the period of time from 16:03:29 to 17:25:26 the following persons were referred to: Gorobets is the nominal director of "QB Capital CY LTD". "Other similar friends" are other nominee directors of organisations within the QB Capital CY group of companies. He did not know the amount of their fees and had not dealt with it before, this is known to Eugenia in detail. As far as he knows, when negotiating payment for the nominee's services, the latter proposed a price, and R.V. Shpakov either agreed on it or adjusted it. His (Z.V. Munayev) role in this matter was to report (give information), coordinate, but he did not take responsibility. Evgeniya Rossieva was in charge of calculations with the nominators for their services. Payment was monthly either in cash or by transfer to a card. This procedure was in place both before he joined the organisation and during his employment with it, and was carried out by Evgenia Rossieva or other employees of the legal department, who did not have any unnecessary questions about this practice of engaging nominee directors. The fragment of correspondence dated 30.03.2018 at 15:02:48 refers to the ZPIF of art objects, "Artfond". Apparently, this is some

separate topic of conversation. In the fragment of correspondence dated 02.04.2018 at 11:03:59 - 11:05:24, it is about the following: reorganisation - refers to the process of separation of QBIF LLC from QBIF IK LLC, in order to form a Russian organisation to switch international stock market access contracts to it on the strict recommendation of the Bank of Russia. Rentinvest LLC was a company of R.V. Shpakov that leased offices, which subsequently leased specific areas to specific Shpakov companies. Maxim Yudin was one of the signatories. On Shpakov R.V.'s initiative he was again wanted to be involved as a signatory, he (Munayev Z.V.) knows Yudin well, and knows that for him penetrations into foreign processes of the firm were not pleasant, so he asked to minimise his role. "Discuss issues of assignment contracts" - meaning international stock market access contracts: there was a planned discussion about which organisation they would transfer to after the reorganisation, plus there were topical issues of communication with clients so that everyone was notified and everything went smoothly. The discussion was planned, as the process was accompanied in the Russian part by Evgenia Rossieva and in the foreign part by Linda Athanasiadou. In the fragment of correspondence from 23.04.2018 in the time period from 13:03:14 to 13:07:13 and 24.04.2018 in the time period from 11:02:48 to 11:04:02 the following was discussed: Alena is Alena Kabanova, birch is Andrey Berezka, Kirill is Kirill Padun. An intermediate variant of finding an organisation was discussed. In the end, the organisation Yurmaster Ltd was acquired, but he remembers exactly that it happened without the participation of Andrei Berezka. Alena, as a secretary, could pass information about upcoming expenditures both to Shpakov R.V. directly and to him (Munayev Z.V.) to pass to Shpakov R.V. in the end. Kirill Padun was approached by Eugenia for services, as was Berezka. The nominee (here meaning the signatory - the person on whose behalf the contracts would be signed from the organisation "White Lake Management Ltd") was found by Kirill Padun. Since Linda was in contact with the CEO of White Lake Management Ltd, she had to execute a power of attorney for the signatory on his behalf. This power of attorney was eventually formalised, executed abroad. Draft contracts were awaited from Apollo Athanasiadou. Discussions of payments did not signify the obligation to fulfil them later. In the fragment of correspondence from 23.04.2018 in the period of time from 15:37:38 to 18:30:00, it was about Yurmaster Ltd. Christina is Christina Bogdanova. She could have done what she was asked to do on an errand, however, for what reason she could have been approached with a request related to Andrei Berezka, he does not know. In the fragment of correspondence dated 14.12.2017, the following abbreviations are used: Q is "QB Capital CY LTD". "C" - meant the Client Stepanov, who in view of the arisen problems with the withdrawal of funds applied to some instances, at the same time he collected an impressive set of documents, including some in the territory of Cyprus. Gorobets was a signatory both in contracts on behalf of "QB Capital CY LTD" and "QB Group" Ltd. For this reason, Evgeniya Rossieva feared that this fact might suggest that these organisations were affiliated. In the fragment of correspondence dated 06.04.2018 in the period of time from 15:47:52 to 15:58:52 it was about Zarechnev, who at that time was a current employee, for this reason he was not suitable for the role of a signatory. Marianna is Marianna Shcherbakova, she had contacts from previous jobs in law firms. For this reason, Eugenia periodically turned to her for help in finding signatories, nominees. In the fragment of correspondence dated 06.04.2018 in the period of time from 15:59:44 to 17:44:03, the possibility of resolving the issue to take into account the previous comments of the Bank of Russia (CBRF) regarding the work of QBIF LLC and international agreements was discussed. At this point in the correspondence, the question immediately arises as to a legitimate company that would be an authorised agent for the sale of services of foreign investment companies, having the necessary signatories and documents. The company in question is K - Investment LLC. This company subsequently had employees employed by it selling units of different markets (jurisdictions) and different products of different companies. The company acted as an Agent in Russia selling services of foreign companies. In the fragment of correspondence dated 12.11.2020 in the period of time from 12:41:35 to 16:15:42 it is about contractual relations with Vyatkina A.G., as well as about the actions and decisions of the employees of IK QBF LLC in relation to her, namely: Ruslan Spinka - Director of Sales Department, they went together with him to Shpakov R.V. to discuss issues of payments to clients. For this reason, Evgeniya approached him (Z.V. Munayev) with a question about another client, Vyatkina, so that he could find out the details from Spinka. Usually, if the client was from Moscow, he could answer or find out from Spinka, and if not, he would forward these questions to Golubev and Pakhomov. At the moment he does not remember the details of his interaction with a client such as Vyatkina. There were different people among the clients: some asked for cash withdrawal only, some needed only a cashless transfer, some did not care. However, non - cash transfer of funds could be made only after re - signing of contracts with "QB Capital CY LTD" to "Simtelligence Company Limited" and "White Lake Management Ltd". Usually R.V. Shpakov decided how to

disburse funds to a particular client, or could meet the client's requirements if they were specific (cash or non - cash payments). "Closed in the ECB": it means that "to close the transaction" meant that after signing contracts with the client, he received funds from the client within the framework of the achieved contractual relations. So the client in question, Vyatkina, was transferring money to the company's account in Yekaterinburg. "VSP" stands for Vladimir Sergeevich Pakhomov. Dp - Sales Department. FS - Financial Advisor. Who was Vyatkina's financial advisor, he does not know. In the fragment of correspondence from the mobile application "WhatsApp" with the contact "Andrey Korzh" (+7 965 411 - 72 - 25) in the period of time from 06:03:10 to 12:50:24, it is about contractual relations with Koptev S., as well as about the actions and decisions of the employees of LLC "IC QBF" in relation to him, namely: he was afraid to meet with clients at certain moments, because promises and deadlines for withdrawal of funds were not fulfilled. Some of the clients were very senior and influential persons, and given that he was a signatory and one of the executives in the company whom the clients might know, he was wary of making commitments because he did not have the capacity to honour them as it was not up to him. The clients were restrained as best they could: they were asked to wait, referring to the unfavourable value of the portfolio at the moment; they said that we were withdrawing, wait; it depended not on us, but on foreign banks, which did not let money into Russia; foreign partners were delaying; we were selling off the portfolio, everything would be soon; the money was hanging in a bank abroad; there was a big commission at the stock exchange in the bank, and so on. According to personal agreements with clients, it could have been a matter of settling assets/property - meaning RIF, real estate. He (Z.V. Munayev) would give such a recommendation, which was left for discussion, as the decision did not depend on him. But in the case of his employees' appeal to him, he always tried to get into it and help with an opinion or action as much as possible. Koptev was Pakhomov's Moscow client during his time in Moscow. They initially had a good personal relationship, which deteriorated. Since the client is Moscow - based, he was assigned to Andrei Korzh as an escort. In a fragment of correspondence from the mobile application "WhatsApp" with the contact "MAKS" from 18.10.2018 in the period from 12:26:41 to 14:00:44 the dialogue was with Maxim Yudin. They got a job at QBF in the same year in 2010. They have a good mate working relationship. The correspondence with Yudin was about non - cash withdrawals to clients. He asked to send lists of clients to report to R.V. Shpakov so that he (R.V. Shpakov) could pay attention to especially dissatisfied clients for settlements with them. Maxim raised the issue of sending reports to clients after re - signing contracts. It was also discussed that reports to clients from "White Lake Management Ltd" are visually similar to the previous form of reports from "QB Capital CY LTD". In fact, the reports were prepared and sent by the same persons both on behalf of "QB Capital CY LTD" and on behalf of "White Lake Management Ltd" and "Simtelligence Company Limited". The reports were sent after the contracts were re - signed and should have been sent from a different domain so that the clients would not have any questions. However, at first the report mailings on behalf of "White Lake Management Ltd" and "Simtelligence Company Limited" were technically done from the same domain as "QB Capital CY LTD", i.e. they forgot to update. In addition, it had to be remembered that the "old" clients who had not re - signed the contracts, reports had to be prepared and sent on behalf of "QB Capital CY LTD". In the fragment: "Max: There would have been bought positions in the reports", this phrase meant that some clients had blank report forms, which was a programming error. QBF employees received client reports first, about 3 - 5 days before the clients, checked them, analysed them to prepare reviews and comments. According to the regulations, once a month at least, the client was consulted either by phone or in person, as the client must be aware of what is happening with the portfolio, the balances, terms of service, their possible changes. If everything was normal, reports were sent to clients in a few days. If there were some software errors (e.g. empty reports), we had to contact Orlov, he solved technical errors. If the errors were not technical, but in terms of meaning and content, then we turned to R.V. Shpakov. In the fragment of correspondence in the group "Restructuring" participants: (Apollo (+357 96 218890), Linda (+357 99 920015), Munaev (+7 903 100 41 - 84) and the subscriber number +7 965 748 88 88 belongs to Vladimir Pakhomov (in the correspondence "Vova") for the period of time from 09:41:03 to 21:17:10 it is about the following with the following subscribers: Apo - Apollo Athanasiadou. In the present correspondence Linda Athanasiadou writes that the name of R.V. Shpakov was removed from wherever it was possible (from the management of "QB Capital CY LTD") and she keeps the contracts (signed on behalf of "QB Capital CY LTD" by R.V. Shpakov) in a safe place, but it is necessary to organise the closing of the issue with the Central Bank of Russia. V.S. Pakhomov replied that he would try (as he said in earlier interrogations, he solved issues regarding QB Capital CY LTD through his people in the Central Bank of Russia). Some points discussed in the correspondence could have been discussed separately with R.V. Shpakov

earlier at that time. Linda wrote that the Central Bank of Russia had sent an enquiry to the Cypriot regulator (CySEC) regarding 9 companies, listing them. Haris is a regulatory expert, auditor and consultant in Cyprus, a professional, assisted Linda. If there were any irregularities in the work of the Cypriot companies, the Cypriot regulator would have immediately sent appropriate enquiries to these companies. But since there were no violations in terms of interaction with Russian companies in accordance with the law, there were only questions from the regulator. The correspondence is connected with someone's "order", but this threatened the possible start of an investigation. Linda, when processing client money, provided the banks with client agreements with both "QB Capital CY LTD" and a Russian licensed organisation, and the Cypriot regulator had no questions. However, in connection with enquiries to the Cyprus regulator from the Central Bank, questions to Linda began to come, which for her signalled certain problems. And it is necessary to remove their source for her - enquiries from the Central Bank of Russia to the Cypriot regulator. There are different co-operation agreements signed between Cyprus and Russia, for this reason the presence of questions on the activities of companies from Russia could lead to their occurrence in Cyprus, as it would also be taken for violations of the law, which threatened fines, company closures and possible criminal prosecution. All the inspections started because of customer complaints. R.V. Shpakov was the beneficiary in the Russian part and according to the latest recommendations heard from the Central Bank of Russia, it was clear that in case of his presence in the foreign part, the actions of attracting clients by concluding contracts on behalf of "QB Capital CY LTD" could be considered as unfair practice, as the funds deposited under the concluded contracts do not fall under the jurisdiction of the Central Bank of Russia due to their transfer abroad. In a fragment of correspondence in the group "Reorganisation", participants: Shpakov (+7 905 735 - 55 - 88), Rossieva (+7 985 173 - 43 - 21) - the creator of the group, Munaev (+7 903 100 - 41 - 84) in the period of time from 10.04.2018, 13:56:34 to 12.04.2018 17:20:17 and 22.05.2018 at 17:28:13, the discussion is about the reorganisation of QBIF LLC, the separation of a separate entity (QBIF LLC) from the structure of the latter. Selection of a nominee for the role of general director is under discussion. The candidacies of Gorobets and Yudin are not suitable, as at the moment they did not meet any requirements of the tax inspection for the reorganisation. It is proposed to put him (Z.V. Munayev) in this role. Earlier he did not give Shpakov R.V. consent to his role as general director of this company. For the general re-signing procedure he was sufficient as a nominal owner, and he tried in every possible way to avoid the initiative to take on the role of a general director as well. Andrei Berezka, who is mentioned in this correspondence, provided one of the nominees for the reorganisation procedure, apparently instead of Gorobets and Frolov. He does not know for what reason the correspondence links Berezka and the tax inspection; Avalon was also R.V. Shpakov's company. In the fragment of correspondence within the group "Fin Potoki", whose participants were: Linda (+ 357 99 920015), she is the creator of the group, Munaev (+7 903 100 - 41 - 84), Tatiana Milekhina in the period of time from 19.06.2020 from 14:17:03 to 16:58:14 and 02.11.2020, 15:03:12 in this correspondence is about the transfer of funds from one controlled company of Shpakov R.V.. - Q-BROKER LLC - to another, Cyprus - licensed Constance Investment. The payment under discussion was unilateral, non - refundable, and did not raise any questions, as it was formalised as a transfer of investments from one company to another. The amount in question was 230,000 Euros. Judging by the amount, it is a contribution to the authorised capital as an investment from the founder. The investment company lives, as a rule, by ensuring the operation of such items as commissions from clients and turnover. In the case of insufficient funds under management, the company does not have enough commissions to support its own operations and salaries, in which case the founder may make regular capital contributions to keep the company going when it cannot break even on its own due to poor performance. This example is realised in this correspondence in the part of regular additions to the authorised capital of "Constance Investment" by R.V. Shpakov, because the company did not have time to accumulate sufficient funds under management for sufficient payback, which made R.V. Shpakov very angry, it was a constant ground for quarrels between him and Linda. Further, according to the inspection report, there is a photo of Borzenkov's payment slip. Due to the competitive spirit and the exchange of results between different offices, both within the framework of contests and as a matter of routine, the managers could boast of significant results, declare their successes and remind about the efficiency of their offices. Tatiana Milekhina was an accountant in the group of companies for a short time. In a fragment of correspondence from the mobile application "WhatsApp" with the contact "Apollon" (+357 96 218890) dated 20.12.2017 in the period of time 09:27:39 to 13:14:37 Apollon Athanasiades speaks about the need to sign documents for the liquidation of Cypriot companies ("QB Capital CY LTD", plus, presumably, "QB Capital Management LTD" in the set could be other

companies). It is about visiting the Cypriot embassy in Moscow: Apollo was going to go with him to the embassy to sign the documents. This is a necessary part of the official procedure, since he was in Moscow. As a result, this was the case: he (Z.V. Munaev) and Apollo visited the consul together, whose participation in signing the documents was necessary to properly certify the liquidation of the organisation. In the fragment of correspondence dated 05.03.2020 in the period of time 19:21:01 to 20:02:24 in this part of the correspondence he (Z.V. Munaev) writes to Apollon Athanasiadesthat Nikolay Padalko, in connection with his appointment as CEO of the Russian LLC "VL Consulting", proposed a new idea for document management support, in some part - a new format for the movement of client funds at "White Lake Management Ltd". This was one of the ideas, as Nikolay had an interest in strengthening and improving the interaction between the Clients and White Lake Management Ltd, bringing the processes in line with both market and regulatory requirements. In the fragment of correspondence in the group "WL", whose members were Yuri Orlov, Linda, Apollo, Zelimkhan) and the number +357 96 710071 belonging to Apollo dated 19.09.2018 in the period from 11:16:42 to 13:22:15 it is said that Yuri Orlov as an IT specialist stored some codes from websites, including the website of "White Lake Management Ltd". There were glitches on the site and updates were needed, Yuri didn't have time. There were some internal access issues, Linda asked him for his password and debugging processes. When clients re - signed contracts, a determination was made to terminate the contractual relationship between the client and "QB Capital CY LTD", and a contract was concluded - either with "White Lake Management Ltd" only, or in conjunction with "Sintelligence Company Limited", or a contract could be added with "VL Consulting Ltd". All organisations with different jurisdictions, founders (owners), general directors - in order to avoid assumptions about their affiliation to QBF group of companies, as it could lead to the idea that the clients' money passes exclusively through "their" organisations and can be used not for the intended purpose. For the same reason, the report forms, hosting and domains from which the reports were sent were also matched. In the fragment of correspondence in the group "WL", whose participants were: Yuri Orlov, Linda, Apollo for 15.11.2018 in the period of time from 16:05:31 to 21:07:53 in this working correspondence it was about the uninterrupted work of the phone number in the office - representative office of "White Lake Management Ltd" in the Cayman Islands. An operator response was needed, debugging the work schedule, coordinating procedures with Linda. White Lake Management Ltd did have an office, met the minimum requirements of the regulator, he knew this from Linda Athanasiadou, as she had told him on several occasions. There were no client managers in the office, for this reason it was necessary for the telephone number to be answered by someone who was knowledgeable and could orientate clients on operations. White Lake Management Ltd. had 10 - 20 clients - individuals (i.e. contracts for providing access to international stock markets were concluded and clients transferred money to the organisation's details). During the Central Bank of Russia's inspection of QBIF LLC (most likely during the second inspection), the Cayman Islands were requested by the Central Bank of Russia. In response to this request, the Cayman Islands regulator gave explanations about the organisation "White Lake Management Ltd": its working conditions, transfer of funds, and also that there are "live" people, clients, "live" balances, and the Cayman Islands regulator disclosed the data of these clients. In general, the regulator had no questions about the work of White Lake Management Ltd. In addition, Nikolay Padalko was closely involved in the issues of legitimacy of "White Lake Management Ltd" activities: he read a lot, studied websites and information from the regulator, found information about the presence of a licence to act with securities, and this was the second confirmation of the presence of a licence (the first confirmation was from Linda). The financial advisors were also looking into this as they had clients to work with. The QBF office in the sales department had information from the Cayman Islands regulator regarding White Lake Management Ltd in English. The fragment of correspondence with the contact "Smirnova Yaroslava" for 18.11.2020, in the time period from 19:38:49 to 22:49:06] refers to Yaroslava Smirnova's initiative to discuss with Shpakov R.V. and him a number of questions that she had previously formulated to him. The questions related to different funds of the QBF Management Company. He expressed his position on part of the questions. Where payments were necessary, he explained that we put them on the list for coordination with Shpakov R.V. The correspondence shows Yaroslava's dissatisfaction with the interaction and speed of coordination with LLC "IC "QBF" represented by Matyukhin Stanislav and lawyers (Rossieva Evgeniya) in the part of realisation of units of its funds (Funds of MC) to clients, coordination of operational moments. Anastasia is Anastasia Koval, Chief Operating Officer of QBIF LLC, a subordinate of Stanislav Matyukhin. In the fragment of correspondence with the contact "Alexey Golubev" for the period of time: 12.01.2017 from 13:13:15 to 16:25:16; 13.01.2017 at 10:25:39; 02.03.2017 at 16:07:52; 06.03.2017 from 11:49:36 to 19:40:49; 02.04.2019 in the period of time

from 17:55:11 to 10:36:27 03.04.2019 the following is the subject of the correspondence: At the beginning of the correspondence, apparently, colleagues (in branches) did not receive reports on some customers, and the chain of forwarding the request reached him, he helped to get the report. In the correspondence Golubev A.S. asks him about the lack of changes in the reports of two clients for two months. He was not the one who prepared the reports, so he does not know why there were no changes, but the clients may have had questions in this regard. For this reason, he (Z.V. Munayev) advises A.S. Golubev to contact the back office. A.S. Golubev further asks about the calculation of the tax rate on foreign companies for the Clients. However, for foreign companies he advised him to contact Dmitry Lepeshkin, who is aware of the activities and specific work processes of both Constance Investment and Noa. "Constance Investment was established by the organisation Aspard, whose owner is Shpakov R.V. The activities of NOA were managed by Apollo, the activities of Constance Investment were managed by Linda Athanasiadou. Dmitry Lepeshkin was aware of the activities of both of these organisations, but he did not make significant decisions. Andreas is one of Linda's employees (foreign back office). Various contractual options were discussed with A.S. Golubev, which he explained above. There were contracts concluded with Clients only on behalf of "White Lake Management Ltd" with cash transfers directly to this organisation; when two contracts were concluded, on behalf of "White Lake Management Ltd" and "Simtelligence Company Limited", cash transfers were made by Clients to "Simtelligence Company Limited", which was recognised as an agent in the contract with "White Lake Management Ltd". Cash transfers from customers could only take place to credit the account of Simtelligence Company Limited, while non - cash transfers could be made to both organisations. In the fragment of correspondence with the contact "Ruslan Spinka" dated 24.10.2019 for the period of time from 13:42:58 to 23:53:16 in the mentioned fragment, he was written to by an acquaintance about a client who cannot withdraw money, and he forwarded the issue to the Sales Department to Ruslan Spinka, as he himself did not deal with the DP (Sales Department). In the fragment of correspondence with the contact "Ruslan Spinka" dated 14.05.2020 in the period of time from 12:06:31 to 21:55:47; 14.08.2020 in the period of time from 09:10:45 to 17:44:18, both customer and employee issues were discussed. Customer issues: Kushnir, Gomanova are clients, they had roughly the same situations. There was a request from Ruslan Spinka to discuss additional loyalty from the company in favour of some clients, namely giving them additional "leverage" (BP) due to unsatisfactory management result for clients. The broker could give additional "leverage" to clients, R.V. Shpakov himself had previously selectively initiated this on a number of occasions and confirmed this possibility to employees. Ruslan asked for help, three to talk to R.V. Shpakov to help dissatisfied clients. "Leverage" is an opportunity for the client to increase the portfolio volume by means of additional borrowed funds for trading from the company - Broker. "Leverage" is given as additional funds to the client for trading against the security (pledge) of his existing portfolio. The result of trading on borrowed money ("leverage") is profit or loss: profit after repayment of borrowed funds to the Broker is credited to the Client's balance, loss after repayment of borrowed funds to the Broker is written off from the Client's existing portfolio. The transaction on granting additional "leverage" is always the result of the client's initiative. The borrowed funds are subject to an annual interest rate, which is charged on a daily pro rata basis. Initially in the company this option appeared from the service of Consultative management (transactions are made by the client), then on the initiative of employees of the Sales Department to increase customer loyalty in the service there were requests to connect this option and clients of the Trust management. Besides, in correspondence the issues of other clients are discussed in the working order, ways to avoid conflicts. Regarding the issues discussed about employees: I discussed with Ruslan who from their side prepared the calculation of salary and bonuses from the sales department, whether this calculation was checked, whether it was sent to Shpakov R.V. for approval and payment. In connection with delays in payments Ruslan asked to hurry up with the issuance of debts to employees, including asking him (Munaeva Z.V.) to address Shpakov to speed up the resolution of the issue. In the fragment of correspondence with the contact "Ruslan Spinka" from 10.11.2020 in the period of time from 09:33:28 to 17:47:01 it was discussed whether dissatisfied clients are on the Internet, on forums and review sites, whether they are contacted by representatives of the company, whether they are given attention in the order of follow - up, whether these clients are reliably in the lists for withdrawal. Meshkova - responsible at that time for monitoring the Internet, worked in the support department. Customer complaints addressed to the company were first of all sent to the legal department, where lawyers looked at the terms of the contract and decided what to answer. The largest number of complaints was related to non - payment of money to clients (employees addressed Shpakov R.V. with this issue). The second place in terms of the reasons for appealing is

the dissatisfaction of clients with the financial result: for what reason there is no profit, why these particular items were bought, why the commission was written off, although no money was earned, etc. In the fragment of correspondence with the contact "Roman Shpakov" from 07.11.2017 in the period of time from 22:12:15 to 23:55:00 in this fragment of correspondence in the designated dates can be associated with two events: 1. The situation related to the contacts of the former security officer of the company Alexey Rudnev, hired by Shpakov R.V. Rudnev, according to him, had connections in the regulator at the level of Nabiullina, as well as in the FSB at the level of the head of the entire service. The contacts turned out to be "fake" and were offered to him deliberately as part of the intent to embezzle the company's and Shpakov R.V.'s funds (or bribe). As a result, a criminal case was initiated against Rudnev and his associates, who did not work in government agencies, following the Company's appeal and application to law enforcement agencies when Rudnev's initiative was uncovered. He (Z.V. Munayev) was the complainant on the instructions of R.V. Shpakov, the operational support was provided by FSB officers. 2. Roman Shpakov had a personal contact - Pavel Samiev, his old acquaintance, a former high - ranking employee of RA Expert rating agency. Pavel has many connections in the financial market, including with the regulator. R.V. Shpakov held many preliminary meetings and negotiations with him on the subject of helping him to recognise the Central Bank's letters to Cyprus, whether they were someone's "order", whether someone wanted to harm the company, or whether these requests to Cyprus did not exist at all. At a certain stage, when Pavel needed information on the company's work with clients, contracts, money transfer procedure and general organisation of work, R.V. Shpakov set him (Z.V. Munayev) the task to bring all this information to Pavel, to be in the information field of his further meetings with contacts on the market and in the regulator, to give his opinion on whether Pavel could learn anything for the company. His involvement in working with Paul on this matter was limited to a few meetings with him, calls and correspondence. As a result, Pavel informed him (Z.V. Munayev) that there was no information on the issue of R.V. Shpakov in the Central Bank of Russia at the level of deputy chairmen (Yudaeva, etc.), and he had no possibility to find out anything additional there. According to information from market participants he knows, there may be companies that want to "mess up" QBF and R.V. Shpakov, but he does not have more detailed and useful information and cannot find out. Since at that time the issue of liquidation of "QB Capital CY LTD" in Cyprus had already started, Shpakov R.V. often tried to include him from different sides in this issue to instil in him (Munayev Z.V.) fear for the clients of the company and for the company itself, so that he (Munayev Z.V.) would get imbued and start to personally worry about their further fate. In the fragment of correspondence dated 20.12.2017 from 14:15:59 to 15:34:29, it is about messages from the client Stepanov about the receipt of funds to him. In the fragment of correspondence from 02.06.2020 from 00:29:25 to 11:38:21 this fragment was about nominals, whether he handed over the task. He answered, yes (but what task, he does not know, he does not remember). He answered about their awareness of the company and the people in the company, that they could probably be aware. He went on to answer that it would be better to use actual working and acting people in the company for appointments (in continuation of the answer on nominations). Remy Zyman - doesn't know who that is. Perchikov - surname is familiar, but does not remember who it is. His answer about Vera (Veronika is Polezhaev's wife, i.e. Polezhaev himself is meant) refers to the initiative of R.V. Shpakov to file a complaint against him with law enforcement authorities under the article "Extortion", since he received the money he invested. Sam - doesn't know who he is talking about. Matyukhin was called "Stam" "Stan" (Stanislav), so perhaps it is about him and there is a typo in the text. Anya Trufanova is not personally known to him, some private case. Shpakov R.V. told him something about people who could harm him and the company on purpose and in their own interests. Since he does not remember the whole context of the audio files, he can tell the following from his answers: 1. Since the head of QBF security service Mikhalevich previously worked in the 6th FSB service and knows a lot about the company's processes, it is possible that he supplies information to the 6th service (earlier experience with the previous head of the FSB Rudnev left an indelible mark on many people and fear of using his official position for selfish purposes). 2. "The information is held by..." - perhaps we are talking about potential ill - wishers who pull the levers of the Central Bank of the Russian Federation and the Ministry of Internal Affairs of the Russian Federation. We are talking about a large set of documents of Stepanov's client, who had previously sent it to the CBR, and then this set was forwarded to the Ministry of Internal Affairs of the Russian Federation for the Central Administrative District. Based on the fragment of correspondence dated 31.08.2020 for the period of time from 11:16:45 to 19:04:15, explained that Shpakov R.V. and Linda had periodic disagreements, because of which Shpakov R.V. at some periods of time wanted to dismiss her from Constance Investment due to personal claims, inefficiency, as the company was not

making money and Shpakov R.V. had to financially support its activities. However, he was in favour of her remaining at least in the Compliance function - checking all documents in Constance Investment for reporting to clients, as he knew that she was a strong specialist and could be useful in this position. R.V. Shpakov had periodic thoughts to dismiss her from Constance Investment (periodically she was not satisfied with her work). From the tranche - Argento's papers - replenished the company's portfolio, leverage and security of the leverage, which the company took on itself and the clients. Thus, the replenishment in Argento allowed for the release of some volumes from previously held collateral (securities and money that were already in the company's portfolio) to make withdrawals in accordance with submitted client orders. He further asked if DP bonuses would be paid out. Linda informed about the possibility to make Shpakov R.V. transactions via bitcoin. His answer: "will give 3 million rubles for bonuses" (bonuses of DP in a bad month were 2 million rubles, in a good month - up to 8 million), and accumulated debts - it was about half a year. R.V. Shpakov often played on the emotions of employees (he relieved himself of responsibility), sometimes shifting the responsibility from incoming funds to salaries and bonuses (all - debts for previous periods), paying part of the funds to "small" clients at his own expense in order to slightly reduce the emotional load of employees - to transfer them to another direction. In the fragment of correspondence with the contact "Yuri Orlov" (+79263088226) on 08.06.2018 in the time period from 15:58:04 to 19:01:01; 12.09.2018 from 13:23:33 to 14:47:39; 26.02.2019, from 17:47:42 to 17:58:40, this part of the correspondence with Yuri Orlov refers to the discussion of reports to clients on behalf of White Lake Management LTD, which were to be sent to them after the re - signing of international market contracts. This matter was also supervised by Linda. "Vladimir Sergeevich" - this correspondence refers to Vladimir Pakhomov. In the fragment of correspondence with the contact "Yuri Orlov" on 13.03.2019 in the period of time from 16:39:41 to 21:18:13, technical aspects of ensuring the company's activity are discussed. This part of the correspondence refers to the day of the search in the office of the company. He (Munaev Z.V.) sent Yuri the tasks formulated to him (Munaev Z.V.) by Shpakov R.V. on immediate response in terms of disconnecting network media, access to computers of all managers, restricting access to files, mail, other access. In the fragment of correspondence dated 04.09.2019 for the period of time from 09:50:31 to 10:22:52 with Yuri Orlov, with the exception of some individual topics, refers to the instructions of Shpakov R.V. on the access of employees to local discs of the company, the work of the pass system of the office, updating and purchase of this or that software, sites, servers, remote access, some equipment to the office, security and data encryption programs, systems against hacking and others. Also Yuri was often approached to get some reports, he (Yuri) was in charge of sending them out. Marketing mailings (advertising mailings) on the database of Customers for certain products: there could be both current Customers and a database of potential Customers. Orlov was asked by employees of Moscow - offices and branches on the work of CRM - system (software for accounting of new and maintenance of existing Customers, used, as a rule, in the sales department). Also Yuri was asked for expert assessment of any market programmes, their working conditions, possibility of interaction, etc. In the fragment of correspondence with the contact "Pakhomov" (+796574 - 8888) from 16.07.2019 for the period of time from 10:42:33 to 18:31:41] this correspondence concerns the situation with the client Polezhaev, this is the client of Pakhomov V.S. He (Munaev Z.V.) reported that a Chechen who "deals" with the issue from the side of Polezhaev, his partner, came out to him. He (Z.V. Munaev) was threatened, as he was a signatory of Kyubi Capital, as well as the risks associated with the company, including criminal prosecution. It was about "manual" control by Polezhaev of necessary people in law enforcement structures to put pressure on Shpakov R.V., Pakhomov V.S. and as a consequence on him (Munayev Z.V.), that the desired result in case of refusal of cooperation will be achieved by any means, people are already "loaded", despite the fact that the invested money was received by the client at the time of this correspondence. Categorical dissatisfaction and disagreement concerned the amount of profit (it is not fixed or guaranteed). In fragments of correspondence with the group "Fantastic 4", whose participants were: Roman Shpakov (+7 905 735 - 55 - 88), Linda (+357 99 920015), Munaev (+7 903 100 - 41 - 84), +7 965 748 - 88 - 88 Vladimir Pakhomov dated 13.11.2017 during the period of time from 21:51:44 to 00:32:39 h 14.11.2017; 15.11.2017 during the period of time from 13:42:50 to 16:02:13; 17.11.2017 during the period of time from 11:12:24 to 16:17:02; 23.11.2017 in the period of time from 12:32:51 to 11:52:42; 28.11.2017 in the period of time from 00:22:03 to 02:21:59; 30.07.2018 in the period of time from 15:16:03 to 16:50:02, Roman Shpakov was the task setter, Linda coordinated the issue for the Cyprus regulator, Vladimir Pakhomov coordinated the issue for the Russian regulator (Central Bank of Russia). He (Z.V. Munaev) was in correspondence as a nominee, signatory of "QB Capital CY LTD". The main content of this correspondence concerned discussions about possible letters of enquiry

from the Central Bank of the Russian Federation to the Cyprus regulator CYSEC(CySEC). Linda informed Shpakov R.V. about the receipt by the Cyprus regulator of an enquiry about the company "QB Capital CY LTD", in connection with the company "QB Capital CY LTD", the receipt of clients' funds from Russia, about the owner of "QB Capital CY LTD". Due to the fact that for R.V. Shpakov, who was a beneficiary of the Russian group of companies "QBF", this issue and disclosure of him as a beneficiary of "QB Capital CY LTD" was a risk zone, he was greatly puzzled by the solution of this issue and not declassifying this information due to possible, including criminal, consequences for him personally. The correspondence was long and lengthy and did not reach a logical conclusion as Roman Shpakov and Vladimir Pakhomov questioned the letters from the Russian Federation to Cyprus as such and did not believe Linda, insisting that she was overemphasising the issue and her role. The other side was Linda's position, who argued that the letters do exist and it is indeed a threat to everyone, that it is urgent to address the issue in Russia, because there are no problems in Cyprus initially, but in case of complaints from the Russian Federation they may appear. The third option that was discussed by the participants was a possible ill - wisher and initiator of the investigation in the Central Bank of the Russian Federation, including on a reimbursable basis, who wants to cause trouble for both the company and Roman Shpakov personally. All three options with possible reasons, details and consequences were discussed at length in the correspondence. No one ever came to reliable information. Although at that moment his (Z.V. Munayev) participation in the correspondence was the most inactive, due to his distance from these issues, he now realises that at that time the letters from the Central Bank of Russia to the Cyprus regulator must have taken place. Subsequently, after the correspondence, Linda verbally informed him (Z.V. Munayev) that she communicated with representatives of the regulator, and they verbally confirmed the existence of letters, but showed only internal requests from CYSEC(CySEC) to "QB Capital CY LTD" in Greek. In this correspondence R.V. Shpakov, due to uncertainty about the source of the threat, instructs VS Pakhomov to find out the necessary information from the Central Bank of the Russian Federation and settle the matter so that the letters would no longer arrive, and at the same time instructs Linda to settle the matter on the territory of Cyprus so that they, for their part, would provide answers satisfactory to the Russian Federation. Vladimir Pakhomov's communications with Linda clarifying the details of the requests, and his responses indicating that he had the necessary resources at the regulator and the ability to verify all information there, indicate both his awareness of the issue with the patronage of individuals at the CBR and his ability to resolve certain issues if they actually existed. Linda's initiative involved risks in Cyprus, including for her as a representative of the auditors, a nominee service company, and the manager of the licensed Constance Investment. Linda's correspondence draws attention to the "sore spots" - the accounts at Piraeus Bank and Cyprus Development Bank ("CDB"), as these banks contained information about the actual beneficiary of the company - Shpakov R.V. The correspondence also confirms his role as a signatory on the Cyprus side, indicating that Linda signed documents for him. Some of his (Munayev Z.V.) messages in this correspondence were initiated by Shpakov R.V. in verbal communication as well as written by him (Shpakov R.V.) personally from his (Munayev Z.V.) phone, namely, reassuring Linda that they took her concerns seriously, did not fail to act, and in connection with her distrust of Pakhomov V.S.'s words did confirm the common concern and efforts to resolve the issue on the side of the Russian Federation. The correspondence confirms his (Munayev Z.V.) role as a nominee, possible disclosure of information on him instead of disclosure of information on Shpakov R.V. The abbreviation ABB is Bank in Vanuatu ("Alpen Baruch Bank"). The correspondence discusses V.S. Pakhomov's request to accept 2kk - (i.e. \$2 million, dates just 2017, possibly Borzenkov's money as he realises) into this bank. As a possible malefactor in relation to Shpakov R.V. is indicated a client of the company and, according to information of Shpakov R.V., a former raider Stepanov Sergey, who at one time initiated several applications and complaints, both in Russia and in Cyprus, as well as a court decision on arrests of accounts of LLC "IC QBF" in Russia. After a certain period of time, he was paid the full amount of funds with profits, as well as an additional amount on top for the "inconvenience caused".

- Protocol of confrontation between the accused Munayev Z.V. and the accused Golubev A.S. dated 11.03.2022, according to which the accused Munayev Z.V. fully confirmed his testimony, namely that Golubev A.S. worked in St. Petersburg, started as a financial advisor, then, when achieving results and over time in about 2016 was promoted to the head of the office of the company QBF in St. Petersburg. In this position Alexey's responsibilities included fulfilment of the sales plan, hiring and working with employees, attracting clients, meeting standard KPIs. He (A.S. Golubev) reported to Vladimir Pakhomov, who was the Director of the QBF branch network. A.S. Golubev was in charge of the company's sales department in St. Petersburg, the head of the sales department and financial advisors. A.S. Golubev could be invited to meetings with certain clients as an official, participated in negotiations with clients and took part in interviews with applicants for staff positions. In the office of the city of Golubev A.S. organised the acceptance of clients for international market services and may have been a signatory to some contracts along with Vladimir Pakhomov and other office staff. The office staff accepted clients' funds both non - cash and cash. Cash from branches, including the St. Petersburg branch, was collected (picked up) and delivered for further transfer and disposal by R.V. Shlakov in accordance with his (R.V. Shpakov's) instructions. On the territory of the office of the city of St. Petersburg there took place the acceptance of cash from clients within the framework of international market contracts. Their delivery to Shpakov R.V. could be carried out by a third person appointed by him (Shpakov R.V.) from outside the staff by flying to St. Petersburg, also someone from the St. Petersburg office could be sent by Golubev A.S. on the instructions of Shpakov R.V. or Pakhomov V.S. to Moscow to collect the funds. In the same way cash withdrawals of clients' funds (return of funds to clients) took place, i.e. on the instructions of R.V. Shpakov were delivered to St. Petersburg for further disbursement to financial advisors and transfer to clients. In the office, cash receipts, expenditure cash vouchers, receipts for acceptance and disbursement of funds were drawn up. These were standard documents for confirming cash turnover in the office. Part of the salary in QBF offices was also paid in cash, and employees received cash in hand in accordance with their accrued remuneration. Withdrawals could be made, among other things, through the employees' bank cards, to which Shpakov R.V. sent funds from his company accounts for further withdrawal and disbursement to the employees. The competence of the head of the office included determining the amount of salaries in his part and the amount of bonus remuneration for fulfilment of targets. The system of accepting and disbursing client cash, as well as cash settlements with the company's employees, had been in place at QBF since 2010. Cash could be sent to Golubev A.S.'s bank accounts for withdrawal of these funds and disbursement to employees or Clients, depending on instructions received by Golubev A.S. from Shpakov R.V. or Pakhomov V.S.. When accepting cash under international market contracts, the office manager was responsible for, among other things, appointing an employee to travel to the Moscow office and hand over client funds to Shpakov R.V. The employee was approved by Shpakov R.V. Golubev A.S., as office manager, organised the standard procedure for accepting cash at the St. Petersburg office in accordance with the company's regulations approved by Shpakov R.V. Cash for withdrawal to clients could be taken either from the St. Petersburg office or from the St. Petersburg office. He (Z.V. Munayev) believes that A.S. Golubev, as well as all QBF employees working in the international market sales units, was aware of the absence of a licence of QB CAPITAL CY LTD (QCCI) to carry out brokerage activities and other activities necessary for working with securities in the order of organising interaction with clients in the territory of the Russian Federation in view of his work in the licensed QBF LLC. After 2015, due to the worsening situation with withdrawals of clients' funds, in terms of timing and procedures, the company had a standard practice of accompanying the client in the process of post - sale service, including after the submission of an order for withdrawal of funds. This procedure was in place in all regional offices of QBF, including the office of Alexey Golubev in St. Petersburg. The organisation of the work of the accountable employees in negotiations with clients, both telephone and face - to - face meetings, the form of the information provided, the documents required at these meetings, possibly reports and other explanatory documents, as well as the communication of information on the documents required from clients to the company's sending banks (source of origin of funds, certificate of non - criminal record, certificate of housing and utility services, letters of recommendation and other documents) - was carried out by A.S. Golubev as head of the St. Petersburg office. Golubev A.S. as the head of the office discussed with employees the claims received, the reasons for their occurrence, possible solutions and help to

clients, defended the reputation of the company in the eyes of both clients and employees. A.S. Golubev could participate in meetings with clients. As a rule, employees invited senior management to meetings with either especially large or especially dissatisfied customers, as assistance in holding such meetings is necessary due to the high negativity and high tension. The clients' claims were related to the timeframe for withdrawal of funds, which was increasing. Golubev A.S. as the head of the office, in view of the instructions he received from Pakhomov V.S., informed clients and employees that this was due to the tightening of regulation of the financial market as a whole, as well as a particularly scrupulous attitude due to sanctions to Russian clients and money of Russian origin, the need to provide an increased and rather capacious set of documents, which was new to most. Also, a significant part of the period was taken up by the procedure of selling off assets, which lengthened in time due to the deterioration of the situation on the U.S. stock market compared to the period before 2014. This information was communicated to the heads of all offices by Pakhomov V.S., further communicated to the employees of the offices by the heads of the offices, further communicated by the employees of the offices to the clients. The initiative of transferring problem clients from the branch, including the office in St. Petersburg, to the department accompanied by the client. St. Petersburg, to the support department of the Moscow office. In the case of particularly large and problematic clients it was coordinated with R.V. Shpakov. Due to the absence of branch management and lack of communication with the clients of the branches and lack of authority to make any decisions with them, the information he received was based on the data provided by V.S. Pakhomov and R.V. Shpakov;

- Protocol of confrontation between the accused Munayev Z.V. and the accused Pakhomov V.S. dated 11.03.2022, according to which the accused Munayev Z.V. fully confirmed his testimony, namely that Pakhomov V.S. started working in the group of companies "QBF" in 2010 with the position of junior financial adviser. Subsequently, he was promoted to the position of Head of Sales Department by R.V. Shpakov in 2011, and then was appointed to the position of Head of the St. Petersburg office of QBF Group in 2013. Subsequently, when new offices were opened, Pakhomov held the position of Director of the branch network of QBF Group. From 2013 onwards Pakhomov's direct supervisor was R.V. Shpakov. V.S. Pakhomov's duties included fulfilment of the sales plan, development of sales departments and branch network, recruitment of employees and office managers, ensuring business operations, attracting clients and their support (clients - individuals and legal entities for international market services). V.S. Pakhomov was subordinated to the heads of sales offices, which were managed by V.S. Pakhomov from his office in St. Petersburg. V.S. Pakhomov was responsible for the fulfilment of key performance indicators of the offices, the number of client meetings and the amount of funds raised. V.S. Pakhomov participated in meetings with clients, in recruitment of employees for key positions (managerial positions in sales departments in the offices - branches of QBF group of companies - LLC PC QBF, LLC MC QBF, LLC Q.Broker, KG LLC, QBF JSC, QF Estate SPb LLC, QF Estate EKB LLC, QBF Capital SeaWay Ltd and other companies directly or indirectly owned by Shpakov R.V. Relations between Pakhomov V.S. and Shpakov R.V. were close and trusting, Pakhomov V.S. followed the instructions and directions received. After 2015, with the gradual appearance of delays in withdrawals of clients' funds, the branch network started claim work, organised a document management system, tightened requirements to clients withdrawing funds; provided additional procedures for meetings and negotiations with claim clients, especially with the key, the largest, and the most negative ones. Since V.S. Pakhomov was responsible for work in the branches, he implemented this system in the sales offices according to R.V. Shpakov's instructions and adjusted it depending on the situation on the ground and private agreements with clients. The offices of QBF Group were located in St. Petersburg, Yekaterinburg, Tyumen, Kaliningrad, Ufa and possibly other cities. Pakhomov V.S. had finished his work in the QBF group of companies at the time of his detention, as of May 2021, Vladimir continued to work for QBF, including at the Moscow office: he organised work there in the absence of R.V. Shpakov, carrying out his (R.V. Shpakov's) remote assignments, including on the basis of new difficulties and tasks related to the criminal case. Pakhomov V.S.'s

remuneration, like that of other sales managers, consisted of a fixed and bonus part. The bonus part was paid as a percentage of the amount of funds raised - funds raised by the previously listed offices, funds raised under agreements on access to international stock markets and trust and advisory management agreements. Pakhomov V.S. was also paid a percentage of remuneration from the total accumulated client portfolio. This payment may have varied, but was subsequently fixed by him (Z.V. Munayev) and V.S. Pakhomov. The funds were raised both in cash and non - cash form. Cash funds from all branch offices were sent on behalf of Pakhomov V.S. and Shpakov R.V. both to the St. Petersburg office and to the Moscow office for disposal by Shpakov R.V. These funds were not fully credited to trading accounts as they should have been: some funds were used to disburse previously invested funds of old clients, as well as for salaries and bonuses of employees. This system was in place at all of QBF Group's offices. Couriers for "encashment" of funds were appointed directly by R.V. Shpakov or V.S. Pakhomov in agreement with R.V. Shpakov. Storage of client contracts, incoming and outgoing cash vouchers, receipts and other client documents was organised and carried out by V.S. Pakhomov for clients of the QBF branch network. V.S. Pakhomov does not agree with the testimony of V.S. Pakhomov in terms of his functionality, insists on his testimony, and adds that V.S. Pakhomov was the signatory of contracts with clients on the international market and signed them personally during all terms of validity of his powers of attorney. V.S. Pakhomov was a member of working groups in correspondence and meetings and participated in management meetings on major issues of the QBF Group, made strategic decisions, participated in telephone correspondence and chats and communicated instructions through them. On the role of Pakhomov V.S. in solving the problems that arose during the audit of the activities of LLC IC QBF by the Central Bank of Russia, as well as the role of Pakhomov V.S. when the company had problems with law enforcement agencies explained the following: during the period of difficulties in the group of companies "QBF" with the withdrawal of clients' funds, Shpakov R. V. assigned the task to Pakhomov V.S. to solve the problems with the withdrawal of clients' funds.V. set a task for Pakhomov V.S. to organise lobbying of the company's interests, its protection with the help of patronage from law enforcement agencies and the Central Bank of the Russian Federation (CBRF). V.S. Pakhomov, through his circle of acquaintances and relatives, found the necessary people in law enforcement agencies and the Central Bank of the Russian Federation, secured an agreement with them and ensured their continued work together with R.V. Shpakov on a compensated basis. The funds were transferred to these persons in cash, including those transferred by Pakhomov V.S. In the Central Bank of the Russian Federation these were representatives of the management, and in law enforcement agencies - services that directly or indirectly had influence on the criminal case on Polezhaev A.'s application. Client cash was received at the branches of the QBF group of companies under the direction of Pakhomov V.S. It was received at the offices by company employees and along routes determined by Pakhomov V.S. and Shpakov R.V., were delivered to the necessary offices, both for internal payments and for cash withdrawals to previously attracted clients. Internal payments included salaries, bonuses, rent and other administrative expenses. Part of the cash raised under international market contracts was not credited to international trading accounts, but was issued and spent on current payments and cash withdrawals to old customers. Cash was also received from Russian and foreign companies of Shpakov R.V. to QBF branches. These funds were spent under the supervision of Pakhomov V.S. Also, some funds were regularly transferred to the bank cards of the employees of the branches under the order of Shpakov R.V. and under the supervision of Pakhomov V.S. These funds were withdrawn from the bank cards, given for salaries and withdrawals to clients. V.S. Pakhomov insists on his testimony regarding the role of V.S. Pakhomov in encashment and cashing of funds from the group of companies "QBF", as V.S. Pakhomov was personally interested, including in the acceptance of cash funds, as it depended on the issuance of their salaries, withdrawal of funds to clients, relations with them in the key to investment, and the reputation of the company. Also, due to his circle of acquaintances, Pakhomov V.S. sent potential nominees to the companies of Shpakov R.V. and to the lawyers of QBF group of companies for companies owned by and related to Shpakov R.V. This was necessary for the continuation of the company's activities during the crisis period, as well as for the development of the company in other periods of time. Shpakov R.V. needed, among other things, nominees in key positions to unconditionally fulfil his instructions, make expenditures and provide external cover for his activities. Shpakov R.V. sent these instructions, including to Pakhomov V.S. Pakhomov V.S. was aware that QB CAPITAL CY LTD (QCCI) did not have a licence to carry out brokerage activities and other activities necessary for working with securities. He repeatedly discussed it with him in personal conversations, telephone correspondence. Pakhomov V.S. was aware of the problems related to the lack of a licence at QB CAPITAL CY LTD (QCCI). This is evident both from the correspondence and was repeatedly discussed together

with Pakhomov V.S., with Shpakov R.V. and with other managers of QB Group. He (Z.V. Munayev) knows the following about the role of V.S. Pakhomov in concluding the agreement(s) with M.I. Borzenkov, receiving money from the latter and the subsequent interaction with him: on behalf of V.S. Pakhomov, international market services were offered to the client Borzenkov with knowingly invalid conditions. This concerned both the reliability and return of his funds, including their insurance, return on invested capital and other conditions. In addition to the standard international market contract, the client Borzenkov was offered personalised contract terms by Kirill Sobolev on behalf of Pakhomov V.S. in terms of returns to other accounts of Borzenkov and his companies, capital protection terms, and income. When receiving funds from the client, Kirill Sobolev negotiated with him according to the instructions and terms mentioned above from Pakhomov V.S. (according to Sobolev's words). Subsequent direct communication between Pakhomov V.S. and the client Borzenkov could take place at his (the client's) repeated expansion of the volume of invested funds, as well as subsequently at difficulties with the withdrawal of these funds and lengthy claims work. At the conclusion of the contract with Borzenkov communication was directly Borzenkov with Kirill Sobolev, he (Sobolev) personally confirmed this fact to him, and confirmed the fact of receiving instructions from Vladimir Pakhomov. He (Z.V. Munayev) was notified by Roman Shpakov about the fact of subsequent co - operation with Borzenkov on the part of Vladimir Pakhomov. Moreover, in oral face - to - face and telephone conversations (his and Pakhomov's) we repeatedly discussed the existence of such a client and the stages of problematic negotiations with him. He (Munayev Z.V.) did not make any decisions on this client, but he is aware that Shpakov R.V. gave personal instructions to Pakhomov V.S. on all stages of interaction with this client. This client does not belong to the Moscow office of the company, but is a client of the Ekaterinburg branch network. The fact of problematic negotiations is available in telephone correspondence with the word "Borz". He insists on his testimony in this part. About the role of Pakhomov V.S. in case of beginning of claim activity in the part of return of earlier deposited money of clients, consisted in the following: in branches of group of companies "QBF" under the direction of Pakhomov V.S. the system of claim work with clients, at which the term of withdrawal of their investments exceeded conditions of the contract, was introduced. This system included requesting an excessive and redundant list of documents that lengthened the period of withdrawal of funds due to both the long preparation of these documents by clients and the impossibility of preparing some documents in principle. This system was communicated by Pakhomov V.S. to branch managers. The managers trained staff on the system, regulated their work, and the staff ensured that the information was communicated to clients. In addition to the source of funds and housing and utilities certificates, there were also requests for letters of recommendation from banks, lawyers, sources of other income of clients, availability of alternative identity documents, certificates in English and others. This request was sent to the clients to the company's employees in order to formally send the documents received from them to the international back office for submission to the sending banks, but in fact these requests and the whole procedure greatly lengthened the withdrawal of funds due to delaying the whole process; (Vol. No. 306, pp. 222 - 233)

- The testimony of Pakhomov V.S., given by him as a witness, suspect, as well as the accused, according to which he did not admit guilt in the incriminated crimes and showed that he graduated in 2013 from the St. Petersburg State University of State and Management with a degree in finance and credit. St. Petersburg State University of State and Management, specialising in finance and credit. After that he received qualification certificates from the FFMS - Central Bank of Russia certificates: basic, 1.0, 5.0. In 2009, he got a job at Qube Finance, whose office was located on Presnenskaya Embankment, BC Tropikana, Moscow. He does not remember the position in which he was employed. The organisation was a licensed investment company and had three licences issued by the Central Bank of Russia. His job description included the selection of a base for phone calls. The leaders of the organisation were three shareholders: Sergey Lvovich Kuzin, Nikolay Modin and Roman Shpakov, who founded the company and opened the first office. As far as he knows, the company had about 6000 clients in all directions, including partnership with banks. He met Roman Shpakov about 4 - 6 months after he started working for the company. They maintained a working relationship and he offered him (Pakhomov V.S.) to buy a stake in the company. Some time later, around 2011, he (V.S. Pakhomov) was appointed in this organisation as a deputy director for one of the company's areas. His duties included the selection of premises for the opening of company offices in various cities of the Russian Federation, communication with contractors, and general analysis of competitors in the cities where offices were to be opened. Around 2013, Shpakov Roman finally bought out the shares of the other two shareholders, why they left he (Pakhomov V.S.) does not know, later both opened their own companies. At the general meeting Shpakov Roman announced that he was ready to sell shares to the management in instalments of up to 9.99%, explaining that more than 10% had to be approved by the Central Bank of Russia, and this required a large set of documents, to get a package of more than 10% or equal to 10% of the company had to submit a candidate for approval to the Central Bank of Russia with a lot of requirements for reputation and proven income. Around 2008, together with his mother Likhina Elena Stanislavovna, he (Pakhomov V.S.) sold his flat, he still had some savings, so he thought about buying a part of the company, as he considered it a good investment. They agreed with Roman Shpakov that he (V.S. Pakhomov) would buy 6% in instalments for 5 years. He (V.S. Pakhomov) had a desire to see how the company was developing and did not want to spend all the funds. They went to a notary on Presnenskaya Embankment and signed a DCP (sale and purchase agreement). He ceased to be a shareholder in 2018, selling his share back to the company. Until 2014, the organisation where he worked was called QB Finance Ltd, after renaming around 2014, the company became QBIF Investment Company Ltd. In mid - 2012, QBF decided to open a branch in St. Petersburg, for which purpose he (V.S. Pakhomov) selected premises at the address: St. Petersburg, Malohtinsky Prospekt, v. 64. 64. He

also took part in the technical opening of branches of QBIF LLC in other cities. He may have been present at the official opening of some branches organised by the marketing department of QBIF Ltd. He worked in the said position until 2016 or 2017 (can't remember exactly). In 2016 or 2017 he left the said company and worked for another organisation. After a break of about 8 months at QBIF Ltd, he returned to the said organisation and started working as a Development Director. His job responsibilities included analysing the competitor market. His immediate supervisor was the CEO - in 2016 it was Frolov, and in 2017 he (Frolov) was replaced by Matyukhin Stanislav Anatolievich. Matyukhin has a lot of experience, having worked for several years at Uralsib Management Company and before that about 6 - 7 years at the Central Bank of Russia in the FSFM division - licence and certificate issuing activities. He (Pakhomov V.S.) had a small group of analysts under him, who were constantly changing, as well as technical staff who were engaged in consolidating information into a single table - as a rule, it was one person. He left the company in 2018, leading small projects not directly related to the company's operations, but related to some clients who worked there. The projects involved developing financial models that were not related to investment activities. In 2018, he (V.S. Pakhomov) resigned from QBIF LLC at his own request, after which he moved to St. Petersburg for permanent residence, and there he advised persons on matters not related to investment activities. In November - December 2020, he took a job at LLC Berezka, a chain of dental clinics in the Moscow region, as Managing Director. The position involved travelling to other cities, and in fact he lived in St. Petersburg. Previously, he (V.S. Pakhomov) had powers of attorney from LLC IK QBF, but he does not remember which ones. He is not familiar with the directors and shareholders of White Lake Management Ltd, QBMF LLC, QB CAPITAL LTD, Simtelligence Company Limited, VL Consulting LLC, WLM Ltd, but he has heard about some of these companies. At different periods of time, while he was working in the company "QB IC" LLC, he (Pakhomov V.S.) could be approached by acquaintances and acquaintances of acquaintances, who knew that he worked in the investment company as a director for strategic development and knew that his tasks included studying the market conditions and investment products of the company, so they wanted to get advice on investing money. He could introduce investment advisors from different investment companies, who in turn would work with the client. He (Pakhomov V.S.) introduced his acquaintances to managers of different companies and later these clients concluded contracts and bought different investment products in different companies. He went to different investment forums, got acquainted with representatives of different investment companies and could introduce them to his clients. He knows that there was a company "QB CAPITAL CY LTD" ("QCCI LTD"), which is actually and legally located in Cyprus, and IC QBIF had an agency agreement with "QB CAPITAL CY LTD" ("QCCI LTD") for a certain period of time. The contract implied that the companies were to supply each other with clients, i.e., some sort of agency agreement for mutual interests. As explained by the representative of the company who came to present products, the accounting support and administration of "QB CAPITAL CY LTD" originated from Cyprus. The company provided agency services, and this organisation was headed by Kaznacheev Alexey, whom he (Pakhomov V.S.) had seen once in his life. He (V.S. Pakhomov) knows that the company "Simtelligence Company Limited" is registered in Hong Kong. The company similar to "White Lake Management Ltd." is familiar to him, it is registered in Kaimakh, the company has a licence for professional investment activities. In Russian companies non - cash transfer of funds to clients is possible, cash was accepted at the request of the client, who was given a cash warrant, and then this money was collected in accordance with the established procedure, which he (Pakhomov V.S.) does not know. The procedure of receiving dividends by clients under the concluded contracts is described in each specific contract. Z.V. Munayev is familiar to him. They got acquainted with him approximately in 2010 - 2011. He knows that Mr Munayev Z.V. came to QBF from an insurance company, as far as he remembers it was called Reynisans. Munaev Z.V. was engaged in customer service over the phone, has higher education, as well as FSFZ Basic 1.0 and AML/CFT certificates. Since 2013, he has been a shareholder of IK QBF LLC. He (V.S. Pakhomov) is familiar with A.S. Golubev. As far as he knows, A.S. Golubev worked in LLC IC QBF as a director of the branch network. A.S. Golubev's task was to attract clients for the products of the licensed company QBF LLC. A.S. Golubev was hired by S.A. Matyukhin, General Director of QBF LLC. He (V.S. Pakhomov) was introduced to A.V. Polezhaev by a mutual acquaintance whose details he does not remember. A.V. Polezhaev asked for help in finding him (A.V. Polezhaev) oil products for delivery to the Republic of Kazakhstan. A.V. Polezhaev borrowed money from him (V.S. Pakhomov) many times, for what amount he does not remember exactly. He (Pakhomov V.S.) does not have any loan agreements or receipts on the transfer of funds to A.V. Polezhaev; (Vol. No. 294, pp. 3 - 7, 17 - 19, 49 - 53, 88 - 90,

- Protocol of confrontation between the witness Pakhomov V.S. and the witness Polezhaev A.V.

- Protocol of confrontation between the witness Pakhomov V.S. and the witness Polezhaev A.V., during which the witness Polezhaev A.V. explained that he knows Pakhomov V.S., who is one of the managers of QB Finance LLC (QBIF LLC). He has known him since about 2012 and was introduced to him by Sergei Loginov, whom he has known for more than 15 years, was on friendly terms with him and had his own business. Loginov introduced him (A.V. Polezhaev) to him in 2012 under the following circumstances: in 2012, he (Polezhaev, Sergei Loginov, Vladimir Pakhomov) met in a restaurant in Moscow. The meeting implied his acquaintance with Pakhomov V.S., as earlier Loginov had told him that he (Loginov Sergey) had an acquaintance who accepted cash as an investment. He was interested in this proposal, as he had free cash at that time, as Pakhomov V.S. promised about 2 - 3 per cent of the deposited amount monthly in cash. Also an important fact of his trust in Pakhomov V.S. was that earlier Loginov S. had also invested money. At the meeting Pakhomov V.S. seemed to him a businessman who inspired confidence. Pakhomov told him how his business was organised, which was to attract people with free cash to invest in his business, namely by buying and selling securities and building apartment buildings. Around April 2012, he met with Pakhomov at the Ukraina Hotel, where they agreed with him that he would hand over cash in the amount of \$400,000 for the purpose of making a profit; they did not sign any documents. V.S. Pakhomov did not write a receipt for the receipt of the money. About three months later he received a phone call from Pakhomov V.S. asking if he still had cash, to which he replied that he did. Then, in early June 2012, Pakhomov came to the address: 10 Birch Grove Drive, Moscow, where he (A.V. Polezhaev) was working at the time. During the meeting, V.S. Pakhomov explained that it was necessary to invest more and reach USD 1,000,000, after which his interest would increase. He was not embarrassed that they had not drawn up or signed any documentation, as they had been introduced by a mutual acquaintance. In the period from June 2012 Pakhomov V.S. personally paid him interest on the amount he had previously deposited, i.e. USD 600,000, the payments were made in cash. All details were given to him by Pakhomov V.S. On 05.06.2012, Pakhomov V.S. called him and offered him to invest additionally in the business project and to conclude an agreement with a foreign company and to deposit additional funds in the amount of 1050,000 euros. Pakhomov V.S. justified it by the fact that this is a new project, in which it is necessary to contribute more than 1 million dollars, it guarantees him (A.V. Polezhaev) a stable interest and return on the invested funds. After brief deliberation he agreed with this proposal. He concluded an agreement with the Cyprus company "QB Capital CY LTD". The contract was concluded on 05 June 2012. He signed this agreement while in the office of QB Capital CY LTD, located in the building of the Moscow - City complex, at the address: 8 Presnenskaya Naberezhnaya Embankment, bldg. 1, Moscow. In this office he met Shpakov and Zelimkhan Munayev. Pakhomov introduced Munayev to him as the commercial director of Qubey Finance LLC, and Shpakov as the deputy general director of Qubey Finance LLC. V.S. Pakhomov explained to him that the Cyprus Company was an affiliated company of Qubey Finance LLC. Pakhomov V.S. informed him that the funds should be transferred to the settlement account of the Cyprus company, further Pakhomov V.S. informed him of the number of the settlement account and he (Polezhaev A.S.) from his settlement account opened in a foreign bank in Germany, Berlin, transferred funds in the amount of 1,050,000 euros to the settlement account of the Cyprus company "QB Capital CY LTD". At the signing of this agreement Pakhomov V.S. was present, it was he who convinced him (Polezhaev V.S.) in the reliability of the transaction, he also guaranteed him the return of the full amount and the interest due to him. Pakhomov V.S. also guaranteed him the return of the full amount and the interest due to him (A.V. Polezhaev). Also Pakhomov V.S. explained to him that in fact he had no risk of losing his funds, as the funds under clause 2.3 of the agreement were insured with the Federal Corporation for Protection of Rights of Interests, within the framework of the system of compulsory deposit insurance. After the lapse of time, he found out that there was no insurance. Roman Valerievich Shpakov acted as a representative in this criminal case from the side of "QB Capital CY LTD". Also at the signing of the contract on 05 June 2012 № 592 - 12/BP, there was signed an agreement on the provision of "Trust management" services within the framework of the abovementioned contract. In this agreement the trustee on the territory of the Russian Federation was LLC "Qubey Finance" (INN 7733673955), the agreement was also signed by Roman

Valeryevich Shpakov in the person of the Commercial Director of this company. In addition to this agreement was signed Annex "Trust Management", where from the side of LLC "Qubey Finance" was signed by Shpakov R.V. During the period of time from 2012 to December 2018, he was paid money as interest for the use of his money provided to LLC "Qubey Finance" by him as an investment, these payments were inconsistent, with long intervals of time, sometimes for 8 months he was not paid. All communication with him took place through Pakhomov V.S., sometimes Pakhomov V.S. transferred money personally, sometimes through persons unknown to him (A.V. Polezhaev), who were employees of LLC "Qubey Finance". Several times he also received money on his bank card from persons unknown to him, representing themselves as employees of the St. Petersburg branch of Qubey Finance LLC. German colleagues informed him that "QB Capital CY LTD" is liquidated, does not conduct any financial activity, also from the Republic of Cyprus he was informed that "QB Capital CY LTD" on the territory of the Republic of Cyprus does not conduct any activity, is currently liquidated. Around 2019, he had a meeting in the building of the complex "Moscow City", at the address: Moscow, Presnenskaya naberezhnaya, 8, page 1 between him and Munaev, Shpakov and Pakhomov. At this meeting, it was decided to return to him money in the amount of USD 200,000 for a period until 01 October 2019, until 01 November 2019 USD 200,000. Starting from 01 December 2019, USD 15,000 each month for a total of USD 475,000 was returned to him, which was approximately 50% of the total amount of money he had invested. He wrote a statement that he would have no claim after the above amount was transferred to him. In approximately October 2019, he received US\$200,000 from Shpakov. Later, he became aware of Aslambek, who was the brother of Munaev Zelimkhan, who said that he was related to Qyubi Finance LLC and was the supervisor of this company. Aslambek then put forward the condition that he (A.V. Polezhaev) should transfer 200,000 USD to Aslambek as security for the project. He called Shpakov and asked why Aslambek Munayev was demanding money from him, to which Shpakov replied that Aslambek had the right to negotiate within the framework of the investment project. It was Pakhomov V.S. who persuaded him to invest money in QB Finance (IK QBF LLC) and QB Capital CY LTD. V.S. Pakhomov participated in all negotiations and promised to pay high interest. He persuaded in every possible way to invest money in the development of the projects of the above companies. In 2017 - 2018, he (A.V. Polezhaev) learnt that there was no brokerage account in his name. It was then that he realised that he had become a victim of fraud;

- Protocol of confrontation between the accused Pakhomov V.S. and the witness Rykov D.I

- Protocol of confrontation between the accused Pakhomov V.S. and the witness Rykov D.I., during which the witness Rykov D.I. fully confirmed the Testimony previously given by him as a witness, namely, that in the group of companies "QBF" in Tyumen, he (Rykov D.I.) actually began his labour activity at the end of 2016 in the position of director of corporate business. The group of companies includes QBIF LLC, QF EstateSPB LLC, KBF LLC, QCCI, QB Capital, White Lake Management, VL Consulting LLC, WLM, MC Asset Management and other companies, the names of which he does not remember. In LLC QF "EstateSPB" in a certain period, dates he does not remember, the head was Pakhomov V.S., the head of LLC IC "QBF" was Matyukhin S., in "White Lake Management" Korshunov, in MC Asset Management Smirnova. When the representative office in Tyumen was officially registered in 2017, he was employed as the director of the Tyumen branch of QBIF LLC. In fact, he worked in QBF Group until March 2020, but was officially dismissed only in April 2021. He continued to work in QBF IK LLC until April 2021, while he carried out his activities until March 2020 at the request of Pakhomov V.S., explaining that in case of change of the head of any branch of the Investment Company, the Central Bank of Russia will conduct an inspection of the company and this fact is "inconvenient" for it (the company). In view of this, he complied with V.S. Pakhomov's request not to write a resignation letter. Since March 2020, he has not worked in the Tyumen branch, he resigned at his own request due to the aggravated situation on withdrawal and return of funds of his clients, the emergence of distrust to the management and shareholders of the group of companies "QBF". His responsibilities included managing the Tyumen branch, representing the company's interests in Tyumen, searching for and hiring employees, conducting marketing activities in the Tyumen region, attracting

clients and negotiating with them, organising the point of sale. Interaction was with the office located in St. Petersburg (regional centre) and the central office in Moscow. From the beginning of his labour activity and until his (D.I. Rykov) dismissal from the Company, his (D.I. Rykov) manager was V.S. Pakhomov. Subsequently, part of the functions of company management in terms of regional offices was transferred to A.S. Golubev, and this was due to the fact that V.S. Pakhomov switched to work in the head office in Moscow, where he was engaged in the development of the entire group of companies "QBF". Nevertheless, the final decision - making on all key issues continued to remain with V.S. Pakhomov. As R.V. Shpakov told him (D.I. Rykov) during the meeting in 2016, V.S. Pakhomov together with Zelimkhan Munayev was a co - owner, i.e. a shareholder of the QBF Group of Companies. According to R.V. Shpakov, he (R.V. Shpakov) together with V.S. Pakhomov and Z. Munayev are partners. This information was communicated to him (D.I. Rykov), managers and employees of other branches in the cities of Kaliningrad, St. Petersburg and Yekaterinburg. Shpakov R.V. informed him (Rykov D.I.) that Pakhomov V.S. was the director of the branch network and that any questions concerning the activities of the branch network should be addressed to Pakhomov V.S. Interaction between Pakhomov V.S. and him (Rykov D.I.) took place through personal meetings. Both Pakhomov V.S. came to the Tyumen office and he (Rykov D.I.) to the central office in Moscow. Interaction was also carried out through telephone conversations and messengers. From the beginning of the Tyumen branch activity the main priority, which was set before the branch by the direct head Pakhomov V.S., was directed to foreign markets. This direction was positioned by the branch staff as a strong point of QBF Group's work, that it is this direction that is interesting for a potential client. Initially all the information about the products of QBF Group of Companies, about the company's opportunities, was communicated to the employees in the Tyumen branch, as well as in other branches by Pakhomov V.S. The decision on the possibility of concluding a deal with a potential client, on the format of the deal (cash/non - cash) was made by the head of the regional network Pakhomov V.S. by means of verbal negotiations and messages in messengers. Pakhomov V.S. organised interaction of functional divisions of the group of companies with the branch in Tyumen to conclude transactions: back office, preparation of contracts. In case of cash transactions Pakhomov V.S. organised cash collection from the branch to the regional centre of the company in St. Petersburg and the head office in Moscow. As far as he (D.I. Rykov) was aware, a licence to conduct brokerage activities was held by Whitelake Management, a company registered in the Cayman Islands. Qubicapital" and "Quesiai" did not have such licences and, according to Pakhomov V.S., were not required to perform the function assigned to these companies. These companies provided access to clients to place funds on international markets by opening a trading account. There were instances when Pakhomov V.S. personally collected cash from the Tyumen branch. One of such cases took place on 21.08.2019, cash in the amount of 15,000,000 rubles in front of witnesses Chupin I.A., Ignatov Alexander Konstantinovich was transferred by him (Rykov D.I.) to Pakhomov V.S. after concluding a transaction with the client financial advisor Chupin I.A. The money was encashed to Moscow, where the company's cash office was located. In January 2017, he (D.I. Rykov) was presented to him (D.I. Rykov) by V.S. Pakhomov. The cash centre of QBF's head office in Moscow was a room with a money recalculation machine in it. He (D.I. Rykov) was shown cash - in - transit orders, the order appointing Gorobets as the chief accountant of the company and assigning her (Gorobets) the functions of a cashier. Pakhomov V.S. told about the possibility of concluding transactions with clients with cash payment. During the period from 2017 to 2019 Pakhomov V.S. personally encashed cash more than 5 times. The other instances of encashment were organised by Pakhomov V.S., and after 2018. Cash collection was also organised by Yuri Orlov, Vladimir Maslennikov, Maxim Fedorov, Avetis Vartanov, Kirill Sobolev, Kirill Bogdanov, A.S. Golubev. Cash collection from the Tyumen branch to Moscow and St. Petersburg was not formalised in any way. After receiving cash from clients, the financial adviser who accepted the cash placed it for temporary storage in the safe of the head of the office. Accordingly, the regional office in St. Petersburg already knew about the receipt of cash. After that he (D.I. Rykov) received a message from the management of this office, depending on the period of time, from V.S. Pakhomov or A.S. Golubev, in 90% of cases in messenger Vatsap about which of the employees would come to collect the cash. Upon arrival of the courier, the money was handed over to the courier and the courier collected it. No powers of attorney or transfer acts were drawn up when the money was handed over, as he (D.I. Rykov) was following the instructions of his superior. Upon receipt of funds, after encashment, the back office notified the Tyumen office, as well as other branches, about the receipt of encashed funds. He (D.I. Rykov) was aware of cases of cash payments to previously invested clients as dividends at the expense of funds received from new clients. On A.S. Golubev's instruction, a part of the funds was paid to the client Y.A. Pisarev with funds received from a new client. As Golubev

A.S. explained, this was necessary to optimise the logistics costs of transporting cash. This issue, according to A.S. Golubev, was agreed upon with V.S. Pakhomov. The use of funds inappropriately was made 2 times on Golubev's order. In the second case, salaries were given to employees of the Tyumen branch. Golubev explained to him (D.I. Rykov) that the money would be transferred to the clients' trading accounts from the accounts of QBEF group of companies through mutual settlements between the companies; (Vol. No. 294, pp. 175 - 184)

- Protocol of confrontation between the accused Pakhomov V.S. and the witness Chupin I.A.,

- Protocol of confrontation between the accused Pakhomov V.S. and the witness Chupin I.A., during which the witness Chupin I.A. fully confirmed his earlier testimony as a witness, namely, that in May 2017 in Tyumen, he (Chupin I.A.), Rykov D. and Pakhomov V. were interviewed about his (Chupin I.A.) employment in the branch of QBF company in Tyumen. Pakhomov V.S. introduced himself as a co - owner of QBF responsible for the regional network. In June 2017, he (I.A. Chupin) started working as the Head of Investment Services Department of LLC KF Estate SPB in Tyumen. For about six months, during the probation period, he worked under a service contract. In January 2018, he continued working in the same position, but already under the employment contract concluded with him. The agreement on his employment was signed on behalf of V.S. Pakhomov, CEO of LLC KF Estate SPB. In March 2021, he (I.A. Chupin) was dismissed from OOO KF Estate SPB and employed by OOO IK QBF as director of the Tyumen branch. At that time, the former director of the company, D.I. Rykov, resigned from the company and he (I.A. Chupin) replaced him. From 2017 until March 2021, his direct supervisor was the director of the Tyumen branch Rykov D. According to the organised structure, his next supervisor was Pakhomov V.S. His (Chupin I.A.) duties as the head of the investment services department of LLC KF Estate SPB included implementation of the sales plan, work with personnel, and work with clients. As the Head of the Tyumen branch of QBF LLC, his duties included the same duties as in his previous position, only the duties related to the Tyumen office as a whole. In addition, he was responsible for the organisation of interaction with the regional centre in St. Petersburg. He was in direct contact with Pakhomov V.S. at joint meetings, communication with the Tyumen office staff when Pakhomov V.S. came there approximately once a quarter, as well as at meetings in the regional centre in St. Petersburg. The QBF brand ("QBF"), as the Tyumen office positioned it during training and presentations, included more than ten companies. Of these, he remembers QBF IK LLC, QBF Asset Management LLC, QCCI Ltd, White Lake Management Ltd, WLM, SIMTELLIGENCE COMPANY LIMITED, QBF Advisers LLC, QBF Advisory LLC, VL - Consulting LLC. The group of companies included both Russian and foreign companies. Also construction companies were associated with QBF group of companies, i.e. QBF brand during the training seminars, of which he remembers M1 Development LLC, Simon Jesso LLC. More companies related to construction were mentioned, but he does not remember their names. Pakhomov V.S. made final decisions on employment of employees of the branch network and in particular the sales department entrusted to him (Chupin I.A.), personally coordinated all financial expenses related to the activity of the Tyumen branch - from consumables to purchase of expensive office equipment, as well as marketing expenses. Pakhomov V. constantly monitored the fulfilment by the Tyumen branch of its targets and communicated not only with the head of the Tyumen branch, but also with him (Chupin I.A.) as the head of the department and ordinary financial advisors. V.S. Pakhomov had the broadest decision - making authority in the branch network. He (I.A. Chupin) and D. Rykov gained experience in the investment sphere, including qualification certificates, while working in the Tyumen office, learning during their employment with this company, including in the course of training sessions conducted by V. Pakhomov and employees of the central (Moscow) office of the company. The salaries of the branch employees, including the management staff, were fixed by the career model approved by the central office and the regional network management, thus the motivation of remuneration was approved, which implies payment of bonuses based on the results of the plan fulfilment. The Tyumen branch 90 per cent of the time did not fulfil the basic criteria, so the branch employees did not receive quarterly bonuses, but were satisfied with only a monthly salary. As explained to him (Chupin I.A.) by Golubev A.S., the amount of the unpaid bonus was distributed among the co - owners of the company, to whom he (Chupin I.A.) refers Pakhomov V.S., Munayev Z.V. and Shpakov R.V. The Tyumen branch was only a separate subdivision in a particular territory, therefore it was obliged to comply with the regulations prescribed by the centre of the regional network in St. Petersburg and the central Moscow office. There were cases of cash deposits by clients, which occurred only with foreign companies QCCI Ltd. or WLM. About 90% of contracts with foreign companies were accepted in cash,

both in roubles, euros and US dollars. Between 2017 and 2021, approximately RUB 400,000,000,000 - 450,000,000,000 was received in cash from customers in the Tyumen Branch in the rouble equivalent. The cash was accepted from customers by the manager working with that customer. The funds were then deposited in a safe located in the office of the director of the Tyumen branch. The director of the Tyumen branch informed Golubev A.S. or Pakhomov V.S. by corporate email (before 2019 to Pakhomov V.S., after 2019 to Golubev A.S.) of the transaction, indicating the contract number, the client's full name and the amount of cash received. Within 24 hours from the address of the above - mentioned heads of the branch network received an instruction on the procedure of cash collection, namely the data of an employee of the group of companies, who was to come and pick up these funds for their transport to the central office of the company in Moscow or St. Petersburg. These instructions could also be transmitted through correspondence in managers, calls to mobile or fixed (working) phones. The money was handed over to the courier from hand to hand, without any authorisation from the courier, in the building of the Tyumen office. The funds were handed over without any transfer or accompanying documents. The funds were in the form in which the client had handed them over, either in a bank wrapper or tied with a rubber band. The couriers transported the money in ordinary briefcases, bags, backpacks. Upon receipt of the cash, the client was given a receipt confirming receipt of the cash from the client, signed by representatives of QCCI Ltd. or WLM. From "QCCI Ltd." the receipts were signed by Gorobets E.V., from "WLM" by Korshunov D.A., representatives of these companies by power of attorney. These receipts together with customer contracts for the relevant product were received by the Tyumen office from the back office of the regional network in St. Petersburg. He personally observed how cash was taken from the Tyumen office and subsequently encashed by Yuri Orlov, Vladimir Maslennikov, Vladimir Pakhomov (on one occasion on 21.08.2019 in the amount of 15,000,000 rubles, received from the client Perevozkin V.V.), A. Golubev (1 time), Kirill Bogdanov, Avetis Vartanov. He (I.A. Chupin) transported cash to the office in Tyumen about twice from the office in St. Petersburg by order of A.S. Golubev and once from the central office in Moscow by order of V.S. Pakhomov. These funds were intended for cash dividend payments to clients of the Tyumen branch;

Borzenkov's attention to such an instrument as a personal investment fund. Borzenkov I.A. asked him (Golubev A.S.) to prepare information about this instrument, and he (Golubev A.S.) collected and sent this information to Borzenkov I.A. by e - mail. Later on, he (A.S. Golubev) and B.G. Pechersky met him (A.S. Golubev) in Kaliningrad in about 2017 and discussed his (B.G. Pechersky's) assistance in opening an office of IK - QBF LLC in Kaliningrad. B.G. Pechersky gave him (A.S. Golubev) recommendations on who to meet in the city in terms of potential clients and partners. He (A.S. Golubev) was introduced to B.G. Pechersky by S.N. Blik, who was the head of the office in Kaliningrad, introducing B.G. Pechersky as an influential person in Kaliningrad. The regional office in Kaliningrad was located in the building of a business centre, the address of which he does not remember.

Meetings with clients took place either in the office of OOO IC QBF or, at the client's request, in a restaurant. Sometimes meetings took place at the client's place of work or at the client's (client's) place of residence. The meeting places were always agreed with the client. He (A.S. Golubev) personally received cash from the client "hand - to - hand" once in St. Petersburg from a client named Egudkin. Sergei Blik, director of the branch office of OOO IC QBF, received cash from the company's clients in Kaliningrad. About three times he (A.S. Golubev) transported cash from Blik S. to St. Petersburg. The client was given a cash - in - transit order as a result of the cash transfer. The order had a number and was part of a standard trust management agreement concluded with the client. All documents of the standard agreement were scanned, scans were sent to the mail of the companies with which the agreements were concluded. In the corporate programme "ECRM" the data on receipt of money from the client were entered. The above - mentioned facts of receipt of money from clients by him (A.S. Golubev) concerned a company located in the Cayman Islands. Subsequently, from St. Petersburg the money from the above mentioned clients was sent by courier to Moscow. The couriers arrived after the information about the concluded transactions was sent from e - mail to the Cyprus company "QB Capital (QCCI)" or "WL Management LTD" (Cayman Islands). The money was handed over to the visiting couriers after they voiced a verbal password. There were several instances of money being handed over when the courier provided a written power of attorney. The verbal passwords were sent to him by S.A. Matyukhin or R.V. Shpakov in Telegram messenger. Sometimes the passwords came from unknown numbers, but the subscribers' numbers were confirmed by emails from QB Capital (QCCI) or WL Management LND;

- Protocol of confrontation between the accused A.S. Golubev and the witness D.I. Rykov

- Protocol of confrontation between the accused A.S. Golubev and the witness D.I. Rykov, during which the witness D.I. Rykov fully confirmed the testimony previously given by him as a witness, namely, that in LLC IC QBF he was officially the director of the branch office in Tyumen from July 2017 to 1 April 2020. Until 2019, his manager was Pakhomov V., who organised the branch office in Tyumen; he (Pakhomov V.) also employed him (Rykov D.I.). Around the end of 2018, beginning of 2019, he (D.I. Rykov) learnt from V.S. Pakhomov that the regional office would be headed by A. Golubev. S. and from that moment he was already subordinate to the latter. During the operation of the Tyumen office, he personally addressed A. Golubev on all issues related to the Company's activities since mid - 2018, and received answers from him (A.S. Golubev), namely, issues of concluding and closing transactions, structuring transactions, legal issues of registration, KPI issues, staff motivation and other issues. A.S. Golubev's duties included setting planned tasks for the branch, operational management of the branch network, control over the implementation of plans to attract clients, training of staff (including new employees), organisation of contacts with specialists of QBF Group on issues arising in the course of operations. In 2017. QBEF IK LLC worked in "liaison" with QB Capital located in the Republic of Cyprus. At the end of 2017, it became known that QB Capital was liquidated and its legal successor was Qusisiai. This information was communicated by Munaev Zelimkhan in the course of communication via VCS (video conferencing communication). Later on there appeared another group of companies: Whitelake Management, Simtelligence and a number of functional companies (VLM, VL Consulting), performing a certain function in the chain of interaction between the client on the territory of the Russian Federation, transfer of funds abroad and management of these funds by QBF Group. He had no information about whether or not QB Capital had any licences. QCF did not have a licence to carry out brokerage activities and, according to the information of the employees of the offices in Moscow and St. Petersburg, did not need such a licence, as the company was merely acting as an agent for the placement of clients' funds abroad. In general, information on the presence or absence of licences of companies outside the Russian jurisdiction was communicated by the management of the head office and regional centre through electronic correspondence, information on network discs and as part of training procedures (in - person and remote). He is aware of cases of cash deposits by clients. The predominant majority of clients' funds received in cash were accepted by financial advisors and kept in a safe at the Tyumen regional office. Clients, upon receipt of cash from them, were given a cash - in - transit order executed on behalf of foreign companies: QCB Capital,

QCI, VLM. During the period of the branch's operation, approximately 300 - 400 million roubles were received from clients in cash. The money was taken from the Tyumen office by employees of offices in Moscow and St. Petersburg. Of these employees he remembers Yuri Orlov, Maxim Fedorov, Vladimir Maslennikov, V.S. Pakhomov, A.S. Golubev, Kirill Bogdanov. He does not know where the money was collected. The instructions to collect the money were given verbally during telephone conversations and via messengers. Instructions on collection of funds and the person to whom they were to be transferred were received from Pakhomov V.S. and Golubev A.S. Cases of payments of funds to previously invested clients as dividend payments at the expense of funds received from new clients and use by the company of funds received from clients for other purposes not related to brokerage activities were present, but it happened infrequently. Such payments were related to the optimisation of logistics in carrying out couriers' activities. Sometimes it was necessary to pay out funds to a client (dividends, partial/full closing) and for this purpose newly received funds of another client were used. This eliminated the cost of courier services. Once there was a case of payment of salaries to employees in the Tyumen office out of cash received from a client;

- Protocol of confrontation between the accused A.S. Golubev and the witness I.A. Chupin

- Protocol of confrontation between the accused A.S. Golubev and the witness I.A. Chupin, during which the witness I.A. Chupin fully confirmed the testimony previously given by him as a witness, namely, that since June 2017 he started working as the head of the investment services department of LLC CF "EstateSPB" in the Tyumen branch. Since March 2021, he was employed by LLC IC QBIF as the director of the Tyumen branch, as the former director of the campaign, D.I. Rykov, resigned from the campaign. Since 2017, his (Chupin I.A.) immediate supervisor was the director of the Tyumen branch Rykov D. Around the middle of 2019, when Rykov D. switched to the work of the branch in Surgut - working on the opening of other "northern" offices, he (Chupin A.S.) was assigned by Golubev A.S. to deal with the activities of the Tyumen office as a manager, with the prospect of being appointed director. At that time he started to have regular contact with A.S. Golubev. He (A.S. Golubev) replaced V. Pakhomov, the director of the branch network of the QBG group of companies, who had moved to another position. He (I.A. Chupin) was actually, i.e. officially appointed to the position of Director of the Tyumen branch in March 2021. A.S. Golubev was contacted by telephone or video link. Approximately once a quarter, face - to - face meetings were held at the regional office in St. Petersburg. The decision to hire him (I.A. Chupin) was not made by S. Matyukhin, who was only the signatory of the relevant order. He believes that the decision to appoint him as the director of the Tyumen branch was made by A.S. Golubev. Since about 2017, clients have been offered trust and advisory management services by the Cyprus - based company Kiusiai, and since about the end of 2018 by the Cayman Islands - based company Wightlakechange. Whitelakechange did not have a licence, but only a registration in the register of the local regulator, the Cayman Islands Department of Money Circulation. It also offered brokerage services to Constancy Investment, a company based in the Republic of Cyprus. Since his employment there have been cases of receiving cash from clients both in rubles and in foreign currency. Cash deposits by clients were made only under contracts with foreign companies. Under contractual relations of clients with foreign companies, cash deposits were about 80 - 90% of the total amount. Cash was accepted by managers who worked with the client and then placed in a safe in the Tyumen office. Clients were given receipts for accepting cash on behalf of the foreign companies Cuspiai and VLM. In particular, when he was (without an official appointment) the head of the regional office, through the corporate mail of the group of companies, information (message) was sent to Golubev A.S. about cash receipts and their amount. Immediately, or after a short period of time, Golubev A.S. was instructed (by e - mail) to hand over the cash to a certain employee of the QBF group of companies who was to arrive for it. The exchange of information on cash collection with Golubev A.S. was also made by means of telephone conversations and messages in messengers, where the data of this employee were also indicated. The funds were subsequently transferred to him "from hand to hand", without any transfer documents. The management of the head office explained that the cash was subsequently transferred to the client's personal account. Pakhomov V., Orlov Yuri, Maslennikov Vladimir, and several times Kirill Bogdanov personally collected the cash. A.S. Golubev was in the office in Tyumen once and, as it seems to him, collected cash once. When

he (I.A. Chupin) was the head of the Tumen office, dividend payments were made from the cash received from clients. He received the order to pay dividends from Golubev A. There was also a case of giving the clients' cash to the office staff as a bonus (bonus) accrued earlier;

After he resigned from the CBR in approximately 2014, he worked at JSC Uralsib Management Company as Deputy General Director - Controller, where he was engaged in the implementation of functions related to the company's internal control to prevent violations of the securities market legislation. He worked in this position until his dismissal in 2017. In this regard, in 2017, he posted a CV on the Head Hunter classifieds site on the Internet, in which he indicated his CV and employment history, after which he was contacted by a representative of QBF, Svetlana Beloded, on the mobile phone number indicated in the advertisement, and invited to an interview for the position of Deputy General Director - Controller. The interview took place in the office of QBF, located in BC "Moscow City", located at the following address: Moscow, Presnenskaya nab. 8, p. 1, floor 9. 1, floor 9. His first interview was conducted by Beloded S., after which he was interviewed by Yuri Minaev, Deputy General Director of QBF Management Company LLC, and Dmitry Kipa, Director of the Investment Banking Department, both of whom were employees of QBF Group. He (S.A. Matyukhin) was then interviewed by Zelimkhan Munayev and Roman Shpakov, managers of QBF Group. After the interview he was interviewed by Vladimir Pakhomov, who also belonged to the management of the QBF group of companies. Based on the results of the interviews, he (S.A. Matyukhin) was hired as the General Director of LLC Investment Company QBF. On 25 July 2017, he was appointed to the position of General Director of QBIF Investment Company LLC (QBIF Investment Company LLC) on the basis of the Decision of the sole participant of QBIF Investment Company LLC - KG LLC ("QBIF Group") represented by Elena Olegovna Gorobets. Approximately on the same day he received this decision, signed in his absence by E.O. Gorobets. His salary was initially 100,000 roubles per month and then 200,000 roubles per month. His duties as general director of LLC "Investment Company QBF" included general management of the organisation's activities within the framework of licensed activities. From the moment of his employment as CEO, he immediately began to exercise full management of LLC Investment Company QBF and exercised it until the introduction of the temporary administration in 2021. He himself managed the organisation, made all decisions, determined the direction and conducted the financial and economic activities of the company. All documents were signed only by him, or by persons authorised to sign in his absence: Anastasia Koval, Operations Director, or Alexander Koloskov, Broker. At the time he was hired, he had about 15 - 20 people under his command, and then the staff increased to 40 people. The organisational structure of QBIF Investment Company LLC included the following divisions: Internal Control Service with Butkovskaya Vladislava as its head; Asset Management Department with Korolenko Alexey as its

head; Depository Operations Department with Tomara Elena as its head; Financial Market Support Department with Timokhin Oleg as its head; Midoffice with Kopylova Maria as its head; Anti - Money Laundering and Counter - Terrorism Financing Department with Head N.N. Koloskov as its head. On his behalf as the General Director of LLC Investment Company QBIF, powers of attorney in simple written form were executed for the heads of the branches in the above cities, but these powers of attorney provided for the authority to conclude contracts within the framework of professional activities (i.e. activities carried out on the basis of a licence). He remembers Alexey Golubev (St. Petersburg), Rykov (Tyumen), Iskhakov (Yekaterinburg), Artem (he does not remember his surname, the head of the Kazan branch) and the head of the Murmansk branch (he does not remember his details as he saw him once). The office of LLC Investment Company QBF and, accordingly, his (S.A. Matyukhin's) workplace was located in BC "Moscow City", located at the following address: Moscow, Presnenskaya Naberezhnaya, 8, p. 1, floor 11. 1, floor 11. The said organisation was engaged in trust management of assets of management founders, i.e. clients' assets, brokerage activities, depository activities, dealer activities, as well as activities of an investment advisor. When concluding a brokerage services agreement, the client signed a statement of adherence to the regulations on brokerage services (signed unilaterally due to the very concept of adherence agreement as a type of agreement). Further the client determined the section and types of transactions, in respect of which he plans to be serviced (by marking in the form established by the company). Further, depending on the types of transactions, a qualification procedure was carried out in relation to the clients and on the basis of their application, after which the client submitted orders for execution of transactions. Brokerage activity is understood as the activity of executing clients' orders. Accordingly, further on submission of an order by the client, the broker was obliged to execute it, i.e. he executed it in exact accordance with the terms of the order. There were two procedures for concluding contracts: in writing (in person) and by means of a remote electronic signature. On his (S.A. Matyukhin's) side, no signature was required by law for either of these procedures. When concluding the agreement in writing, the Regulations on Brokerage Services used his (S.A. Matyukhin's) signature (facsimile) on the application for accession, which was affixed in some cases and not affixed in some cases. The Regulation on rendering brokerage services by QBIF Investment Company LLC was placed on the website of QBIF LLC and is a public offer. Under this type of agreement, at least once a quarter, according to the regulations, it is stipulated to send to the client reports on the status of clients' accounts. The reports were automatically uploaded from the internal accounting database and sent to the clients. His task as the General Director was to monitor the timeliness of the reports, their content (availability of all necessary items for the report, reliability of the information provided to the client, absence of misleading the client). These reports were sent to clients without his signature, but in the manner prescribed by the regulations, namely from the company's e - mail specified in the regulations to the client's e - mail specified in the questionnaire at the conclusion of the contract. When the Client requested a report (for example, to confirm the costs of transferring assets to another broker, for the tax inspection and for other purposes), the report was generated by the back office manager (Timokhin Oleg) and sent to the Client signed by the relevant manager (Timokhin) and with his (Matyukhin S.A.) "live" signature. He could also put his signature in response to another request from the Client. Around 2019, the "NABIX" system of remote customer acceptance appeared. According to this system, all documents were signed by the customer using his electronic signature, and an application for joining sent to the company's email could thus have his signature affixed to it. Individual reports on request and responses to various client enquiries were sent to clients with his "live" signature. QBIF Investment Company LLC operated under licences issued by the Federal Financial Markets Service and the CBR. Funds were transferred to the company from the client's settlement account to special accounts opened by the company as part of its licenced activities. There were clients who, as part of their activities, brought cash, which was passed through the cash desk and cash receipt documents were issued for it. The company's settlement accounts were opened with Sberbank of Russia, VTB, Alfa - Bank, Bank Otkritie, Tinkoff - Bank, Bank Uralsib and NSD. He and Olga Vasyukova, the chief accountant, had access to the organisation's current accounts (after her duties were performed by Daria Filina". The ultimate beneficiary of the organisation's activities is Roman Shpakov, who is the 100% owner of the share of the founder of JSC Financial Group QBF, i.e. the company JSC Financial Group QBF. Clients were attracted to QBIF Investment Company LLC in the following way. There were clients who came to the company independently, i.e. received information on the Internet site or from other open sources. There were also clients who came on recommendation and there were agents, i.e. legal entities that were engaged in attracting clients. In addition, there were clients who were attracted through banks. The procedure of execution of contractual

relations with the client was carried out either remotely, i.e. through the Nabix programme, which was accessed by agents and provided by potential clients, or in person at the office of QBIF Investment Company LLC. The preparation of contracts was handled by "midlofis" employees. The group of JSC "QBF Financial Group", i.e. the parent company owned by R.V. Shpakov, also includes: LLC "QBF Investment Company", i.e. the organisation where he (S.A. Matyukhin) is the CEO, LLC "QBF Management Company", the head of which is Yaroslava Smirnova, and other companies that R.V. Shpakov used in his activities. Around the end of 2017, he became aware that QBF had contractual relationships with individuals for the provision of "trust management" services, with the funds of these clients being accepted by the Cypriot jurisdiction, QB Capital Limited (later renamed QBCI). The funds were not returned to these clients, the return of funds was delayed, and there were numerous complaints from clients. This scheme of dealing with clients was illegal and put the licence company IK QBF Ltd at risk. He reported about it to R.V. Shpakov, Z.V. Munayev and V. Pakhomov. They made a decision to change the scheme of work in foreign jurisdictions, OOO IK QBF was completely removed from contractual relations, the Cyprus company QB Capital Limited was decided to liquidate. Simtelligence Company Limited and White Lake Management Limited, QB Adviser LLC, VL Consulting LLC were established in their place. This decision could have been made by the management: Shpakov, Munayev, Pakhov, Athanasiadou Linda. In October 2017, a decision was made to reorganise QBIF Investment Company LLC in the form of a spin - off, i.e. QBIF LLC was spun off from QBIF Investment Company LLC. KG LLC was the sole participant of QBF LLC. Feoktistov was appointed General Director of QBF LLC. The list of creditors was formed for about half a year. The rights and obligations under previously concluded contracts were transferred to QBF LLC as a result of the reorganisation. Information about the reorganisation was disclosed within half a year, during this time no objections from creditors or any of their claims were received by QBIF Investment Company. The notification was carried out by means of information disclosure on the website through the information resource established by law ("Vestnik"). After the reorganisation, the company "QBIF Investment Company" continued to carry out professional activities. In 2017, the Company was audited by the Central Bank of the Russian Federation. Based on the results of this inspection, the Bank of Russia identified violations of its activities. It eliminated these violations and the company continued to operate. Starting from 2018, work with clients in a foreign jurisdiction was organised as follows: a client who came to IC QBF LLC entered into agreements on providing access to international trading platforms with Simtelligence Company Limited and White Lake Management Limited; the client also entered into agreements on providing "trust management" services with QB Advisor LLC, VL Consulting LLC. Numerous complaints were also received from clients regarding non - return of invested funds or significant delays in return. And since the client was informed by managers: Spinka R., Padalko N., Maslennikov V., when concluding the above agreements that all these organisations were affiliated to IC QBF LLC, the client wrote complaints to supervisory and law enforcement authorities, referring to IC QBF LLC. The following persons were aware of the activities of the foreign jurisdiction and made decisions within their competences: R. Shpakov, Z. Munayev, V. Pakhomov, E. Rossieva, Athanasiadou Linda and sales managers R. Spinka, N. Padalko, Maslennikov V. In his activity Shpakov Roman Valerievich used other organisations: JSC Financial Group QBF, JSC Marketplace My Finance, JSC RIF, LLC VL - Consulting, LLC Indep Smart, LLC Investment Company QBF, LLC CBF Asset Management, LLC KG, LLC K - Investment, LLC K - Consulting, LLC KF Estate SPB, LLC Q.Broker, LLC Quby Group, LLC Quby Credit, LLC Qubyef Advisory, LLC Qubyef, LLC Qusisiai, LLC Millhouse Invest, LLC Profi, LLC Rentinvest, LLC Severspetsstroy, LLC Simon Jesso, MC Granat LLC, F - Management LLC, F - Technologies LLC, F - Technologies LLC, F - Expert LLC, PJSC Venture Finance Centre, White Lake Management Ltd, QB Capital (later QCCI), Simtelligence Company Limited. Some of the above organisations were used in financial activities, some in development projects, some of the above organisations had auxiliary functions in conducting business projects. Munaev Zelimkhan was responsible for expanding the client base in Moscow and Pakhomov Vladimir was responsible for expanding the client base in the regions. Linda Athanasiadou was in charge of the foreign part of Shpakov R.'s business, including Cyprus. Evgenia Rossieva was responsible for legal support of contractual relations between White Lake Management Ltd, QB Capital (later QCCI), Simtelligence Company Limited, IK QBF Ltd, QBF Advisers Ltd, VL Consulting Ltd and clients. Direct interaction with clients was carried out by employees of the Sales Department, the head of which, since 2020, was Ruslan Spinka. Sales managers were, among others, Korzh Andrey, Maslennikov Vladimir (after 2018 transferred to the client support department), Padalko Nikolay (until 2018), Golubev Alexey, Vlasov Pavel (until 2018). The activity of raising money from citizens, according to R. Shpakov, was organised since 2012. From about 2014 onwards, problems with cash payments to clients began to arise. The money was not returned

to some clients, some clients were returned with significant time delays. And by that time the flow of incoming clients had multiplied. Problems with the return of funds to clients began because of the start of Shpakov R.'s development project to build a cottage village "Gribovsky les" in the Odintsovsky district. Shpakov R. could use the funds from the investment area specifically in a foreign jurisdiction to close financial expenses in the construction project. The motivation of the employees of the sales department was directly related to the fulfilled plan for attracting clients and interest from the amounts deposited by citizens. Part of the financial flows from the activity of raising funds for the foreign jurisdiction could be distributed between Shlakov R., Munayev 3., Pakhomov V., Linda A.. In cash raising activities prior to the beginning of 2018, Shpakov R., Munayev 3., Pakhomov V., Linda A., QB Capital (later QCCI) and QBIF LLC were used by each of them within the framework of their functional duties, after 2018 the licensed organisation QBIF LLC was no longer used, instead White Lake Management Ltd, Simitelligence Company Limited, QBIF LLC, VL Consulting LLC were used by R.V. Shpakov. He (S.A. Matyukhin) insisted on removing IC QBIF LLC from the above scheme when he was employed by QBF in the summer of 2017. R.V. Shpakov, 3. Munayev and V. Pakhomov had doubts on this issue, as the QBF brand is promoted and known, the flow of clients was significant. But later the decision was made, probably influenced by an unscheduled inspection of the Central Bank of Russia. In April 2021 the second inspection of the Central Bank of LLC "Investment Company QBIF" began, after which it was decided to cancel all 4 licences of the company. In September 2021, based on the order of the Central Bank of the Russian Federation, a temporary administration was introduced in the company "QBIF Investment Company" LLC, and by the same order the powers of the sole executive body of the company (i.e. him as CEO) were suspended. On 15.10.2021 the head of the temporary administration issued an order to determine the period of time during which he (S.A. Matyukhin) should appear in the office and provide information to the temporary administration, give answers to questions. At the end of February 2022, he received a demand from the manager to hand over the FANCY database and the server access key. To this request he received a reply that the database was seized on 26.05.2021 during the search by the Ministry of Internal Affairs, he does not have the keys to the server, as well as the fact that IT - support was not provided by the employees of the Investment Company QBIF LLC, but by the company F - Management LLC on the basis of contractual relations. On 04.03.2022 the head of the temporary administration of "QBIF Investment Company" LLC made a decision to suspend him (S.A. Matyukhin) from work and from his position, accordingly his dismissal from the company was issued. Starting from May 2021 to July 2021, as the General Director of LLC IC QB&Ef, he, as the General Director of LLC QB&Ef, requested from LLC Q-BROKER by sending to the official e - mail address of LLC Q-BROKER provided for in the contract, as well as by sending a registered letter by Russian Post a business plan, financial model, primary accounting documents confirming the composition and structure of assets and liabilities, as well as sending on a daily basis requests to exercise options and replenish the special brokerage account. Starting from June 2021, 2 pre - trial claims were sent to Q-BROKER LLC in connection with the failure of Q-BROKER LLC to fulfil its obligations under previously concluded options in which Q-BROKER LLC acted as a seller. Subsequently, a claim was filed with the Moscow Arbitration Court against Q-BROKER LLC. OTC transactions with derivative financial instruments were executed by the Broker on the basis of clients' orders, the terms of which contained information that the obligations under the contracts were to be fulfilled by the seller of the options - Q-BROKER LLC, as well as that it was an affiliated entity of QBIF LLC, that there might be a conflict of interest, that there might be violations of terms on the part of the seller of options. Within the framework of brokerage activities of QBIF LLC, transactions with derivative financial instruments (options) were carried out by persons who are qualified investors and recognised as such by the Company on the basis of their application and in compliance with the requirements established by Federal Law No. 39 - FZ "On the Securities Market". For the Company to recognise a client as a qualified investor, one of the following requirements must be met: the amount of funds on the client's accounts with credit institutions must have been at least RUB 6 million; the client must have had a turnover on securities transactions in the amount and within the timeframes stipulated by Federal Law No. 39 - FZ; the client has a qualification certificate of a financial market specialist, which is obtained either in self - regulatory organisations determined by the Central Bank of the Russian Federation, or is confirmed by a document of higher education, and the client has a higher education certificate. Clients made decisions to execute transactions independently, had the opportunity to familiarise themselves with the terms and conditions of orders (transactions), signed a risk declaration and were professional participants of the securities market. Brokerage activities, namely execution of clients' orders for civil law transactions with securities or financial instruments, were regulated by Federal Law No. 39 - FZ "On the Securities

Market". The requirements for derivative financial instruments, futures contracts (options) are defined by the Central Bank of the Russian Federation's Guidelines. For settlements within the brokerage activity the client sends funds to a special brokerage account, the right to use which is restricted by the legislation, i.e. IC QBF LLC is not entitled to use funds without the client's instruction. All transactions executed by the Broker (OOO IC QB&EF) under the brokerage service agreements are executed by the Broker on the basis of the clients' instructions. All orders given by clients to the Broker were stored electronically in the company, as well as clients' applications for joining the brokerage service regulations, as well as documents confirming the client's qualification, all payment documents within the framework of transaction execution. All option funds were received by Q-BROKER Ltd. as it was the seller of options, which was known to the clients in advance and they were familiarised with it by signing their orders for transactions. He had nothing to do with Q-BROKER Ltd;

Abdukadyrov's testimony, given by him as a witness, according to which in September 2014, on the recommendation of his acquaintance named Pavel, he was employed at QBF LLC as a junior financial advisor. Then, in about February 2015, he (Abdukadyrov A.A.) was reemployed at QBF Investment LLC as a financial advisor, in this position he worked until the end of 2018. In December 2018, he resigned from QBF Investment LLC and was employed by third - party organisations, namely JSC "BCS" JSC "Otkritie Broker". In approximately March 2021, he (A.A. He was sometimes present at the signing of documents between clients and QB Capital, but did not participate. The ultimate head of the QBF group of companies is Roman Valeryevich Shpakov. - R.F. Amerov's testimony as a witness

R.F. Amerov's testimony as a witness, according to which in 2017, the exact date he does not remember, he became an employee of LLC "K - consulting" as the director of the department for work with partners and counterparties with a salary of approximately 200,000 rubles per month, which he received in cash. He received his salary in the accounting department. The salaries were placed on a table in a common area with names on each envelope, and he would take the envelope with his name on it. Subsequently, he signed the prepared statement for the money received earlier. K - Consulting LLC was actually part of the QBF group of companies, but these organisations had no legal relationship to each other. All employees of K - Consulting LLC sold products of the QBF group of companies, as there was no independent activity in K - Consulting LLC. K - Consulting LLC actually paid salaries to him and other employees of the organisation, which were approximately 20 - 30 people. The main activity of the QBF group of companies was attracting clients for the sale of investment products and trust management of money invested by clients. On the instructions of Zelimkhan Munayev, in 2019 he organised cooperation between QBIF LLC and Vostochny Bank on the basis of an agency agreement, under which the bank's employees attracted clients for the sale of QBIF LLC products, namely trust management (trust management). The work was organised in about 20 cities, including St. Petersburg. For convenient work on sale of financial products of IK QBF LLC using a special website, on the initiative of Munaev Zelimkhan, Marketplace My Finance JSC was established, where he (R.F. Amerov) was also the founder and general director on the instructions of Munaev Zelimkhan. Later, namely in August 2020, on the instructions of Zelimkhan Munaev, he (R.F. Amerov) became a participant of LLC "MC Granat" in the amount of 9.9% of the shares of the authorised capital, which amounted to 4,455,000 roubles. He became a participant as a natural person, however, soon after, on the instructions of Munaev Zelimkhan there was a change of the participant of the Company in the person of him (R.F. Amerov) to JSC "Marketplace My Finance". He was elected Chairman of the Board of Directors of MC Granat LLC by the general decision of the Company's participants. In 2021, the exact date he does not remember, LLC MC Granat was renamed LLC MC Moi Finansy, in accordance with the general development strategy of the company, which was planned by Roman Shpakov and Zelimkhan Munayev. The director of MC Granat LLC and later MC Moi Finansy LLC was Rybalka Irina Vasilievna. I.V. Rybalka has been the CEO of this company for a long time and is not affiliated and controlled by Roman Shpakov and Zelimkhan Munaev. The participants of MC Moi Finansy LLC include the following persons who previously worked at QBF Group and he knows them personally: Bogdanova Kristina Vladislavovna; Gramza Ekaterina Valeryevna; Korzh Andrey Vasilyevich; Maslennikov Vladimir Alexandrovich; Mikhalevich Evgeny Vladimirovich; Orlov Yuri Nikolayevich; Spinka Ruslan Valeryevich; Fedorov Maxim Sergeevich; Artem Olegovich Tallerov; JSC Marketplace My Finance INN 9703012630, where he is the CEO and sole participant; Olga Dmitrievna Matyukhina, who is the mother of Stanislav Matyukhin, formerly of QBF Group. He (R.F. Amerov) has never met her (O.D. Matyukhina) and does not know her personally. All the above - mentioned participants of this Company do not make any independent decisions when participating in the Company, as they are controlled by the management of the group of companies "QBF" represented by Shpakov Roman through his proxies, possibly

Matyukhin Stanislav, as initially Matyukhin Stanislav was an authorised person from Shpakov Roman when carrying out any actions related to LLC "MC Moi Finansy". He does not know where Roman Shpakov is at present. He learns all information about Roman Shpakov and other management of QBF Group from publicly available sources of information. He, as well as Marketplace My Finance JSC are currently independent persons from the opinion of the management of QBF Group and are not controlled by Shpakov Roman. He explained that the company QBF Consulting Ltd. was in the QBF group of companies and had employees. QBF - Consulting LLC did not have its own products, he does not know what specific activities the company carried out apart from employment of part of the staff of QBF group of companies. His manager was directly Munayev Zelimkhan, who hired him and set his tasks. Of the banks involved, we managed to conclude an agency agreement only with Bank Vostochny and Kamsky Commercial Bank. There were no sales in Kamsky Commercial Bank. Munaev Zelimkhan negotiated the launch of sales in Bank Vostochny at a high level, he said - with the board of the bank. His communication was with Vladimir Kudryashov - at that time Director for commission products of the bank. His (Kudryashov's) area of responsibility included conclusion of an agency agreement with QBIF LLC for sales of Vostochny. Stable Growth", as well as setting planned norms for the bank's network of additional offices. He (R.F. Amerov) had the task of hiring trainers (coaches) for training in the product of ISI "Vostochny. Stable Growth" from QBIF LLC (the CEO was Stanislav Matyukhin) to the bank's retail employees, and to assist in the product's execution via software. The sales pilot started in 2019, scaling sales (approximately 20 cities) was in 2020. The total amount of funds raised in the Vostochny Stable Growth DM (IIS) product was approximately RUB 800 million. From the sales volume, QBIF LLC took a commission for the initial placement of funds (published in the DM regulations, which were posted on the company's website in accordance with the requirements of the Central Bank), of which a part paid to the bank an agency fee for attracting clients on the basis of the agency agreement between Vostochny Bank and QBIF LLC. In 2020, the bank, namely Vladimir Kudryashov, said that the DM product "Vostochny. Stable Growth" does not compete with the products of competitors, namely BCS and ITA, due to the fact that there is no capital protection in DU. And in order to increase sales indicators and to give for distribution all regions of the Russian Federation, where there are additional offices of the bank, it was required (according to Vladimir Kudryashov) to make the product like the competitors. Thus, QBF's legal department, namely Evgenia Rossieva (Head of Department) presented the product OTC Option Contract (OOC), where the underlying asset was shares and bonds, as in the product of the "Vostochny Stable Growth", as well as the possibility of capital protection in case the market of shares and bonds fell. This product satisfied Vladimir Kudryashov and the rest of the bank's executives. The launch of this product implied conclusion of a separate agreement with the bank, where there were 3 parties - Bank Vostochny, QBIF LLC and QBroker LLC. QBroker LLC was registered at that time, the general director was Roman Shpakov. The Bank asked, as part of the agreement, to advance commission for sales of this product in the amount of approximately RUB 200 million for a year of sales in advance. The sales plan in the contract was more than 1 billion roubles. After signing the agreement, the actual sales were about 98 for the amount of about 20 million rubles, then the bank stopped sales and returned the advanced amount back to LLC IC QBF or LLC QBroker - he does not know to whom exactly - he does not remember all the details of the agreement. After the sales stopped, the bank froze the project and there were no more sales. There were no new banks on a similar algorithm of co - operation. Subsequently, there were about 12 refusals at the stage of tenders from banks. In June 2020, he was offered to start developing sales through agents - individuals of IIS and IOU product, to develop consulting services for corporate clients (organisation of exchange - traded bonds issue for medium - sized businesses), and to launch a project office inside the company to launch these projects. Thus, in June 2020 he was transferred to the position of Executive Director at K - Consulting Ltd. There were practically no sales in the agency network and corporate direction. There were less than 10 transactions in the IIS business, and in the IOD business he finds it difficult to answer - perhaps there were none at all. None of the projects in the corporate area had time to be launched. The project office was engaged in preparation of agency agreements, software customisation, as well as creation of client paths for online and offline sales, and provided assistance (coordination) on other projects of the company. Also, in July 2020 Munaev Zelimkhan offered him to lead the project "Marketplace My Finance", the purpose of which was to create a website and aggregate on it products of mutual funds, mutual funds of Central Bank - licensed management and investment companies in the Russian Federation, as well as advisory products for individuals and legal entities (tax consulting, assistance in obtaining tax deductions, etc.), banking products (cards, deposits, loans), telemedicine - from service providers. The list of these products was also to include products of QBF
